Ciencia, arte e ilusión en la España ilustrada Jesusa Vega,2010 La mentalidad ilustrada transformó profundamente los gustos y costumbres a partir de la filosofía del progreso asentada en la Ciencia. España participó de este proceso y a lo largo del siglo XVIII se vivió una internacionalización del pensamiento que trajo consigo la modernización de costumbres y estructuras, especialmente las administrativas, facilitando la evolución de la sociedad. Las páginas de este libro son un medio para aproximarse a la cultura dieciochesca y su revolución visual. A través de ingenios y artefactos, la Ciencia, el Arte y la Ilusión fueron degustados y practicados por los ilustrados españoles, lo que queda reflejado en este volumen con el objetivo de aportar una aproximación lo más fidedigna posible del advenimiento del mundo moderno en España.

The Creole Jesuits in Nueva España in 1767 Robert H. Jackson, 2025-07-13 On June 25, 1767, Spanish royal officials began to implement the order of King Carlos III to expel the members of the Society of Jesus (Jesuits) from all Spanish territories. At the time of the expulsion there were some 2,400 Jesuits in Spanish America. They played an important role in urban centers as educators and in the spiritual lives of city-folk, and they staffed frontier missions. The King ordered that the Jesuits be exiled in the Papal States (modern Italy), but ironically the majority of the Jesuits in the Americas were born in the Americas. This study focuses on the Jesuit Province of New Spain (Mexico, Cuba, Guatemala) at the time of the expulsion, and offers a detailed analysis of the organization and activities of the Jesuits, their identity through a prosogrographic study, and architectural patrimony. This study will be of interest to specialists in colonial Latin American history, architecture, and Jesuit studies, and general readers.

Joaquín Rodrigo Walter Aaron Clark, 2021-05-30 Winner of the 2023 Vincent H. Duckles Award, Music Library Association Joaquín Rodrigo: A Research and Information Guide catalogues and summarizes the musical works and related literature of Joaquín Rodrigo (1901-99), perhaps the most important Spanish composer of concert music in the second half of the twentieth century. The guide provides annotated bibliographic entries for both primary and secondary sources, detailing several guitar concertos, concertos for flute, violin, harp, cello, and piano, as well as symphonic pieces, piano solos, chamber

music, and choral and stage works. Rodrigo's reputation rests on the *Concierto de Aranjuez* for guitar and orchestra and its expressive middle movement, which inspired jazz arrangements by Miles Davis and Chick Corea in the 1960s and continues to appear in film scores even eighty years after its composition. A major reference tool for all those interested in the prolific Rodrigo and his music—featuring a chronology of the composer's life and robust indices that enable researchers to easily locate sources by author, composition, or subject—Joaquín Rodrigo: A Research and Information Guide is a valuable resource for students and researchers alike.

Leonardo da Vinci and Architecture Sabine Frommel, Jean Guillaume, 2025-02-10 Found scattered among his numerous manuscripts, Leonardo's studies on architecture were conceived during an artistic journey of close to fifty years while their author was in the service of the most prestigious patrons. Dealing with churches, ephemeral monuments, urban reconstruction, fortifications, palaces and villas, and painted architecture—mostly ideal in nature—they are part of the architectural evolution of the late quattrocento and early cinquecento. Leonardo's drawings assimilate the ideas of the pioneers of Renaissance architecture and focus on particular aspects, such as interventions on existing structures, classical orders, staircases, and decoration. Leonardo's analysis sheds light on dialogues with Bramante, Francesco di Giorgio, Giuliano da Sangallo, Michelangelo, Baldassare Peruzzi and Antonio da Sangallo the Younger and allows us to better understand whether his contributions were innovative, or singular interpretations of the achievements of his time. This is an augmented translation of *Leonardo e l'architettura* (Modena: Franco Cosimo Panini, 2019)

Without Borders or Limits Jorell A. Meléndez Badillo, Nathan J. Jun, 2013-07-29 This collection of articles contains the English contributions to the 4th Austrian Students' Conference of Linguistics (Österreichische Studierend-Konferenz der Linguistik, ÖSKL), which was held in November 2011 at the University of Innsbruck. With this collection, the editors want to make the insights and the knowledge presented at the 4th ÖSKL available in written format to a wider public. The contributions present in this collection are excerpts from PhD as well as diploma theses and seminar papers. The fifteen papers collected in this volume are very diverse, as are the authors themselves, who come from nine different countries, from Portugal in the West, Iran in the East and Norway in the North. The papers come from a variety of linguistic subdisciplines. Besides a strong focus on syntax, cognitive and historical linguistics, there are papers exploring pragmatics, foreign language acquisition, phonology and sociolinguistics. This volume of collected essays brings together conversations, papers, and debates from the Third Annual North American Anarchist Studies Network Conference in San Juan, Puerto Rico. Nathan Jun and Jorell A. Meléndez aspire to go beyond a simple collection of papers and instead aim to maintain a dialogue among different academic fields with the sole task of comprehending and re-thinking anarchist studies. With over twenty-one chapters written by a diverse range of activists, organizers, musicians, artists, poets, and academics, this book transgresses the apparent simplicity of the study of anarchism with a dynamic and interdisciplinary approach that crystallizes and

emulates the heterogeneous nature of the anarchist ideal. From theory and philosophy to historical analyses, methodologies, and perspectives, from different manifestations in the arts, media, and culture to religion, ethics, and spirituality, from the intersectionality of animal liberation and queer struggles to contemporary praxis and organizing, the authors explore different topics from a critical perspective that is often lacking in their respective academic fields. This book is a must-buy for critical teachers, students, and activists interested in studying anarchism and the different ways in which we can transform our reality.

The Oxford Handbook of Borderlands of the Iberian World Danna A. Levin Rojo, Cynthia Radding, 2019-11-06 This collaborative multi-authored volume integrates interdisciplinary approaches to ethnic, imperial, and national borderlands in the Iberian World (16th to early 19th centuries). It illustrates the historical processes that produced borderlands in the Americas and connected them to global circuits of exchange and migration in the early modern world. The book offers a balanced state-of-the-art educational tool representing innovative research for teaching and scholarship. Its geographical scope encompasses imperial borderlands in what today is northern Mexico and southern United States; the greater Caribbean basin, including cross-imperial borderlands among the island archipelagos and Central America; the greater Paraguayan river basin, including the Gran Chaco, lowland Brazil, Paraguay, and Bolivia; the Amazonian borderlands; the grasslands and steppes of southern Argentina and Chile; and Iberian trade and religious networks connecting the Americas to Africa and Asia. The volume is structured around the following broad themes: environmental change and humanly crafted landscapes; the role of indigenous allies in the Spanish and Portuguese military expeditions; negotiations of power across imperial lines and indigenous chiefdoms; the parallel development of subsistence and commercial economies across terrestrial and maritime trade routes; labor and the corridors of forced and free migration that led to changing social and ethnic identities; histories of science and cartography; Christian missions, music, and visual arts; gender and sexuality, emphasizing distinct roles and experiences documented for men and women in the borderlands. While centered in the colonial era, it is framed by pre-contact Mesoamerican borderlands and nineteenth-century national developments for those regions where the continuity of inter-ethnic relations and economic networks between the colonial and national periods is particularly salient, like the central Andes, lowland Bolivia, central Brazil, and the Mapuche/Pehuenche captaincies in South America. All the contributors are highly recognized scholars, representing different disciplines and academic traditions in North America, Latin America and Europe.
