**The Conversos and Moriscos in Late Medieval Spain and Beyond** Kevin Ingram,2009 Converso and Morisco are the terms applied to those Jews and Muslims who converted to Christianity (mostly under duress) in late medieval Spain. Converso and Moriscos Studies examines the manifold cultural implications of these mass conversions.

**The Orient in Spain** Mercedes Garcia-Arenal Rodriquez,Fernando Rodríguez Mediano,2013-04-15 Taking as its main subject a series of notorious forgeries by Muslim converts in sixteenth-century Granada (including an apocryphal gospel in Arabic), this book studies the emotional, cultural and religious world view of the Morisco minority and the complexity of its identity, caught between the wish to respect Arabic cultural traditions, and the pressures of evangelization and efforts at integration into "Old Christian" society. Orientalist scholarship in Early Modern Spain, in which an interest in Oriental languages, mainly Arabic, was linked to important historiographical questions, such as the uses and value of Arabic sources and the problem of the integration of al-Andalus within a providentialist history of Spain, is also addressed. The authors consider these issues not only from a local point of view, but from a wider perspective, in an attempt to understand how these matters related to more general European intellectual and religious developments.

**¿La historia inventada?** Manuel Barrios Aguilera,Mercedes García-Arenal,2008 Discusses the lead books discovered in Sacromonte, near Granada, Spain, in the 16th century. Written in a combination of Arabic and Latin, the books were hailed as early Christian texts as important as the Dead Sea Scrolls, but were condemned by the Vatican as Islamic heresies. Today most scholars believe the books were fabrications intended to promote toleration of the language, dress and customs of Christian Moriscos in the face of increasing hostility from the Spanish Inquisition and the Castilian state.

*Forging the Past* Katrina B. Olds,2015-08-25 Spain's infamous "false chronicles" were alleged to have been unearthed in 1595 in a monastic library deep in the heart of the German-speaking territories of the Holy Roman Empire by the Jesuit priest Jerónimo Román de la Higuera. Though rife with anachronisms and chronological inaccuracies, these four volumes of invented "truths" about Spanish sacred history radically transformed the religious landscape in Counter-Reformation Spain and were not definitively exposed as forgeries until centuries later, after nearly two hundred years of scholarly debate. In this fascinating study, Katrina B. Olds explores the history, author, and legacy of one of the world's most compelling and consequential frauds. The book examines how a relatively obscure Jesuit priest so successfully fabricated a set of supposedly historical documents that they were accepted as authentic for generation after generation. The chronicles' influence was so powerful, in fact, that they continued to shape scholarly discourse, religious practice, and local heritage throughout Spain well into the twentieth century, despite having been debunked as forgeries in the eighteenth. Olds's fascinating analysis brings together intellectual, cultural, religious, and political history while reinvigorating an ongoing debate on the uses and abuses of history and the nature of historical and religious truth.

*The Arts of Encounter* Catherine Infante, 2022-03-01 Images of crosses, the Virgin Mary, and Christ, among other devotional objects, pervaded nearly every aspect of public and private life in early modern Spain, but they were also a point of contention between Christian and Muslim cultures. Writers of narrative fiction, theatre, and poetry were attuned to these debates, and religious imagery played an important role in how early modern writers chose to portray relations between Christians and Muslims. Drawing on a wide variety of literary genres as well as other textual and visual sources – including historical chronicles, travel memoirs, captives’ testimonies, and paintings – Catherine Infante traces the references to religious visual culture and the responses they incited in cross-confessional negotiations. She reveals some of the anxieties about what it meant to belong to different ethnic or religious communities and how these communities interacted with each other within the fluid boundaries of the Mediterranean world. Focusing on the religious image as a point of contact between individuals of diverse beliefs and practices, *The Arts of Encounter* presents an original and necessary perspective on how Christian-Muslim relations were perceived and conveyed in print.
