New Dimensions/cube of Space , Hidden in a secret book of cosmology, written in the ancient Hebrew tongue, long forgotten but not lost by mankind, is a description of a mysterious cube formed from the twenty-two letters of the Hebrew alphabet. This cube of letters is constructed of a center, three interior dimensions, six faces, and twelve edges. These twenty-two components form the cube, and also reveal a map that clearly shows where we have come from, where we are now, and where we are going in our evolutionary journey toward complete spiritual awakening. In New Dimensions for the Cube of Space, David Allen Hulse explains that this cube of letters cannot reveal its deepest secrets until it is clothed in the cards of the tarot, creating a map of the cosmos referred to as the Cube of Space. Then, and only then, can this mystical cube speak directly to our souls and show us the way, or the true path of initiation we all must eventually travel. He presents a fascinating description of how he attained his insights along with a clear exposition of the Cube of Space as a path of initiation. Hulse illustrates his insights using the original B.O.T.A. tarot deck, designed by Paul Foster Case. The clear and simple imagery of this deck is very helpful for understanding every nuance of the symbolic material in the story of the soul's journey around the six faces of the cube. However, the popular Waite deck, or any other Tarot deck can be used in studying the Cube of Space. Included is the material needed for the construction of a model of the Cube of Space and Hulse recommends that the reader assemble this model, as it will greatly facilitate a clear understanding of the symbolic meaning

behind each of the of the twenty-two directions of space delineated by the cube. Includes a color insert for construction of your own Cube!

The Cabal of Moloch and Saturn Cosmology David Klooz, 2023-11-15 This book is a short description of how Zionist zealots have planned and implemented messianic protocols since 3,000 BCE by writing a bible that stole creation myths from the Babylonian Enuma Elish and the Egyptian Book of the Dead and by stealing the sacred stones of the Egyptian Ark of the Great Pyramid under the leadership of Akhenaten (Moses) and fleeing to Palestine where they, once again, took over the land occupied by the Canaanites and called it Israel. Archeologic and genetic data support that both Jews and Palestinians came from ancient Canaanites, who extensively mixed with Egyptians, Mesopotamian, and Anatolian peoples in ancient times. Thus, Palestinian-Jewish rivalry is based solely on cultural and religious, but not in genetic differences. Does anyone really believe that the storm God El, then Baal, then combined with Yahweh wrote the bible and decided that Jews would be the chosen people. Since the Spring of 2020, when mandated Covid-19 vaccines began, excess deaths have increased dramatically across the globe to about 20%, while unknown causes of death have increased significantly. The numerous lockdowns (stay at home of the workforce), fear campaigns, COVID-19 policy mandates imposed on approximately 193 member states of the United Nations have also contributed to undermining and destabilizing the very fabric of civil society and its institutions including education, culture and the arts, social gatherings, sports, entertainment; all public sector activities including physical and social infrastructure, social services, law enforcement; all major private sector activities which characterize national, regional and local economies including small, medium and large corporate enterprises, family farms, industry, wholesale and retail trade, the urban services economy, transport companies, airlines, hotel chains; the structures of the global economy including international commodity trade, investment, import and export relations between countries, while the entire landscape of the global economy has been shattered. Each culture has a 'Creation Myth' that is contained in their own understanding of those cataclysm events that occurred between 10,500 BCE and 685 BCE. The West has primarily used the myth in the Judeo-Christian bible. However, you would think in the year 2020 people would understand that the bible is fiction and has significant reasons for concern, such as the following: the similarities of stories; obvious rehashing of numerous previous character; unavoidable contradictions; significant moral problems, including rape, murder and incest, and an abundance of nagging questions. Unless you are mindless, one can easily understand that a book like this can be used mainly for control, but in some hands it can be used to create a self-fulfilling prophecy. The Bible Is Really the Story of Creation of the Solar System. The Bible was initially stories that were written down and cobbled together and tales told verbally by their descendants over thousands of years that tried to explain the birth of the present Solar System, and what the survivors witnessed. It began in about 10,500 BCE and ended about 685 BCE. Millions of years ago, our Earth was created by an expulsion of plasma from its brown dwarf star, now known as the Planet Saturn. Mars was

also created from a plasma expulsion from the brown dwarf, when it came under electrical stress in the plasma Universe. Saturn, as a brown dwarf, with the Earth and Mars within its plasma glow mode, had an atmosphere of salt, hydrocarbons and water that misted down on both planets for millions or billions of years, providing its oceans and oil pockets. Brown dwarfs are known to be the best home for the development of life since the glow mode provides one warm temperature with no seasons and promotes growth under its ultraviolet and infrared atmosphere. It has recently been discovered that Saturn is the only planet with the same molecular type of water as Earth. Our Earth does not wobble around its pole, as is currently believed, every 25,920 years due to solar-lunar forces acting on the Earth. It was known long ago by the Ancients that the so called change in some stars 'precessing' against the sky was caused by the path of our sun and planets and other stars travelling and revolving around electric Birkeland Current filaments that circle around certain stars; the star Arcturus, the star Alcyone and the star Sirius. The revolution of our current Sun with Sirius occurs every 25,000 years, with the Arcturus filament stream every 550,000 years and with Alcyone, and the Pleiades star system, every 26-27 million years. This last cycle is important since it corresponds to the same 26-27 million year extinction cycle of our Earth. It is believed that Earth's extinction level events occurred as the Saturnian System with Earth and Mars within its orbit crossed the position of our current Sun and its planets every 26-27 million years, resulting in the mass extinctions. The biology of Earth is such a complete accident, and so utterly unlikely that it will probably not have ever been duplicated anywhere, at anytime, among the billions of other star systems. But here on Earth, all of it, especially the rise of complex species since the Cambrian, 560 million years ago, can be attributed to a series of cataclysmic plasma strikes by Saturn, each of a very long duration: biologists claim 10,000 years for the extinction events. At about 10,500 BCE, the Earth, at that time a planet of the Sun, made an electric field contact with Saturn, causing 1500 years of darkness on Earth. The period of darkness is recognized by many of the world's creation myths and was recorded in the illustrated graphic books of Mesoamerica, references to which are made in the Colonial period documents. Climatologically, the period is identified today as the Younger Dryas, when for some 1500 years Earth got as cold as it had ever been. Over the next 7000 years the orbit of Earth, apparently equal to the orbit of Saturn at that time, but below Saturn, progressively moved laterally to have the Earth's orbital path eventually travel below the centre of Saturn. Thus, between 10,500 BCE and 3147 BCE, earth was part of a strange configuration of stacked planets, a condition which provided long summers and a mild climate in the northern hemisphere. Planets, dominated by the giant form of Saturn, stood above the north horizon and close to Earth but measured in millions of miles and were taken by humans to be the Gods who supported them and for whose benefit they labored at agriculture and conducted trade. In 4070 BCE, Saturn dropped its coma. This had been the 'chaos before creation', which had lasted some 7,000 years and had obscured Saturn and its companion satellites. Saturn went Nova, and switched to arc mode. In a mass expulsion Saturn produced its rings and a new satellite, Venus. Saturn lit up more brilliantly than the Sun. For humans of Earth, who had not

clearly seen the real Sun for thousands of years because of the shadow of the Younger Dryas, followed by the obscurity of the enclosing plasmasphere of Saturn, this was the creation, the start of time, and the first showing of the land and its resident Gods, the satellites of Saturn. Saturn was universally called the Sun throughout the world at this time. In 3147 BCE, as Mars began the oscillate between Venus and Earth this configuration of standing planets became unstable and broke apart, with the three large planets moving away from the Sun, while Earth, Venus and Mars were released to their overlapping inner orbits. The breakup produced a stupendous flood waters, which had been held at the south polar region due to gravitational attraction of Saturn for some 7,000 years. The water held at the South Pole was due to the lifting up of the Earth's crust in the Arctic, and the sinking toward the Earth's interior in Antarctica. This was the end of the 'Golden Age'. When the Solar System re-arrangement was complete it formed the basis of all religions, myths and mystery schools.

The Bible Conspiracy David Klooz, 2025-02-23 Most people are not aware that numerous cataclysmic events significantly shaped Earth's history, including advanced civilizations like Atlantis and Lemuria, which were destroyed and forgotten over time. Nor do many know that Earth was once part of a system orbiting Saturn, and that major cosmic events involving Saturn, Jupiter, and other planets influenced Earth's development and ancient mythologies and religions. Also, very few individuals realize that many biblical characters, including Jacob, Moses and King David, were based on historical Egyptian figures, and that the Bible was heavily influenced by Egyptian texts, rituals, religion, morals and artifacts. Moreover, few are aware of the influence of ancient mystery schools on the development of philosophical and religious thought, suggesting that secret societies have preserved and transmitted esoteric and occult knowledge through the ages to only the initiates of those societies. The concept of a plasma and an electric universe proposes that electrical forces play a critical role in cosmic events and planetary interactions, challenging traditional gravitational theories. Plasma is also related to the real purpose and mysteries surrounding the Great Pyramid, whose construction reflects sophisticated scientific knowledge of the Earth, Solar System and Universe. In the end, readers will understand that like most stories, this one is about the psychopathic need of the few for control and the bending of humankind's will, in this case by means of religion and money - the worst two innovations of humankind. There have never been wars between civilizations, but only Class Wars that create them. This is the story of an ancient priestly cult that, through esoteric and occult knowledge, has been able to create and control events that keep humankind in chains.

Manifestations of antisemitism in political, legal, media and other contexts are reflected on theoretically and contemporary developments are analyzed with a special focus on online hatred. The volume points to the need for a globally coordinated approach on the political and legal levels, as well as with regard to the modern media, to effectively combat modern antisemitism.

Target Aquarius Scott Beringer, 2014-05-08 The sixties saw massive shifts in consciousness as a higher authority was setting the stage for "The Coming." Camelot was meant to fall, with the 5th Dimension singing background, as Petula sings curious lyrics to a "distant love" while Target changed its logo of 6 elements to that of 3 in preparation. The wizard then created it's polar 6 in the hills of OZark, and egos shop as if nothing approaches. The "Inconvenient Truth" of climate change is however, an allegory of Earth changes as we enter new energy fields as we align at the plane of galactic center, ushering the death of 3-D Iron. The smoke in the shape of a galaxy on its cover speak to the aware, confirming it to be an Alaôr , along with Al's assertion that he took the initiative in creating the Internet, as it too is an allegory for the coming Aquarian awareness. "The weather, very peculiar, Don't you think?" Like a Bronze Phoenix, the organic 5D NWO will "Spring" from the wintry rubble of rust, with its 4 letters, that was the dark polarities "mechanized" nwo. This mystical setting is for my fellow Prodigals, "to whom it is given," who are waking up to the emptiness of their 3D Las Vegash folly here in the 7-11 School of Duality! As the new millennium began, the ultimate paradox was played out. Understated symbolism with an ironic twist, as a president tells his countrymen to go out and shop after 9-11 with wars planned, while Target, in contradiction, airs a television commercial that has nothing to do with shopping, but everything to do with our spiritual advancement beyond this 3D setting. A logo and a thirty-second commercial that defy any explanation in terms of ordinary marketing. A divine message, seen by billions and "not seen". If You have not retreated, then perhaps it is Your time to take this information and prepare. It is the easiest, and most Sirius, choice you will ever make to finally understand why, there will be a cleansing Reckoning, and what cosmological purpose it serves with a Final Judgement, which I had rejected until I discovered the purpose it serves, as a very precise program that oversees the development of new Stars and their Darker polar partners, within the expanding Cosmos. Learn the real meaning of 9-11 and 7-11, and why "The Fall" of Man, the Angels and Lucifer was preordained and had to occur for this "Polar" expansion. When you Know Yourself, you will understand your own "Arc" frequency and how to adjust it, making you the Master of your game! This was the "Ark" Noah was "building" to adjust and align his with the "higher frequency" of the next Age, discovering the Narrow Gate! Time has come to pay attention to the "invisible" Man behind the curtain and the real identity of the "visible" Lucifer and the real truth of the "Light-Bearer", that was hidden from the children until the few were ready for adult concepts. Time to be aware of our Mother and know "You've always had the power", and that no "evil" can steal your "sole", Dorothy! The multitude of clue filled counterfeit current "events" point to This, Sign of the Times! Oh thank heaven for 7-11, as one play concludes, and your new front row seat to "A Star is Born"!

Devil's Breath Greg F Gifune, 2019-04-19 In a dying coastal town near Cape Cod, Stanley Falk lives a quiet and unassuming life as a dishwasher. A shell of what and who he once was, Stanley is a man with a dark and violent past who

does his best to forget by drinking it all away. But one morning he awakens to find his meager bank account emptied and his memory of the drunken evening prior wiped clean. Vague memories and terrible nightmares of evil gods, distant planets and a hideous room where torture has been practiced and blood flows like water haunt his every waking moment. Something depraved is intent on dragging him back into the same pit of darkness he's fought his entire life to crawl out of, and now there are others, in the shadows, watching his every move and luring him closer to a truth beyond comprehension...beyond evil...beyond anything he's ever imagined possible. You worship what you do not know.

A God in the Moon Roger A Turner, 2019-02-01 A God in the Moon Your Guide to the World of the Trinity Matrix Why is quantum science based on the number 3? Why is the trinity of soul, mind, and body the basic pattern of life? Why are most of the world's ancient religions based on the pattern of three? Is there an intelligence that has designed this universe based on the number 3? A God in the Moon: Your Guide to the World of the Trinity Matrix seeks to uncover the truth behind the complexity of ancient and modern beliefs and the words that form a connection with many elements of esoteric and scientific knowledge. An investigation of ancient and modern myths brings a clearer view of the Trinity Matrix that the "mind of men" has weaved to have ultimate control over our fellow humans.

Dark Matter, Neutrinos, And Our Solar System Nirmala Prakash, 2012-10-31 Dark Matter, Neutrinos, and Our Solar System is a unique enterprise that should be viewed as an important contribution to our understanding of dark matter, neutrinos and the solar system. It describes these issues in terms of links, between cosmology, particle and nuclear physics, as well as between cosmology, atmospheric and terrestrial physics. It studies the constituents of dark matter (classified as hot warm and cold) first in terms of their individual structures (baryonic and non-baryonic, massive and non-massive, interacting and non-interacting) and second, in terms of facilities available to detect these structures (large and small). Neutrinos (an important component of dark matter) are treated as a separate entity. A detailed study of these elusive (sub-atomic) particles is done, from the year 1913 when they were found as byproducts of beta decay — until the discovery in 2007 which confirmed that neutrino flavors were not more than three (as speculated by some). The last chapter of the book

details the real-time stories about the “regions” that were not explored thus far, for lack of advanced technology. Their untold fascinating stories (which span up to 2010) are illustrated here datewise in full. The book concludes with the latest news that the Large Hadron Collider team at CERN has finally succeeded in producing 7 trillion electronic Volts of energy by creating head-on-collisions of protons and more protons (in search of God-particle). The energy produced was three times more than previous records.

The Black Holes—A Myth or Reality Generalized Newton’s Theory of Universal Gravitation Lenser Aghalovyan, 2025-05-28 A few decades later, Isaac Newton (1642-1727) mathematically derived Kepler’s laws and formulated the famous law of Universal gravitation. In subsequent decades and centuries, this law received many convincing and striking confirmations. Along with this, over time, were identified cosmic phenomena that were difficult to explain according to Newton’s theory of gravitation, for example, some discrepancy between orbit closest to the Sun planet Mercury at perigee from the observational data. The famous American astronomer Simon Newcomb (1835-1909), not finding convincing explanation for this fact, in 1895 expressed the opinion that perhaps Newton’s inverse squares law doesn’t fulfill exactly at short distances.
