Museo de Arte Latinoamericano de Buenos Aires Museo de Arte Latinoamericano de Buenos Aires,

Art Museums of Latin America Michele Greet, Gina McDaniel Tarver, 2018-03-08 Since the late nineteenth century, art museums have played crucial social, political, and economic roles throughout Latin America because of the ways that they structure representation. By means of their architecture, collections, exhibitions, and curatorial practices, Latin American art museums have crafted representations of communities, including nation states, and promoted particular group ideologies. This collection of essays, arranged in thematic sections, will examine the varying and complex functions of art museums in Latin America: as nation-building institutions and instruments of state cultural politics; as foci for the promotion of Latin American modernities and modernisms; as sites of mediation between local and international, private and public interests; as organizations that negotiate cultural construction within the Latin American diaspora and shape constructs of Latin America and its nations; and as venues for the contestation of elitist and Eurocentric notions of culture and the realization of cultural diversity rooted in multiethnic environments.

Encounters in Video Art in Latin America Elena Shtromberg, Glenn Phillips, 2023-02-14 With insightful essays and interviews, this volume examines how artists have experimented with the medium of video across different regions of Latin America since the 1960s. The emergence of video art in Latin America is marked by multiple points of development, across more than a dozen artistic centers, over a period of more than twenty-five years. When it was first introduced during the 1960s, video was seen as empowering: the portability of early equipment and the possibility of instant playback allowed artists to challenge and at times subvert the mainstream media. Video art in Latin America was—and still is—closely related

to the desire for social change. Themes related to gender, ethnic, and racial identity as well as the consequences of social inequality and ecological disasters have been fundamental to many artists' practices. This compendium explores the history and current state of artistic experimentation with video throughout Latin America. Departing from the relatively small body of existing scholarship in English, much of which focuses on individual countries, this volume approaches the topic thematically, positioning video artworks from different periods and regions throughout Latin America in dialogue with each other. Organized in four broad sections—Encounters, Networks and Archives, Memory and Crisis, and Indigenous Perspectives—the book's essays and interviews encourage readers to examine the medium of video across varied chronologies and geographies.

Dissident Practices Claudia Calirman, 2023-03-01 In *Dissident Practices*, Claudia Calirman examines sixty years of visual art by prominent and emerging Brazilian women artists from the 1960s to the present, covering the period from the military dictatorship to the return to democracy in the mid-1980s, the social changes of the 2000s, the rise of the Right in the late-2010s, and the recent development of an overtly feminist art practice. Though they were lauded as key figures in Brazilian art, these artists still faced adversity and constraints because of their gender. Although many of them in the 1960s and 1970s disavowed the term feminism, Calirman gives a nuanced account of how they responded to authoritarianism, engaged with trauma in the aftermath of the military dictatorship, interrogated social gender norms, and fought against women's objectification. By battling social inequalities, structures of power, and state violence, these artists create political agency in a society in which women remain targets of brutality and discrimination.

Art of Latin America, 1981-2000 Germán Rubiano Caballero, 2001

Cold War in the White Cube Delia Solomons, 2023-04-28 In 1959, the very year the Cuban Revolution amplified Cold War tensions in the Americas, museumgoers in the United States witnessed a sudden surge in major exhibitions of Latin American art. Surveying the 1960s boom of such exhibits, this book documents how art produced in regions considered

susceptible to communist influence was staged on U.S. soil for U.S. audiences. Held in high-profile venues such as the Guggenheim Museum, the Walker Art Center, MoMA, and the Art Institute of Chicago, the exhibitions of the 1960s Latin American art boom did not define a single stylistic trend or the art of a single nation but rather attempted to frame Latin America as a unified whole for U.S. audiences. Delia Solomons calls attention to disruptive artworks that rebelled against the curatorial frames purporting to hold them and reveals these exhibitions to be complex contact zones in which competing voices collided. Ultimately, through multiple means—including choosing to exclude artworks with readily decipherable political messages and evading references to contemporary inter-American frictions—the U.S. curators who organized these shows crafted projections of Pan-American partnership and harmony, with the United States as leader, interpreter, and good neighbor, during an era of brutal U.S. interference across the Americas. Theoretically sophisticated and highly original, this survey of Cold War-era Latin American art exhibits sheds light on the midcentury history of major U.S. art museums and makes an important contribution to the fields of museum studies, art history, and Latin American modernist art.

Photography in Argentina Idurre Alonso, Judith Keller, 2017-09-15 From its independence in 1810 until the economic crisis of 2001, Argentina has been seen, in the national and international collective imaginary, as a modern country with a powerful economic system, a massive European immigrant population, an especially strong middle class, and an almost nonexistent indigenous culture. In some ways, the early history of Argentina strongly resembles that of the United States, with its march to the prairies and frontier ideology, the image of the cowboy as a national symbol (equivalent to the Argentine gaucho), the importance of the immigrant population, and the advanced and liberal ideas of the founding fathers. But did Argentine history truly follow a linear path toward modernization? How did photography help shape or deconstruct notions associated with Argentina? Photography in Argentina examines the complexities of this country's history, stressing the heterogeneity of its realities, and especially the power of constructed photographic images—that is, the practice of altering reality for artistic expression, an important vein in Argentine photography. Influential specialists from Argentina have contributed essays on various topics, such as the shaping of national myths, the adaptation of gesture as related to the “disappeared” during the dictatorship period, the role of contemporary photography in the context of recent sociopolitical events, and the reinterpreting of traditional notions of documentary photography in Argentina and the rest of Latin America.

La cultura descentrada Carla Pinochet Cobos, 2024-11-01 ¿Cómo pensar juntos el recogimiento que aún se pide para obras autónomas, los medios y sus productos diseminados en el streaming, el malestar de artistas que se llaman trabajadores y hallan que las promesas de la economía creativa se diluyen en precariedad? Si lo cultural está tan esparcido, no se logra democratizarlo con las políticas que insisten, desde hace medio siglo, solo en ampliar su difusión. Este libro está pensado en trabajos de campo en museos tradicionales o performativos y con sus usuarios en Chile, Paraguay y Perú, siguiendo las prácticas de creadores y lectores en México, las convulsiones contradictorias de la participación ciudadana, las memorias urbanas, la euforia y la decepción en movilizaciones políticas que emplean los lenguajes de las artes para comunicar sus imaginarios y rebeliones.

Transatlantic Cinephilia Rielle Navitski, 2023-11-07 In the two decades after World War II, a vibrant cultural infrastructure of cineclubs, archives, festivals, and film schools took shape in Latin America through the labor of film enthusiasts who often worked in concert with French and France-based organizations. In promoting the emerging concept and practice of art cinema, these film-related institutions advanced geopolitical and class interests simultaneously in a polarized Cold War climate. Seeking to sharpen viewers' critical faculties as a safeguard against ideological extremes, institutions of film culture lent prestige to Latin America's growing middle classes and capitalized on official and unofficial efforts to boost the circulation of French cinema, enhancing the nation's soft power in the wake of military defeat and occupation. As the first book-length, transnational analysis of postwar Latin American film culture, *Transatlantic Cinephilia* deepens our understanding of how institutional networks have nurtured alternative and nontheatrical cinemas.
