Sacred Starts MD Sharr,2025-05-03 *Sacred Starts: A Fresh Guide to Hindu Baby Names* is a heartfelt and thoughtful book crafted to help parents find the perfect name for their child—one that's rich in meaning, spirituality, and individuality. In Hindu culture, naming is a sacred act, often influenced by tradition, astrology, and symbolism. This guide honors those roots while offering a modern, curated collection of both classic and rare names from Sanskrit and Hindu philosophy. With clarity and warmth, the book addresses the desires of contemporary parents who seek names that are easy to pronounce, unique, and spiritually resonant. From deities and virtues to nature and poetic inspiration, every name carries a story. Categorized alphabetically and by gender, the book is designed as a companion, not a catalog—guiding readers with care, insight, and cultural depth. It celebrates the power of names as lifelong gifts and marks the beginning of a sacred journey in parenthood.

Disgust Winfried Menninghaus,2012-02-01 *Disgust* (Ekel, dégoût) is a state of high alert. It acutely says no to a variety of phenomena that seemingly threaten the integrity of the self, if not its very existence. A counterpart to the feelings of appetite, desire, and love, it allows at the same time for an acting out of hidden impulses and libidinal drives. In *Disgust*, Winfried Menninghaus provides a comprehensive account of the significance of this forceful emotion in philosophy, aesthetics, literature, the arts, psychoanalysis, and theory of culture from the eighteenth century to the present. Topics addressed include the role of disgust as both a cognitive and moral organon in Kant and Nietzsche; the history of the imagination of the rotting corpse; the counter-cathexis of the disgusting in Romantic poetics and its modernist appeal ever since; the affinities of disgust and laughter and the analogies of vomiting and writing; the foundation of Freudian psychoanalysis in a theory of disgusting pleasures and practices; the association of disgusting otherness with truth and the trans-symbolic real in Bataille, Sartre, and Kristeva; Kafka's self-representation as an Angel of disgusting smells and acts,

concealed in a writerly stance of uncompromising purity; and recent debates on Abject Art.

Female Offenders Ruth T. Zaplin,1998 Presents theory, guidelines, treatment, program considerations, and strategies designed to rehabilitate and empower female offenders to reenter society in a meaningful and productive way. Through a Glass Brightly Chris Entwistle,2016-09-28 The twenty-five papers in this volume cover diverse aspects of the material culture of the late Roman, Byzantine and Medieval periods, with particular emphasis on the metalwork and enamel of these times. Individual papers include major reinterpretations of objects in the British Museum's Byzantine collections as well as essays devoted to the Museum's recent acquisitions in this field. The volume celebrates the retirement of David Buckton, for over twenty years the curator of the British Museum's Early Christian and Byzantine collections and the National Icon Collection.

Parts within the volume explore Jane Austen in her time and within the literary canon; the literary critical and theoretical study of her novels, unpublished writing, and her correspondence; and the afterlife of her work as exemplified in film, digital humanities, and new media. In addition, the Companion devotes special attention to teaching Jane Austen.

Eve's Journey Nehama Aschkenasy,2015-08-12 In Eve's Journey, Nehama Aschkenasy traces the migration of several female images and feminine situations from their early appearances in Biblical writings to their incarnations in modern Hebraic literature. Focusing on the evolution of early female archetypes and prototypes, Aschkenasy uncovers the ancient roots of modern female characters and traces the changing cultural perceptions of women in Hebraic letters. The author

draws on the vast body of Hebraic literary documents to illustrate how the female character is a mirror of her times as well as being a product of her creator's imagination and conception of the woman's role in society and in fiction. The historical spectrum, provided by a discussion of Biblical narratives, Midrashic sources, documents of the Jewish mystics, Hasidic tales, and modern Hebrew works, allows an understanding of the metamorphosis that the female figure has experienced in her literary odyssey.

Studies in Jaina History and Culture Peter Flügel, 2006-02-01 The last ten years have seen interest in Jainism increasing, with this previously little-known Indian religion assuming a significant place in religious studies. *Studies in Jaina History and Culture* breaks new ground by investigating the doctrinal differences and debates amongst the Jains rather than presenting Jainism as a seamless whole whose doctrinal core has remained virtually unchanged throughout its long history. The focus of the book is the discourse concerning orthodoxy and heresy in the Jaina tradition, the question of omniscience and Jaina logic, role models for women and female identity, Jaina schools and sects, religious property, law and ethics. The internal diversity of the Jaina tradition and Jain techniques of living with diversity are explored from an interdisciplinary point of view by fifteen leading scholars in Jaina studies. The contributors focus on the principal social units of the tradition: the schools, movements, sects and orders, rather than Jain religious culture in abstract. Peter Flügel provides a representative snapshot of the current state of Jaina studies that will interest students and academics involved in the study of religion or South Asian cultures.

The Routledge Companion to Death and Literature W. Michelle Wang, Daniel Jernigan, Neil Murphy, 2020-12-07 The *Routledge Companion to Death and Literature* seeks to understand the ways in which literature has engaged deeply with the ever-evolving relationship humanity has with its ultimate demise. It is the most comprehensive collection in this growing field of study and includes essays by Brian McHale, Catherine Belling, Ronald Schleifer, Helen Swift, and Ira Nadel, as well as the work of a generation of younger scholars from around the globe, who bring valuable transnational insights. Encompassing a diverse range of mediums and genres – including biography and autobiography, documentary, drama, elegy, film, the novel and graphic novel, opera, picturebooks, poetry, television, and more – the contributors offer a dynamic mix of approaches that range from expansive perspectives on particular periods and genres to extended analyses of select case studies. Essays are included from every major Western period, including Classical, Middle Ages, Renaissance, and so on, right up to the contemporary. This collection provides a telling demonstration of the myriad ways that humanity has learned to live with the inevitability of death, where “live with” itself might mean any number of things: from consoling, to memorializing, to

rationalizing, to fending off, to evading, and, perhaps most compellingly of all, to escaping. Engagingly written and drawing on examples from around the world, this volume is indispensable to both students and scholars working in the fields of medical humanities, thanatography (death studies), life writing, Victorian studies, modernist studies, narrative, contemporary fiction, popular culture, and more.

Personification in the Greek World Judith Herrin, 2017-07-12 Personification, the anthropomorphic representation of any non-human thing, is a ubiquitous feature of ancient Greek literature and art. Natural phenomena (earth, sky, rivers), places (cities, countries), divisions of time (seasons, months, a lifetime), states of the body (health, sleep, death), emotions (love, envy, fear), and political concepts (victory, democracy, war) all appear in human, usually female, form. Some have only fleeting incarnations, others become widely-recognised figures, and others again became so firmly established as deities in the imagination of the community that they received elements of cult associated with the Olympian gods. Though often seen as a feature of the Hellenistic period, personifications can be found in literature, art and cult from the Archaic period onwards; with the development of the art of allegory in the Hellenistic period, they came to acquire more 'intellectual' overtones; the use of allegory as an interpretative tool then enabled personifications to survive the advent of Christianity, to remain familiar figures in the art and literature of Late Antiquity and beyond. The twenty-one papers presented here cover personification in Greek literature, art and religion from its pre-Homeric origins to the Byzantine period. Classical Athens features prominently, but other areas of both mainland Greece and the Greek East are well represented. Issues which come under discussion include: problems of identification and definition; the question of gender; the status of personifications in relation to the gods; the significance of personification as a literary device; the uses and meanings of personification in different visual media; personification as a means of articulating place, time and worldly power. The papers reflect the enormous range of contexts in which personification occurs, indicating the ubiquity of the phenomenon in the ancient Greek world.

Knowledge and Arts on the Move Christopher Craig, Enrico Fongaro, Akihiro Ozaki, 2019-02-01 T00:00:00+01:00 East and West have long stood as towering edifices dividing history and the world into separate spheres. In fact, the two poles have not only shared a multitude of connections over the centuries, they have also played essential roles in shaping the identities of their oppositional others. Cultural exchange, mutual imaginings, and other forms of interaction have contributed to both the creation of an exotic other and a framing and definition of the self. The essays in this collection explore the creation and transformation of self image through the encounter between East and West from a variety of disciplinary approaches. Scholars from Japan and Europe apply methodologies and concerns from history, literature, art history, aesthetics, sociology, political science, law, and anthropology to issues of identity formation and transformation at the nexus

of East Asia and Europe.

Tolkien's Transformative Women: Art in Triptych Annie Brust, 2024-04-02 J.R. R. Tolkien has been revered as the father of twentieth-century fantasy; however, many initially criticized him for his handling of the textual matter as male-centric magical lands that did not feature prominent female roles or significant female characters. This book will highlight the vast community of powerful female figures that Tolkien created in his fantasy writing, stemming from the distinct and dominant female forces he created in his academic translation and poetry. These fierce women serve as a culmination of the powerful forces of women and female character that originated in Medieval, Norse, and Celtic traditions. They help to create the framework from which Tolkien shaped his female community, not merely as singular figures, as previously featured, but as a dynamic network of figures who shape Tolkien's creative art. For the first time, this discussion looks at the entire community of women, featuring previously excluded figures from his academic works and highlighting translation bias in modern manuscripts of the extant medieval works that influenced these women. It also seeks to create a comprehensive guide and detailed appendices exploring the female characters and influences throughout his writing portfolio. This book seeks to uncover the hidden voices of the past to find their rightful home in the strong female voices of the present, rewriting history to regain a sense of the past.
