Dumbing Us Down John Taylor Gatto, 2002-02-01 With over 70,000 copies of the first edition in print, this radical treatise on public education has been a New Society Publishers' bestseller for 10 years! Thirty years in New York City's public schools led John Gatto to the sad conclusion that compulsory schooling does little but teach young people to follow orders like cogs in an industrial machine. This second edition describes the wide-spread impact of the book and Gatto's guerrilla teaching. John Gatto has been a teacher for 30 years and is a recipient of the New York State Teacher of the Year award. His other titles include *A Different Kind of Teacher* (Berkeley Hills Books, 2001) and *The Underground History of American Education* (Oxford Village Press, 2000).

Learning Unleashed Evonne E. Rogers, 2016-08-30 Children enter the world curiously hard-wired for creativity and imagination. After a few short years of school, something drastically changes for them. Why? There is an unmistakable and deliberate attempt to control the learning of young people who find themselves sitting in our schools. The industrial model of schooling has taken its toll and victims without remorse. It programs curious young minds to become helpless, dependent, and compliant. It is manipulation and malpractice, but few seem to notice or care. After years of observing and participating in some of these questionable practices herself, Evonne decided it was time to tell the truth about schools. With a credible and strong voice, Evonne tackles the "sacred school rituals" that are rarely questioned and widely accepted as normal. She transparently leads the reader through firmly-held and often faulty assumptions about schooling practices. She offers common sense solutions that challenge us to re-imagine how we do school in this country. With strong conviction, passion, and a call to action, she encourages us to hear and listen to the voices of our children who are crying out for the freedom to

learn.

Summary of John Taylor Gatto's Dumbing Us Down Milkyway Media,2024-01-22 Get the Summary of John Taylor Gatto's Dumbing Us Down in 20 minutes. Please note: This is a summary & not the original book. Dumbing Us Down by John Taylor Gatto is a critical examination of the American education system. Gatto, an experienced teacher, identifies a hidden curriculum within schools that teaches seven detrimental lessons: confusion, class position, indifference, emotional and intellectual dependency, conditional self-esteem, and the impossibility of hiding. These lessons promote conformity, obedience, and reliance on authority, stifling independent thought and action...

Becoming Brilliant Roberta Michnick Golinkoff,Kathy Hirsh-Pasek,2016-05-16 In just a few years, today's children and teens will forge careers that look nothing like those that were available to their parents or grandparents. While the U.S. economy becomes ever more information-driven, our system of education seems stuck on the idea that "content is king," neglecting other skills that 21st century citizens sorely need. Becoming Brilliant offers solutions that parents can implement right now. Backed by the latest scientific evidence and illustrated with examples of what's being done right in schools today, this book introduces the 6Cs—collaboration, communication, content, critical thinking, creative innovation, and confidence—along with ways parents can nurture their children's development in each area.

Walking on Water Derrick Jensen,2005-04-30 Remember the days of longing for the hands on the classroom clock to move faster? Most of us would say we love to learn, but we hated school. Why is that? What happens to creativity and individuality as we pass through the educational system? Walking on Water is a startling and provocative look at teaching, writing, creativity, and life by a writer increasingly recognized for his passionate and articulate critique of modern

civilization. This time Derrick Jensen brings us into his classroom--whether college or maximum security prison--where he teaches writing. He reveals how schools perpetuate the great illusion that happiness lies outside of ourselves and that learning to please and submit to those in power makes us into lifelong clock-watchers. As a writing teacher Jensen guides his students out of the confines of traditional education to find their own voices, freedom, and creativity. Jensen's great gift as a teacher and writer is to bring us fully alive at the same moment he is making us confront our losses and count our defeats. It is at the center of *Walking on Water*, a book that is not only a hard-hitting and sometimes scathing critique of our current educational system and not only a hands-on method for learning how to write, but, like Julia Cameron's *The Artist's Way*, a lesson on how to connect to the core of our creative selves, to the miracle of waking up and arriving breathless (but with dry feet) on the far shore.

The Derrick Jensen Reader Derrick Jensen, 2012-07-03 In an age marked by seemingly unstoppable environmental collapse and the urgent quest for solutions, environmental philosopher Derrick Jensen, the voice of the growing deep ecology movement, reveals for us new seeds of hope. Here for the first time in *The Derrick Jensen Reader* are collected generous selections from his prescient, unflinching books on the problem of civilization and the path to true resistance. In the acclaimed *A Language Older Than Words*, Jensen dissects his own abusive childhood to examine the pathology of Western culture and shares with us the power and beauty of an alliance with the natural world. He continues to use the lens of his own experience as well as the wisdom of philosophers, activists, and teachers to expose oppression and call us to action in his other early works, *Listening to the Land*, *A Culture of Make Believe*, *Strangely Like War*, and *Walking on Water*. We see his analysis deepen when he asks us to accept that the only moral response to biocide is resistance in the two-volume *Endgame*, a truth he explores further in *Thought to Exist in the Wild*, *What We Leave Behind*, the graphic novel *As The World Burns*, and in his two novels, *Songs of the Dead* and *Lives Less Valuable*. And in *Dreams*, Jensen's latest work, he leads us still further toward his vision for a healed planet, freeing us to see beyond the limits of our present culture to a future luminous with meaning.

Teaching the Personal and the Political William Ayers, 2004-04-17 These essays follow a veteran teacher educator and school reform activist as he tries to understand an enterprise he calls mysterious and immeasurable. By focusing on the authentic experiences of teaching and learning that he has lived over the past 15 years, Bill Ayers reconsiders, argues, reflects, and searches for ways to break through the routine and the ordinary to see teaching as the important and extraordinary work it is. Covering a range of issues—standards, equity, testing, professionalism—this book shows us teaching as an achingly personal calling, and ultimately as a social and a political act. With these essays, Bill Ayers invites teachers into a wonderful conversation about the meaning of teaching as craft, as art, as vocation. He reminds us that an active kind of hope is at the core of teaching, seeing things both as they are and as they could be.

The Freedom Handbook Luke Denis, Chris Hampton, 2017-03-03 SHOCKING, BEAUTIFUL, PROVOCATIVE and WILD A big, bold manifesto covering most of our world's issues, this message feels good and positive overall because it's stacked with solutions that sandwich all problems. It reads easily and surprisingly quickly, yet it constantly challenges you and evokes a wide range of powerful emotion. Recognizing the enormous task of changing beliefs, you feel supported at times through a wild journey and the chapter A Whole World's Dark Night of the Soul offers solid footing in scary territory. This is an impassioned guide to breaking the chains that hold humanity back and an insightful, inciting examination of the juxtaposition between mankind's infinite potential and the limitations imposed by the plutocracy that will leave you vibrating with excitement! SOLUTIONS TO END THE LEFT/RIGHT DEBATE Refreshingly principled non partisan look at politics and the world Our future is our choice. Orwellian squared or freedom. This handbook ignores the rabbit holes and evidences just how moot most of these issues truly are. Taking out the trash from our conversations allows us to focus on the core issues. Socialists, libertarians, anarchists, and fans of democracy alike can all find common ground and answers to valid concerns in this strikingly straightforward set of ideas and strategy. STRIKING DECISIVENESS AND SURPRISING DIRECT ACTION Packing a lot of sense, punch and power to help freedom gain more ground and all of humanity to live happier, healthier lives, *The Freedom Handbook* also provides fascinating insight into the ideas and thinking of two of today's newest and loudest voices for freedom Luke Denis and Chris Hampton, co-founders of the new controversial media channel Incite Insight.

Take Back the Land Rick Boyer, 2011 Challenging today's youth to action with a mission to restore Christian values! America declared her right to independence based on the laws of nature and nature's God. Her Founding Fathers were overwhelmingly God-fearing Christian men who built our government and society on principles they found in God's Word. Current social and political events are shouting to the church to take action. Take back the Land will motivate youth to be a part of this growing voice for reformation! It's not enough to just hope for change, and complain when it doesn't happen. Become the change that brings America back to its Christ-focused foundations!

The truth is, homeschooling sets today's

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book, *The State of the American Mind: Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious, perplexing, embarrassing and enduring problems and contradictions of American history and sociology, viz., how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious, exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement, etc. Further, how could men of such great wisdom and intellect like George Washington, James Madison, Thomas Jefferson, and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil, because they had variously experienced white servitude and slavery themselves, collude to establish and institutionalize the horrible system of Negro chattel slavery in America; and also disenfranchised over 90 percent of people of their own race actions that racism could not explain. The structural/institutional slavery system they established, and the resultant consequent racism hobbles America today as it did in the past, and forced Eric Holder, the Attorney General to declare that, America is a nation of cowards, when it comes to race discussions. Thus, this book starts with serious critical discussions of race in America and reveals what no textbook has ever done, viz., that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains. Further, the book also shows the year Black slavery started something almost, all textbooks got wrong. It also shows who, was the first Black slave in America something no textbook ever mentions. It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward. This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom, as Obama famously told us in his race speech. Thus, the crowning lesson of this book, in addition to discussing some critical policy issues like education, health care, etc., is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry, their

universal history and experience of servitude, bond-indentures and slavery. Nothing is more universal, more common and more shared in American history and sociology than the fact that most of our ancestors, black and white, were servants, bond-indentures and slaves who were dominated and super-exploited by few overlords. Colonial America was the preferred dumping ground for British, outcasts, rejects, criminals, masterless class, vagabonds, bond-indentures, slaves, etc., until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens. Thus, that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good, powerful achieving citizens do not normally emigrate to new uncharted lands.

Homeschooling Ginny Yurich, MEd, 2025-05-27 During the past five years, homeschooling rates have been on the rise and show no signs of slowing. But many parents lack confidence, questioning whether they are doing it right (or whether they should take the plunge at all). With so many voices offering conflicting advice, it's hard to know where to start and where to go from there. A homeschooling mother of five and founder of 1000 Hours Outside, Ginny Yurich draws from her years of experience and research, as well as her master's degree in education from the University of Michigan, to encourage and equip parents who want to give homeschooling a try or want to improve their experience. Starting from the standpoint of you're doing it right instead of you're doing it wrong, Ginny helps parents understand that just by choosing to homeschool they are · learning through living · allowing for individual timelines · leaving space for boredom · providing multiage experiences · teaching self-reliance · offering freedom · slowing down · and more If you've been on the fence about homeschooling or wondering if you're doing it all wrong, let Ginny encourage you in all you've already accomplished and equip you for even greater things ahead.

You Are God Merrilyn Richardson, 2012-12-04 So writes Merrilyn Richardson in *You Are God: The Challenge to Achieve Christ Consciousness in the Modern Era*. Richardson States that her viewpoint is based on the values of the founders of our Republic. The founders, she notes, established our ideals of individual freedom but gave final authority to the people who put their trust in God. In *You Are God*, she adroitly weaves, together secular and Spiritual subjects to help readers come to an expanded understanding of current circumstances. She tackles the major challenges our nation currently faces, along with their causes and consequences, and then offers principled solutions. Before addressing the weighty topic of our nation's current crisis of indebtedness, however, she begins, quite logically, at the beginning-who we are and from whence we came. We are spiritual beings having a human experience, filled with intelligence of the highest order, or God. But we also have free will- one of mankind's first gifts from the Creator- and so she addresses the causes of our not living up to the ideal of perfection. Book jacket.
