Las bibliotecas escolares en España. Dinámicas 2005-2011 Miret, Inés,Baró, Mónica,Mañá, Teresa,Vellosillo, Inmaculada,2013 El estudio que recoge este libro tiene sus antecedentes en la iniciativa promovida, en 2005, por la Fundación Germán Sánchez Ruipérez en colaboración con la Fundación Santa María/IDEA7, que ofreció un diagnóstico exhaustivo de las bibliotecas en los centros educativos, orientado a conocer su integración en el proyecto educativo y curricular, así como a detectar los usos y las percepciones de sus usuarios. El objetivo del informe es valorar los avances producidos en los años transcurridos desde la realización del citado trabajo y establecer un diagnóstico sobre las dinámicas vividas en la biblioteca escolar española desde 2005 a 2011 para generar conocimiento y proponer instrumentos a los profesionales de la lectura y la educación. Los resultados de esta investigación presentan un panorama de evolución positiva en una serie de variables en comparación con los datos que arrojaba nuestro anterior trabajo. Se trata del comienzo de un camino que es una base sobre la cual construir un modelo en el que la lectura se consolide como la pieza central de cualquier tipo de propuesta de aprendizaje. Historia Patria Carolyn P. Boyd,2020-12-08 Beginning with the restoration of the Bourbon monarchy in 1875 and ending with the death of General Francisco Franco in 1975, this book explores the intersection of education and nationalism in Spain. Based on a broad range of archival and published sources, including parliamentary and ministerial records, pedagogical treatises and journals, teachers' manuals, memoirs, and a sample of over two hundred primary and secondary

school textbooks, the study examines ideological and political conflict among groups of elites seeking to shape popular understanding of national history and identity through the schools, both public and private. A burgeoning literature on European nationalisms has posited that educational systems in general, and an instrumentalized version of national history in particular, have contributed decisively to the articulation and transmission of nationalist ideologies. The Spanish case reveals a different dynamic. In Spain, a chronically weak state, a divided and largely undemocratic political class, and an increasingly polarized social and political climate impeded the construction of an effective system of national education and the emergence of a consensus on the shape and meaning of the Spanish national past. This in turn contributed to one of the most striking features of modern Spanish political and cultural life--the absence of a strong sense of Spanish, as opposed to local or regional, identity. Scholars with interests in modern European cultural politics, processes of state consolidation, nationalism, and the history of education will find this book essential reading.

Estudio de la lectura en los discursos legislativos y medios de comunicación social (1960-2010) Belén García-Delgado Giménez,2012-07 El trabajo Estudio de la lectura en discursos legislativos y medios de comunicación social (1960-2010) recoge el estudio de discursos públicos sobre lectura basado en las noticias de los periódicos El Mundo, ABC y El País y los textos legislativos publicados en el BOE. El análisis se basa en los estudios de las frecuencias seleccionando aquellos términos más relevantes para el tema objeto de estudio y que permiten observar la evolución de los discursos públicos a lo largo del periodo estudiado. Asimismo se revisa la evolución del concepto de lectura a lo largo de la historia y se aporta información acerca de las cuestiones directamente relacionadas con la lectura como es el canon literario, su relación con la formación así como los nuevos soportes de lectura.
