

Duomo Di Milano Nel 1600

IM Harris

The Sounds of Milan, 1585-1650 Robert L. Kendrick, 2002 Examines the cultural contexts of music in early-modern Milan. This book describes the buildings that served as performance spaces in Milan, analyses the power structures in the city and discusses the devotional rites of the Milanese.

Architecture in Italy, 1500-1600 Wolfgang Lotz, 1995-01-01 This classic work presents a stimulating survey of the most exciting and innovative period in the history of architecture. Lotz also goes beyond the more familiar locations, architects and buildings to conquer less well-known territories, exploring Piedmont and Vitozzi and ending with a study of bizzarrie.

Storia della scultura dal suo risorgimento in Italia Conte Leopoldo Cicognara, 1818

The Procaccini and the Business of Painting in Early Modern Milan Angelo Lo Conte, 2020-12-30 The book investigates the lives and careers of the Procaccini brothers: Camillo (1561-1629), Carlo Antonio (1571-1631) and Giulio Cesare (1574-1625), the most important family of painters working in northern Italy at the start of the seventeenth century. The Procaccinis' work is here analysed by interconnecting their individual stories and understanding their success as the combination of mutual artistic choices, a high level of specialization and precise business organization. The book looks at this family of painters as entrepreneurs, emphasizing their conscious response to the requests of public and private patrons, as well as their ability to balance instances of originality and imitation in an era characterized by a wide range of artistic opportunities, including religious commissions, national and international patronage and multifaceted markets. This book will be of interest to scholars studying art history, early modern studies, the art market, Italian studies and Italian history.

Music in the Collective Experience in Sixteenth-Century Milan Christine Suzanne Getz, 2023-05-31 Renaissance music, like its sister arts, was most often experienced collectively. While it was possible to read Renaissance polyphony silently from

a music manuscript or print, improvise alone, or perform as a soloist, the very practical nature of Renaissance music defied individualism. The reading and improvisation of polyphony was most frequently achieved through close co-operation, and this mutual endeavour extended beyond the musicians to include the society to which it is addressed. In sixteenth-century Milan, music, an art traditionally associated with the court and cathedral, came to be appropriated by the old nobility and the new aristocracy alike as a means of demonstrating social primacy and newly acquired wealth. As class mobility assumed greater significance in Milan and the size of the city expanded beyond its Medieval borders, music-making became ever more closely associated with public life. With its novel structures and diverse urban spaces, sixteenth-century Milan offered an unlimited variety of public performance arenas. The city's political and ecclesiastical authorities staged grand processions, church services, entertainments, and entries aimed at the propagation of both church and state. Yet the private citizen utilized such displays as well, creating his own miniature spectacle in a visual and an aural imitation of the ecclesiastical and political panoply of the age. Using archival documents, music prints, manuscripts and contemporary writing, Getz examines the musical culture of sixteenth-century Milan via its life within the city's most influential social institutions to show how fifteenth-century courtly traditions were adapted to the public arena. The book considers the relationship of the primary cappella musicale, including those of the Duomo, the court of Milan, Santa Maria della Scala, and Santa Maria presso San Celso, to the sixteenth-century institutions that housed them. In addition, the book investigates the musician's role as an actor and a functionary in the political, religious, and social spectacles produced by the Milanese church, state, and aristocracy within the city's diverse urban spaces. Furthermore, it establishes a context for the numerous motets, madrigals, and lute intabulations composed and printed in sixteenth-century Milan by examining their function within the urban milieu in which they were first performed. Finally, it musically documents Milan's transformation from a ducal state dominated by provincial traditions into a mercantile centre of international acclaim. Such an important study in Italian Renaissance music will therefore appeal to anyone interested in the culture of Renaissance Italy.

Representing Infirmary John Henderson,Fredrika Jacobs,Jonathan K. Nelson,2020-11-17 This volume is the first in-depth analysis of how infirm bodies were represented in Italy from c. 1400 to 1650. Through original contributions and methodologies, it addresses the fundamental yet undiscussed relationship between images and representations in medical,

religious, and literary texts. Looking beyond the modern category of 'disease' and viewing infirmity in Galenic humoral terms, each chapter explores which infirmities were depicted in visual culture, in what context, why, and when. By exploring the works of artists such as Caravaggio, Leonardo, and Michelangelo, this study considers the idealized body altered by diseases, including leprosy, plague, goitre, and cancer. In doing so, the relationship between medical treatment and the depiction of infirmities through miracle cures is also revealed. The broad chronological approach demonstrates how and why such representations change, both over time and across different forms of media. Collectively, the chapters explain how the development of knowledge of the workings and structure of the body was reflected in changed ideas and representations of the metaphorical, allegorical, and symbolic meanings of infirmity and disease. The interdisciplinary approach makes this study the perfect resource for both students and specialists of the history of art, medicine and religion, and social and intellectual history across Renaissance Europe.
