The Spanish Language in the Digital Age Georg Rehm,Hans Uszkoreit,2012-08-17 This white paper is part of a series that promotes knowledge about language technology and its potential. It addresses educators, journalists, politicians, language communities and others. The availability and use of language technology in Europe varies between languages. Consequently, the actions that are required to further support research and development of language technologies also differ for each language. The required actions depend on many factors, such as the complexity of a given language and the size of its community. META-NET, a Network of Excellence funded by the European Commission, has conducted an analysis of current language resources and technologies. This analysis focused on the 23 official European languages as well as other important national and regional languages in Europe. The results of this analysis suggest that there are many significant research gaps for each language. A more detailed expert analysis and assessment of the current situation will help maximise the impact of additional research and minimize any risks. META-NET consists of 54 research centres from 33 countries that are working with stakeholders from commercial businesses, government agencies, industry, research organisations, software companies, technology providers and European universities. Together, they are creating a common technology vision while developing a strategic research agenda that shows how language technology applications can address any research gaps by 2020.

Global Food-Price Shocks and Poor People Marc Cohen,Melinda Smale,2014-06-11 This book examines the effects of high and volatile food prices during 2007-08 on low-income farmers and consumers in developing, transition, and industrialized countries. Previous studies of this crisis have mostly used models to estimate the likely impacts. This volume includes actual evidence from the field as to how higher prices affected access to food and farm income among poor people. In addition to country and regional case studies, the book presents discussions of cross-cutting themes, including gender, risk management, violence, the importance of subsistence farming as a coping strategy, and the role of governments and markets in addressing higher prices. With 2011 witnessing an unprecedentedly high level of food prices, the findings and policy recommendations presented here should prove useful to both scholars and policy makers in understanding the causes and consequences, as well as the policies needed to ensure food security in light of the skyrocketing cost of food. This book was published as a special double issue of Development in Practice.

Selective Security in the War on Drugs Alke Jenss,2023-01-09 Paramilitaries, crime, and tens of thousands of disappeared persons—the so-called war on drugs has perpetuated violence in Latin America, at times precisely in regions of economic growth. Legal and illegal economy are difficult to distinguish. A failure of state institutions to provide security for its citizens does not sufficiently explain this. Selective Security in the War on Drugs analyzes authoritarian neoliberalism in the war on drugs in Colombia and Mexico. It interprets the “security projects” of the 2000s—when the security provided by the state became ever more selective—as embedded in processes of land appropriation, transformed property relations, and

global capital accumulation. By zooming in on security practices in Colombia and Mexico in that decade and juxtaposing the two contexts, this book offers a detailed analysis of the role of the state in violence. To what extent and for whom do states produce order and disorder? Which social forces support and drive such state practices? Expanding the literature on authoritarian neoliberalism and the coloniality of state power—thus linking political economy to postcolonial approaches—the book builds a theoretical lens to study state security practices. Different social groups, enjoying differentiated access to the state, influenced the state discourse on crime to very different extents. Security practices—which oscillated between dispersed organization by a multiplicity of actors and institutionalization with the military—materialized as horrific insecurity for social groups thought of as disposable. In tendency, putting security centerstage disabled dissent. The “security projects” exacerbated contradictions driven by a particular economic model and simultaneously criminalized precisely those that this model had already radically disadvantaged.

En clave de marcas Gonzalo Brujó,2010 Gonzalo Brujó y 23 visionarios del marketing descubren el presente y el futuro del intangible más importante.

Marketing cinematográfico Elena Neira,Rafael Linares,Joan Herbera,2015-01-01 Detrás del estreno de una película, existe una cuidada estrategia en la que se llevan a cabo distintas acciones con un objetivo común: conseguir un buen debut en cines y, por extensión, un recorrido comercial óptimo en el resto de las ventanas de explotación. Este libro aborda la promoción de una película de manera global. El lector descubrirá, de la mano de sus autores, las principales herramientas y estrategias que la empresa audiovisual tiene a su disposición durante toda la cadena de generación de valor de un título: desde la idea creativa hasta el día de su proyección en salas. Por un lado se exponen los procesos, estrategias, materiales y medios que forman parte de una campaña de marketing cinematográfico para explicar, posicionar y promocionar un título entre los espectadores potenciales. En segundo lugar se abordan las técnicas que proporciona la investigación de mercado para definir productos más afines, dimensionar la película y conocer mejor el público objetivo (target) al que nos dirigimos. Por último se explican las posibilidades de promoción que ofrecen las redes sociales al sector del entretenimiento, especialmente en uno de los nichos de audiencia más esquivo: los jóvenes.

Hackea tu cerebro Nicolás Fernández Miranda,2023-12-02 A Nicolás Fernández Miranda le dijeron que nunca sería bueno en Matemática y unos años después se recibió de Contador Público, con honores. Al convertirse en profesor, descubrió que había algo que no estaba bien en el sistema educativo, y era que nadie se había preocupado por enseñarles, ni a sus alumnos ni a él mismo, cómo aprender. Gracias a su pasado, descubrió que su vocación era compartir con el mundo sus conocimientos en la neurociencia aplicada al aprendizaje. Desde entonces, en sus conferencias, en sus clases y en sus redes sociales comparte videos, hacks y métodos en los que busca demostrarles a sus seguidores que aprender es fácil, divertido y necesario. Entender cómo funcionan los procesos de aprendizaje y productividad puede cambiar la vida de todos.

The Reinvention of Mexico Gavin O'Toole, 2010-10-25 This book examines a sophisticated effort by radical economic reformers to change the ideology of nationalism in Mexico from 1988-94 and so "reinvent" the country in a way that was more friendly to their market policies, and responses to this by opposition parties.

Ingenio y pasión Silvia Leal Martín, Jorge Urrea Filgueira, 2013 En un mundo en el que el éxito es cada vez más fugaz, las organizaciones y las personas que aspiran a triunfar necesitan incorporar la innovación como parte de su estilo de vida. Sin embargo, ¿cómo se puede fomentar el comportamiento innovador? Ingenio y pasión proporciona una eficaz metodología y una herramienta indispensable para que emprendedores, directivos y responsables de equipos que necesiten inventar y reinventarse encuentren el impulso transformador en su propia fuerza motriz. Para ello aporta herramientas de diagnóstico, directrices de aplicación y lecciones aprendidas por cientos de empresas y profesionales que han triunfado o fracasado en el intento. Gracias a ellas, muestra cómo gestionar con eficacia tres dimensiones esenciales: personas, organización y motivación, contemplando en todo momento las diferencias de género. Esta eficaz metodología, de la que se han hecho eco publicaciones internacionales como Forbes, permite abordar la innovación de una manera rigurosa y práctica, logrando que empresas y profesionales crezcan a pesar de las turbulencias, construyendo las condiciones que garanticen, más allá de la supervivencia, una buena dosis de éxito.

Opinar Con Sentido Jes S. S. Nchez-Ajofr N. Reverte, Jesús Sánchez-Ajofrín Reverte, 2012-07 La navegación por la vida, puede convertir a las personas en instruidos marineros. Saber dar soluciones en los momentos de mayor riesgo para el naufragio, es la prueba que te convierte en el hábil capitán de tu propio barco. Si toda esta aventura, queda argumentada y

bien documentada, no hay duda que, sobrevivirá al inevitable, y definitivo naufragio por nuestra vida, como garantía para próximos navegadores. Mis cartas fueron llegando a importantes archivos de vanguardia: los periódicos aceptaron la información, y fueron testigos de escarpados viajes por mi mente. Cientos de artículos dirigidos a la sección de cartas al director fueron viendo la luz por toda la geografía nacional. Así, periódicos como El País, La Vanguardia, La Verdad, Diario de León, Diario La Nueva España de Oviedo, La Voz de Galicia, Diario de Mallorca, Diario Bahía de Cádiz, Diario Palentino, Diario de Burgos, El Norte de Castilla, Heraldo de Aragón (Zaragoza), El Correo Español-El Pueblo Vasco, Diario Montañés de Santander, Diario Sur (Málaga, Marbella y Melilla). De esta manera, se convirtieron en 'notarios' de mis aventuras. La revista XL Semanal de gran tirada nacional, me convirtió en marinero de alto rango al haberme premiado en el apartado de carta de la semana, la enviada con el título: El Reloj de mi abuelo (dedicada con todo el cariño, a la muerte de mi padre) con un comentario de Lorenzo Silva (abogado y escritor); además de haberme publicado otras tantas de opinión. Este libro, se convierte por tanto, en un torrente variado, ante sentimientos e ideas de la vida. El Autor <http://jsreverte.com/>

Semantics of Violence Nelson Arteaga Botello,2022-04-22 This book describes three impactful cases of political violence that broke out in Mexico in 1994, pointing to an important juncture in Mexican political development. At that point, the patrimonial order centered on the PRI and the Mexican presidency entered a momentous crisis that is still ongoing after a quarter of a century and caused the patrimonial order and the civil order to compete over Mexican public life. Such competition, in turn, unfolds at the cultural level on the terrain of three semantics of political violence that shape public

debates over violence in Mexico. Ultimately, this book sheds light over the refraction of patrimonial and civil attributions across such cultural terrains.
