Book Preview: #1 John Rowlands, the man who would accomplish what Tuckey tried to do, was born in 1841. He was the first of five illegitimate children born to Betsy Parry, a housemaid. His father may have been John Rowlands, a local drunkard who died of delirium tremens, or a prominent and married lawyer named James Vaughan Horne. #2 At fifteen, John left St. Asaph's and went to live with a succession of relatives. He was afraid he would be thrown out again, and so he decided to give himself a new name. He became Henry Morton Stanley. #3 Stanley's autobiography is full of exaggerations and lies. He left the Welsh workhouse in melodramatic terms: he leaped over a garden wall and escaped, he claims, after leading a class rebellion against a cruel supervisor named James Francis. But workhouse records show Stanley leaving not as a runaway but to live at his uncle's while going to school. #4 Stanley's life was so entwined with disgrace that he had to invent events in his autobiography and journal entries about a dramatic shipwreck and other adventures that never happened. He went first to St. Louis, and then to San Francisco.

SUMMARY and ANALYSIS: KING LEOPOLD's GHOST by Adam Hochschild's Gulf publishers,2020-07-06 Leopold II, King of the Belgians, privately controlled and owned the Congo Free State from 1885 to 1908. In 1908, the area was annexed by Belgium as a colony known as the Belgian Congo. Leopold used his personal control to strip the country of vast amounts of wealth, largely in the form of ivory and rubber. These labor-intensive industries were serviced by slave labor, and the local peoples were forced to work through various means, including torture, imprisonment, maiming and terror. Christian missionaries and a handful of human rights organizers internationally publicized these atrocities. Slowly, various nations, including Great Britain and the United States of America, began to object to Leopold's tyranny with the result that the country's administration was transferred to Belgium. Little changed inside the country, however, until the ivory and rubber were exhausted. European interest in the African continent can be traced back to the late 1400s, when a European explorer sailed the west coast and discovered the Congo River. By the 1860s, most African coastal regions were claimed as colonies of European powers, but the vast interior of the continent remained unknown to Europeans. Henry Morton Stanley, a complicated man and renowned explorer, ventured through much of that unknown during a descent of the Congo River. Leopold II, King of the Belgians, was fascinated with obtaining a colony and focused upon claiming the interior of Africa--the only unclaimed sizable geographic area. Moving within the European political paradigm existing in the early 1880s, Leopold gained international concessions and recognition for his personal claim to the Congo Free State.

King Leopold's Ghostwriter Andrew Fitzmaurice,2024-12-17 A dramatic intellectual biography of Victorian jurist Travers Twiss, who provided the legal justification for the creation of the brutal Congo Free State Eminent jurist, Oxford professor, advocate to the Archbishop of Canterbury, Travers Twiss (1809-1897) was a model establishment figure in Victorian Britain, and a close collaborator of Prince Metternich, the architect of the Concert of Europe. Yet Twiss's life was defined by two events that threatened to undermine the order that he had so stoutly defended: a notorious social scandal and the creation of the Congo Free State. In King Leopold's Ghostwriter, Andrew Fitzmaurice tells the incredible story of a man who, driven by personal events that transformed him from a reactionary to a reformer, rewrote and liberalised international law—yet did so in service of the most brutal regime of the colonial era. In an elaborate deception, Twiss and Pharaïlde van

Lynseele, a Belgian prostitute, sought to reinvent her as a woman of suitably noble birth to be his wife. Their subterfuge collapsed when another former client publicly denounced van Lynseele. Disgraced, Twiss resigned his offices and the couple fled to Switzerland. But this failure set the stage for a second, successful act of re-creation. Twiss found new employment as the intellectual driving force of King Leopold of Belgium's efforts to have the Congo recognised as a new state under his personal authority. Drawing on extensive new archival research, King Leopold's Ghostwriter recounts Twiss's story as never before, including how his creation of a new legal personhood for the Congo was intimately related to the earlier invention of a new legal personhood for his wife. Combining gripping biography and penetrating intellectual history, King Leopold's Ghostwriter uncovers a dramatic, ambiguous life that has had lasting influence on international law.

The Congo from Leopold to Kabila Georges Nzongola-Ntalaja, 2013-10-10 The people of the Congo have suffered from a particularly brutal colonial rule, American interference after independence, decades of robbery at the hands of the dictator Mobutu and periodic warfare which continues even now in the East of the country. But, as this insightful political history makes clear, the Congolese people have not taken these multiple oppressions lying down and have fought over many years to establish democratic institutions at home and free themselves from foreign exploitation; indeed these are two aspects of a single project. Professor Nzongola-Ntalaja is one of his country's leading intellectuals and his panoramic understanding of the personalities and events, as well as class, ethnic and other factors, make his book a lucid, radical and utterly unromanticized account of his countrymen's struggle. His people's defeat and the state's post-colonial crisis are seen as resulting from a post-independence collapse of the anti-colonial alliance between the masses and the national leadership. This book is essential reading for understanding what is happening in the Congo and the Great Lakes region under the rule of the late President Kabila, and now his son. It will also stand as a milestone in how to write the modern political history of Africa.

100 Provocative Statements about King Leopold's Ghost Ethan Peak, 2013-03 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of King Leopold's Ghost: A Story of Greed, Terror, and Heroism in Colonial Africa. Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

Congo Stories John Prendergast, Fidel Bafilemba, 2025-04-08 From the author of the New York Times bestselling and award-winning *Not on Our Watch*, John Prendergast co-writes a compelling book with Fidel Bafilemba--with stunning photographs by Ryan Gosling--revealing the way in which the people and resources of the Democratic Republic of Congo have been used throughout the last five centuries to build, develop, advance, and safeguard the United States and Europe. The book highlights the devastating price Congo has paid for that support. However, the way the world deals with Congo is finally changing, and the book tells the remarkable stories of those in Congo and the United States leading that transformation. The people of Congo are fighting back against a tidal wave of international exploitation and governmental oppression to make things better for their nation, their neighborhoods, and their families. They are risking their lives to resist and alter the deadly status quo. And now, finally, there are human rights movements led by young people in the United States and Europe building solidarity with Congolese change-makers in support of dignity, justice, and equality for the Congolese people. As a result, the way the world deal with Congo is finally changing. Fidel Bafilemba, Ryan Gosling, and John Prendergast traveled to Congo to document some of the stories not only of the Congolese upstanders who are building a better future for their country but also of young Congolese people overcoming enormous odds just to go to school and help take care of their families. Through Gosling's photographs of Congolese daily life, Bafilemba's profiles of heroic Congolese activists, and Prendergast's narratives of the extraordinary history and evolving social movements that directly link Congo with the United States and Europe, *Congo Stories* provides windows into the history, the people, the challenges, the possibilities, and the movements that could change the course of Congo's destiny. Greatest Emancipations Jim Powell, 2008-06-24 The Astonishing Story of How Slavery Was Abolished in a Single Century, Freeing Over Seven Million Slaves For millennia, slavery went unchallenged in principle. Then, in a remarkable turn of events, slavery was eradicated in the span of just one century. *Greatest Emancipations* tells this incredible story, focusing on the countries that accounted for the vast majority of slaves in the west: Haiti, the British Caribbean, the United States, Cuba, and Brazil. Author Jim Powell offers surprising insights into the process and tremendous influence that slavery's abolition had on individual societies. He reveals that while the eradication of slavery was essential for any free society, it wasn't the sole determining factor, as some societies that abolished slavery later embraced dictatorships. Discover the historical abolition movements and the evolution of democracy that led to the emancipation of over seven million slaves. *Greatest Emancipations* is a compelling look at a pivotal moment in western history, exploring the end of slavery and its impact on civil rights, equal

rights, and capitalist developments.

Power, Powerlessness, and Globalization Opoku Agyeman, 2014-08-20 This book is about imperialism-driven globalization, its historic impact on Africa, Latin America, and Asia, and, over time, the varied responses of the national political units and regional entities in these continents to the challenges of building countervailing power and laying foundations for independent development. Where genuine recovery and empowerment have emerged, this has been the result not only of the pursuit of “dignitist” political and economic values that emphasize robust and sustained productivity geared toward uplifting the living standards and dignity of all the members of the national society, but also of the creation of indigenous institutions whose relations with the external world are defined by equality rather than dependence and subordination. Opoku Agyeman argues that “dignification” is the fundamentally necessary response to imperialism’s inevitable afflictions of national/racial humiliation. It is the most crucial ingredient in the complex of motivations that propel formerly weak nation-states and regional communities to rise up and defend the honor of their people. As Mao Zedong told the world in 1949: “Ours will no longer be a nation subject to insult and humiliation. We have stood up.” This study argues emphatically that it is a country’s or region’s developed or developing capabilities, not its historic and continuing victimization or habitual dependence on “charitable aid” and other “altruistic” interventions from the “international community,” that determines its success in escaping the scourge of powerlessness and underdevelopment. It further maintains that a people who have been brought low through brutal, dehumanizing imperialism cannot bypass the need for redemptive empowerment if they wish to regain honor and a proper place in the world. Finally, it takes issue with Joseph Stiglitz, Jeffrey Sachs, and others like them whose moralistic critiques of the rapacity of imperialistic globalization carry the unfortunate implication that it is possible for a fair and just world social order to come out of incremental reforms of philanthropically-motivated developed, powerful countries, in the structure and operations of global capitalism.

The Postcolonial Low Countries Elleke Boehmer, Sarah de Mul, 2012-01-01 The Postcolonial Low Countries is the first book to bring together critical and comparative approaches to the emergent field of neerlandophone postcolonial studies. The collection of essays ranges across the cultures and literatures of the Netherlands and Belgium and establishes an encounter between postcolonial theoretical discourses from both within and without the region. Each one of the contributions puts under pressure the definitive concepts of postcolonial studies in its more conventional anglophone or francophone formation, as well as perceptions of the Low Countries, Belgium and the Netherlands, as lying outside or to the side of the postcolonial domain. In the Low Countries, local and regional issues concerning multiculturalism and colonial belatedness have raised important questions about the possible grounds on which postcolonial critical concepts might be not only translated but also generated afresh, to suit these paradoxically new contexts. As The Postcolonial Low Countries incisively demonstrates, the Low Countries demand a careful rearticulation of such postcolonial 'readymades' as hybridity, accommodation and

creolization. Gathering together contributions from both internationally renowned scholars and newly established researchers in the field, *The Postcolonial Low Countries* maps previously underexplored national and transnational literary critical trajectories. The book challenges in boundary shifting ways current readings of the so-described multicultural and postcolonial Netherlands and Belgium.

Unequal Partners Casey Ritchie Clevenger, 2020-05-15 When we think of Catholicism, we think of Europe and the United States as the seats of its power. But while much of Catholicism remains headquartered in the West, the Church's center of gravity has shifted to Africa, Latin America, and developing Asia. Focused on the transnational Sisters of Notre Dame de Namur, *Unequal Partners* explores the ways gender, race, economic inequality, and colonial history play out in religious organizations, revealing how their members are constantly negotiating and reworking the frameworks within which they operate. Taking us from Belgium and the United States to the Democratic Republic of the Congo, sociologist Casey Clevenger offers rare insight into how the sisters of this order work across national boundaries, shedding light on the complex relationships among individuals, social groups, and formal organizations. Throughout, Clevenger skillfully weaves the sisters' own voices into her narrative, helping us understand how the order has remained whole over time. A thoughtful analysis of the ties that bind—and divide—the sisters, *Unequal Partners* is a rich look at transnationalism's ongoing impact on Catholicism.

The Last Baron Tom Sancton, 2022-04-05 A riveting, on-the-edge-of-your-seat tale about the notorious 1978 kidnapping of Baron Édouard-Jean "Wado" Empain, intertwined with the story of his famous grandfather, the first baron and builder of the Paris Métro. A multigenerational saga told against the backdrops of both Belle Époque and 1970s high-fashion Paris. What does it take to create a dynasty? What does it take to keep one going? And what does it take to save the life of the dazzling but flawed man who inherited it all? Launched in the 1880s by the first baron, the Empain industrial empire spread from Belgium and France to span more than a dozen countries. When Wado took over, he further expanded the company, became a key player in France's nuclear sector, and, by the mid-1970s, was one of the country's most powerful business leaders—a self-described "master of the universe." But these were also the "years of lead," marked by a rash of high-profile kidnappings around the globe, including the headline-grabbing seizure of American heiress Patty Hearst. Wado's vertiginous rise caught the eye of Alain Caillol, a small-time gangster who had grown up in a wealthy family before embracing a life of crime. On January 23, 1978, Caillol and his confederates snatched the baron off the Paris streets, sure that they'd get the 80 million francs they demanded in ransom. To show they meant business, they chopped off Wado's little finger and warned that more body parts would follow. But nothing unfolded as the kidnappers, or Wado himself, expected. Would Empain's company pay? Could his family afford this astronomical sum? How much was the life of a leader, a father, and a husband worth? Most important, could a determined police chief and his crack investigators outsmart the kidnappers? The answers to those

questions unspooled over two months in a tangle of events leading to a bloody showdown whose consequences would prove fatal to the Empain dynasty.

The Lumumba Plot Stuart A. Reid, 2024-11-05 The New York Times Book Review Editors' Choice • A spellbinding work of history that reads like a Cold War spy thriller—about the U.S.-sanctioned plot to assassinate the democratically elected leader of the newly independent Congo A BEST BOOK OF THE YEAR: The New Yorker, The Economist, Financial Times “This is one of the best books I have read in years . . . gripping, full of colorful characters, and strange plot twists.” —Fareed Zakaria, CNN host It was supposed to be a moment of great optimism, a cause for jubilation. The Congo was at last being set free from Belgium—one of seventeen countries to gain independence in 1960 from ruling European powers. At the helm as prime minister was charismatic nationalist Patrice Lumumba. Just days after the handover, however, the Congo’s new army mutinied, Belgian forces intervened, and Lumumba turned to the United Nations for help in saving his newborn nation from what the press was already calling “the Congo crisis.” Dag Hammarskjöld, the tidy Swede serving as UN secretary-general, quickly arranged the organization’s biggest peacekeeping mission in history. But chaos was still spreading. Frustrated with the fecklessness of the UN and spurned by the United States, Lumumba then approached the Soviets for help—an appeal that set off alarm bells at the CIA. To forestall the spread of Communism in Africa, the CIA sent word to its station chief in the Congo, Larry Devlin: Lumumba had to go. Within a year, everything would unravel. The CIA plot to murder Lumumba would fizzle out, but he would be deposed in a CIA-backed coup, transferred to enemy territory in a CIA-approved operation, and shot dead by Congolese assassins. Hammarskjöld, too, would die, in a mysterious plane crash en route to negotiate a cease-fire with the Congo’s rebellious southeast. And a young, ambitious military officer named Joseph Mobutu, who had once sworn fealty to Lumumba, would seize power with U.S. help and misrule the country for more than three decades. For the Congolese people, the events of 1960–61 represented the opening chapter of a long horror story. For the U.S. government, however, they provided a playbook for future interventions.

Massacres and Morality Alex J. Bellamy, 2012-09-27 Most cultural and legal codes agree that the intentional killing of civilians, whether in peacetime or war, is prohibited. This is the norm of civilian immunity, widely considered to be a fundamental moral and legal principle. Yet despite this fact, the deliberate killing of large numbers of civilians remains a persistent feature of global political life. What is more, the perpetrators have often avoided criticism and punishment. Examining dozens of episodes of mass killing perpetrated by states since the French Revolution late eighteenth century, this book attempts to explain this paradox. It studies the role that civilian immunity has played in shaping the behaviour of perpetrators and how international society has responded to mass killing. The book argues that although the world has made impressive progress in legislating against the intentional killing of civilians and in constructing institutions to give meaning to that prohibition, the norm's history in practice suggests that the ascendancy of civilian immunity is both more recent and

more fragile than might otherwise be thought. In practice, decisions to violate a norm are shaped by factors relating to the norm and the situation at hand, so too is the manner in which international society and individual states respond to norm violations. Responses to norm violations are not simply matters of normative obligation or calculations of self-interest but are instead guided by a combination of these logics as well as perceptions about the situation at hand, existing relations with the actors involved, and power relations between actors holding different accounts of the situation. Thus, whilst civilian immunity has for the time being prevailed over 'anti-civilian ideologies' which seek to justify mass killing, it remains challenged by these ideologies and its implementation shaped by individual circumstances. As a result, whilst it has become much more difficult for states to get away with mass murder, it is still not entirely impossible for them to do so.

Atrocity Labelling Markus P. Beham, 2022-11-03 Atrocity. Genocide. War crime. Crime Against Humanity. Such atrocity labels have been popularized among international lawmakers but with little insight offered into how and when these terms are applied and to what effect. What constitutes an event to be termed a genocide or war crime and what role does this play in the application of legal proceedings? Markus P. Beham, through an interdisciplinary and comparative approach, unpicks these terms to uncover their historical genesis and their implications for international criminal law initiatives concerned with atrocity. The book uniquely compares four specific case studies: Belgian colonial exploitation of the Congo, atrocities committed against the Herero and Nama in German South-West Africa, the Armenian genocide and the man-made Ukrainian famine of the 1930s. Encompassing international law, legal history, and discourse analysis, the concept of 'atrocity labelling' is used to capture the meaning underlying the work of international lawyers and prosecutors, historians and sociologists, agenda setters and policy makers.
