Included are profiles of 20 people who exemplify these principles. Here's the secret: You don't need to be on a national or international platform to be world-class. Creating the Path to Success in the Classroom Kathleen F. Gabriel,2023-07-03 This is a book for all faculty who are concerned with promoting the persistence of all students whom they teach. Most recognize that faculty play a major role in student retention and success because they typically have more direct contact with students than others on campus. However, little attention has been paid to role of the faculty in this specific mission or to the corresponding characteristics of teaching, teacher-student interactions, and connection to student affairs activities that lead to students' long-term engagement, to their academic success, and ultimately to graduation. At a time when the numbers of underrepresented students - working adults, minority, first-generation, low-income, and international students - is increasing, this book, a companion to her earlier *Teaching Underprepared Students*, addresses that lack of specific guidance by providing faculty with additional evidence-based instructional practices geared toward reaching all the students in their classrooms, including those from groups that traditionally have been the least successful, while maintaining high standards and expectations. Recognizing that there are no easy answers, Kathleen Gabriel offers faculty ideas that can be incorporated in, or modified to align with, faculty's existing teaching methods. She covers topics such as creating a positive and inclusive course climate, fostering a community of learners, increasing engagement and students' interactions, activating connections with culturally relevant material, reinforcing self-efficacy with growth mindset and mental toughness techniques, improving lectures by building in meaningful educational activities, designing reading and writing assignments for stimulating deep learning and critical thinking, and making grade and assessment choices that can promote learning.

Coach Wooden's Greatest Secret Pat Williams, Jim Denney, 2014-02-04 At the first practice of each season, legendary coach John Wooden taught his players how to put on their socks and shoes a very particular way. When asked about this, he replied, The little things matter. All I need is one little wrinkle in one sock to put a blister on one foot--and it could ruin my whole season. I started teaching about shoes and socks early in my career, and I saw that it really did cut down on blisters during the season. That little detail gave us an edge. Coach Wooden knew the long-term impact of little things done well. Now Pat Williams takes Coach Wooden's lesson, along with stories of people whose lives have exemplified the importance of little things done well, and shows readers how the small things one does or doesn't do drastically affect one's integrity,

reputation, health, career, faith, and success. People who want to do their best in life, family, work, and faith will benefit from this entertaining and inspirational book.

Ego Vs. Soul in Sports Ken Reed, 2016-09-09 Imagine. Imagine the world of sports without ego. No more trash talking, showboating, cheating, cheap shots, or running up the score. No more wackadoo parents and coaches ruining youth sports. No more prima donna athletes with an inflated view of their own importance. The win-at-all-costs mentality? Gone. The me-first athlete? History. Greedy owners that put their wallets ahead of what's best for the game? Bye-bye. As John Lennon once sang, Imagine . . . Sports have always brought out the best and worst in people. One of the compelling aspects of sports is that character is openly on display. Problem is, the ugly side of sports is getting way too loud these days. The ego in sports has run amok. And as the ego takes center stage, win-at-all-costs (WAAC) and profit-at-all-costs (PAAC) mentalities and behaviors begin to dominate. Things like sportsmanship start to take a backseat. Nevertheless, despite all the ego- and greed-based negativity in today's sports world, there are still some pearls out there, little stories in the back of the sports section that stir the soul. While too many sports center headlines bring forth feelings of shame, it's the snippets about obscure athletes that bless us with shining examples of the human spirit and give us reason for hope. This is a book of short essays about sport at its best and sport at its worst. Hopefully, the book is somewhat entertaining and, occasionally, even enlightening. Ultimately, however, the book's goal is to inspire those who love sports to find a way to make the sports world a better place to be. And that means a place with a lot less ego and a lot more soul. Because in the big picture, it really is about how you play the game.

Stupid, Ugly, Unlucky and RICH Richard St John, 2005 Have you ever wondered what leads to success. Do you just need to be smart, great looking, or lucky? Richard St. John says those things don't lead to success. And he should know. He spent 10 years interviewing over 500 successful people, from Martha Stewart, to actor Russell Crowe, to DNA discoverer James Watson, to the top people in many fields. After analyzing and sorting all the information, Richard discovered the top 8 factors that are the foundation for success in any field. He also discovered that many successful people aren't especially smart, good-looking, or lucky. They're ordinary people, without special gifts, who achieve success by following the 8 factors. Richard himself is a good example. He says, I could never figure out how an ordinary guy like me succeeded in business, won top awards and became a millionaire. So I started a project to ask other people what led to their success, and it grew into a 10-year journey of discovery. The story is in Richard's new book, *Stupid, Ugly, Unlucky and RICH Spikes Guide to Success*, an easy-to-read analysis that gets beyond the clichés to distill what the world's most successful people really do have in common.

A Survival Guide for Athletes and Parents Leandrea Slayton, 2016-05-26 Have you ever sat in the stands or sidelines and listened to parents yell at their kids and thought, There is something wrong here? Does your child show passion and potential in a sport but feels an unhealthy amount of pressure that is leading them to want to quit the sport they used to love so much? The reality is, the approach society is taking to competitive youth sports as a whole is unhealthy, but it doesn't have to be that way. I am not an advocate for everybody wins; I love competition. I believe that with the correct perspective and approach youth athletics can be used to mold our children into Christ-like, confident, and joyful adults. By focusing on the journey rather than the destination players and parents can learn to find value in all of the life lessons that come through competition. This book is a guide that is inspired through twenty-four years of coaching and watching parents who got it right and the others who missed out on the opportunity to use youth athletics to instill Christ-like characteristics and perspectives in their children. The true prize in athletics isn't a trophy or even a scholarship, it is in the life lessons that everyone has available to learn if they are willing to look for them.
