*Elongated Skulls of Peru and Bolivia: The Path of Viracocha: Traveler's Edition* Brien Foerster Bsc, 2019-03-26 People with elongated skulls have been found in many parts of the world over the course of thousands of years. In general these were the elites of a society and cranial deformation was performed on new borns in order to make them look distinct from the general population. In Peru and Bolivia there were many societies with elongated heads, including the royal Inca family. The most profound ones are surely of the Paracas culture of the coast of Peru who existed from about 700 BC to approximately 100 AD. There are clear medical indications that the Paracas originally were born with elongated heads, and after generations of breeding with normal humans began to perform cranial deformation on their noble children. They also had dark red hair, likely light skin and perhaps green eyes. Recent DNA testing of the early Paracas indicate that they did not originate in Peru and that they were in fact not Homo sapiens sapiens.

**Elongated Skulls of Peru and Bolivia** Brien Foerster, 2015-03-28 Elongated human skulls have been found in the archaeological record on every inhabited continent, and most commonly these people existed about 2000 years ago. The vast majority were elite members of various societies and artificial cranial deformation was performed on them as infants in order to achieve a specific look so as to differentiate them from the general public. Nowhere was this more commonplace than in Peru and Bolivia, and this book sets out to figure out where these societies lived, when, and how they may have been related. The most mysterious aspect is that some of the ancient people of Peru and Bolivia may have in fact been born with elongated skulls. Should this turn out through medical examination to be true, the history of humanity many have to be re-written.--

*Comprehensive Study of the Origin of Humankind* Ryanne Maxine Meyersohn, 2023-02-25 'AWARD-WINNING BOOK' 'Silver Medal - Readers' Favorite International Book Award Contest and 5 Stars Book Reviews 'Literary Titan Gold Book Award and 5 Stars Book Reviews' 'Amazon Bestseller - #1 History of the Middle East and #2 Ancient Early Civilization History' The Anunnaki gods from the planet Nibiru carried out a mission on Earth, and the story was documented in clay

tablets or Mesopotamian texts discovered in the ruins of buildings in the Middle East. Scholars have proposed that some Genesis stories had already appeared in Mesopotamian texts thousands of years ago. This proposal motivated us to evaluate the most relevant texts. Although most scholars believe that the Mesopotamian texts are mythology, the research was carried out under the premise that their content corresponds to real events. Analysis of academic translations of the texts revealed that many details critical to understanding the story have not been revealed. An exhaustive analysis of the data determined the most probable dates of the events. The book presents the events related to the arrival of the Anunnaki to Earth and the consequences of their mission chronologically according to findings in Mesopotamian texts and ancient books. Various sources, including apocryphal books, reports from ancient historians, scientific research, and archaeological records, supplemented the research. Many riddles were decoded, including who the Anunnaki and the Igigi (watchers, Nephilim) were. Why, when, and how did H. sapiens originate, how did the other species arise, and why did they become extinct? Why and when did the Anunnaki arrive and finally leave Earth? When will the planet Nibiru return to our area in the inner solar system? The results and findings of this research deserve to be known due to the probability that the stories in the Mesopotamian texts really happened. The book's proposals differ from what we have learned in educational institutions about the origin of humanity and invite critical thinking to reflect on the history of the Anunnaki gods. Enthusiastic readers of the extraterrestrial theme will find innovative proposals.

*I Know Who These People Were* William Lucas, 2015-10-23 Elongated skulls have been discovered all over the world. The Urantia Book states Adam and Eves descendants had elongated heads, and so did the Nodites, people of the land of Nod, descendants of the Nephilim and they were the sons of God of Genesis 6:4 where sons of God had children by the daughters of men. Adam and Eve were not the first two people on earth, see Genesis 4:8-17. Forty elongated skulls some with red hair still intact was found in Lovelock, Nevada inside a cave and they were believe to be seven to eight feet tall; also 3,000 years old elongated skulls with red hair still intact were discovered in Nazca Peru-more proof that Adam and Eves descendants traveled all over the world-in an effort to spread their genes. When geneticist analyzed the genes of the elongated skulls, they found the genes contain genetic material unknown in any human, primate, or animal. Adam and Eve came to our planet as biological up-lifters. Bodies were made for them when they arrived on our planet by beings from a higher universe called Avalon (a universe neighbor to our universe). These beings were called Avalon surgeons. They took plasma from the more advanced tribes of our planet and with some type of genetic engineering created bodies made of the dust of the ground (chemical of the earth) that were much more advanced than the humans of that time. Adam and Eve incarnated into those bodies and the spirit of God breathed the breath of life into those forms and they became living beings. Our ancient ancestors didnt know about genetic engineering and such, so they said God did it. To them those advanced beings were gods. People of our planet need to wake-up and stop thinking about material things all the time and begin thinking about the spiritual world,

which we linger far behind in our understanding. Lucas A Seeker

God Gametes 4 and The Darwinian Fallacy Robert Jameson,2015-05-28 The God Gametes theory argues that life on earth is part of the reproductive system of a parent species from a higher level of a multiverse. We contend a single female member of the parent species colonised earth for the purpose of reproduction. She drove the complexity of life on earth until one species, homo sapiens, evolved a large brain and the ability to host a consciousness reproductive cell of a male parent species. Charles Darwin called his book On the Origin of Species but natural selection is not about the 'origin' of anything. His theory was not about the 'origin' of species, nor about the 'origin' of life. Natural selection argues the case for how one 'living' species might gradually evolve into another 'living' species. It has nothing to do with how anything originated. Supporters of this concept foster the myth that with enough throws of the dice, with enough random coin flips, then blind probability can design complexity. It cannot.

**THE ORIGINS** Erich Zimmermann, 2022-03-24 This book brings a new and realistic view about the Theory of Alien Gods, showing its links with an unknown form of energy, whose existence has been experimentally confirmed by the author. It is the first time in history that energy base features of extraterrestrial technology have been exposed to the public with clarity and simplicity, as well as showing what their use can mean for humanity. The chronicles approach the origins of matter, Earth, water, man, gods, and contradict some scientific and religious paradigms. The Sumerian, Biblical and human versions of the creation of man are compared, and the amazing conclusions are supported by scientific experiments. Intelligent hybrid beings are shown to be products of alien genetic manipulation. We have DNA that emits and receives subtle radiation, and can be teleported to produce human-like beings. We have a fantastic homeostasis that needs to be revitalized in order to live longer with a better quality of life. One of the topics teaches the reader to convert part of his soul into visible radiation. One of the topics teaches the reader to convert part of his soul into visible radiation. The About Intelligent Life Series is not an exercise in futurology, but the result of 10 years of research on real phenomena, which bring the certainty that in order to evolve it is necessary to rewrite the history of our planet in an intelligible way, without casuistry or religious mysticism.

**Anunnaki** Sonny Ramirez, 2017-09-13 Humankind has been attempting to answer complex questions for thousands of years. Is there a God? Where do we come from? Is there life somewhere else? Are we alone? Who created us? Is there an afterlife? Is there hell? In the early 1800s, over thirty thousand tablets were found in the ancient biblical city of Nineveh that included the Assyrian palace reliefs, the library of Ashurbanipal, and the Enuma Elish (also known as the Seven Tablets of Creation) that tell the story of the formation of the world and humanity and of the Anunnaki, gods who arrived from the heavens to create the human race. In a comprehensive study, Sonny Ramirez reveals translations of the findings as well as new discoveries in a passionate search for the truth about the origins of humankind as he attempts to piece together the Anunnaki connection and ultimately discover whether the gods of Earth, men, and Nibiru are still with us today. Anunnaki Gods of Earth and Nibiru share and analyze ancient texts that will encourage others to open their minds, imagine the unimaginable, and dream of the possibilities that an endless universe can hold.

**Crimson Horizon: The Mysterious Sea Kings Of The Pacific** Brien Foerster, 2012-11-30 The people of the Pacific known by most as Polynesians remain a mystery to scholars and the public alike as to their origins. While most academics in the fields of archaeology and anthropology strongly insist that they exclusively came from 121 P a g e south east Asia, other researchers, and the oral traditions of the people themselves often differ with this opinion. The presence of red hair, called Ehu in Hawaii and Uru Kahu in some of the ancient and present populations suggest connections, in the distant past, with sea farers from coastal Peru, especially the Paracas, to account for this. The famous explorer Thor Heyerdahl was insistent that there were ancient connections between Peru and the Pacific Islands, and this book attempts to solve this riddle, without delving into Celtic or other possible European ancestry. Come explore the possibilities through science, wind directions, sea currents, sculpture, and oral traditions.

*The Empires of Atlantis* Marco M. Vigato, 2021-12-21 • Traces the course of Atlantean civilization through its three empires, as well as the colonies and outposts formed by its survivors in Egypt, Göbekli Tepe, India, Mesopotamia, the Mediterranean, and North and South America • Shows how pyramids and other megalithic monuments testify to the survival of a “Sacred Science” of Atlantean origin and how this Sacred Science provided the foundation for esoteric traditions and secret societies throughout the ages • Draws on more than 500 ancient and modern sources and the author’s own personal exploration of hundreds of archaeological sites Exploring more than 100,000 years of Earth’s history, Marco Vigato combines recent discoveries in the the fields of archaeology, geology, anthropology, and genetics with the mystery teachings of antiquity to investigate the true origins of civilization. Establishing the historical and geological reality of Atlantis stretching all the way back to 432,000 BCE, he traces the course of Atlantean civilization through its three empires, revealing how civilization rose and fell several times over this lengthy span of time. The author shows that Atlantis did not vanish “in one terrible day and night” but survived in a variety of different forms well into the historical era. He reveals how the the first Atlantean civilization lasted from 432,000 to 35,335 BCE, the second one from 21,142 to 10,961 BCE, and the third Atlantis civilization--the one celebrated by Plato--collapsed in 9600 BCE, after the Younger Dryas cataclysm. The author examines the role of Atlantean survivors in restarting civilization in different parts of the world, from Göbekli Tepe and Egypt to India, Mesopotamia, and the Americas. He personally documents their colonies and outposts around the globe, offering unique

views of the colossal network of pyramids, earthen mounds, and other megalithic monuments they left behind. He shows how these monuments testify to the survival of a sacred science of Atlantean origin, and he documents the survival of the primeval Atlantean tradition through various secret societies into the modern era. Drawing on more than 500 ancient and modern sources and sharing never-before-seen photographs from his own personal exploration of hundreds of archaeological sites around the world, Vigato shows not only that Atlantis was real but that the whole world is now being called to become a New Atlantis and awaken into a new golden age.

**Beyond the Black Sea: the Mysterious Paracas of Peru** Brien Foerster, 2018-05-12 An enigmatic people lived on the coast of Peru between 2700 and 2000 years ago that academia spends little time studying. In the driest part of the country which receives less than half an inch of rain per year they were enormously successful at agriculture and fishing and were very advanced as regards textile production, had the potters wheel and constructed ships of totora reed with cotton cloth sails. The most intriguing characteristic of these Paracas people was that they had elongated heads, and through my research I can state that the earliest of them, especially their nobility were born with elongated skulls; cranial deformation of their infants being performed later due to genetic mixing with normal local Homo sapiens sapiens. They also had genetically red hair, and thus were most likely light skinned and may have had green or blue eyes; thus, they were not Native Americans. Recent and extensive DNA testing shows us that they very well could have migrated from the Black Sea area as much as 3000 years ago, and sought refuge from invasion and oppression. Academia has either ignored or suppressed this information, and that is why I present it to you here.

*Ancient Giants of the Americas* Xaviant Haze, 2016-11-21 Did a race of ancient giants once inhabit the Americas? Do ancient megalithic stoneworks, out-of-place artifacts, DNA mysteries, and strange bones provide proof of their existence? *Ancient Giants of the Americas* reveals an array of astounding truths, including: How giants were a dominant feature of

Native American origin myths. Extraordinary first-person tales about meetings with giant Native Americans. How early pioneers discovered the remains of ancient giants and a previously unknown civilization—and how the Smithsonian successfully covered them up. Analyzing the historical and archaeological evidence, Xaviant Haze provides ample proof that our ancestors in the ancient Americas were much taller and a lot more mysterious than we imagine. Their exploits inspired the Native Americans to keep oral accounts of these mysterious giants, who left behind strange artifacts, massive cities of burial mounds, and the remains of a vast copper-mining network. Who were these ancient giants? Did some really have six toes? Were some related to the elongated-skull peoples of Peru? Your view of American history will never be the same after going down the giant rabbit hole that is Ancient Giants of the Americas.
