Pearls of Wisdom Mamutty Chola,2019-07-09 The book — Pearls of wisdom presents a historical and panoramic view of human civilization. It is a compilation of quotes /sayings of prophets, philosophers, thinkers, poets, emperors, politicians and business tycoons; on various aspects of human lives; be it religions, ethics, morals, business, principles of governance, evolution of science and technology, besides quotes on Nature, Earth, Soul, Love, Beauty, Human Minds, Human Hearts, and Eyes. There are quotes about the qualities of animals; like Dog, Horse, Lion and their influence on human lives. There are in all 26 sections chapters as reflected in the Index. On perusal of these quotes following facts emerge: 1) The human race loves to live in peace. The religions, though was intended to achieve peace in society, have unfortunately been one of the main reasons for wars, crimes, destruction, and genocides because of the intolerance among the believers since faith is blind. Rationality had been and is the first casualty. 2) All the religions are the gifts of the East. The gifts of the west are communism and Atheism. 3) Things once considered as blasphemies have come to be accepted as truth. The example of Galileo Galilei is remarkable. 5)The governing principles have been evolutionary. There can never be a uniformed pattern of governance as peoples differ in their thinking and beliefs for that reasons there have been clashes of civilization down the ages. 6)The exploration of our solar systems is the result of endless and insatiable urge in man to unravel nature. The achievements of science and technology belong to the whole of humanity. I have tried to present a snapshot profile of March of human civilization through the voices of the great minds ever walked on mother earth. This compilation will serve as ready reckoner

Two Gurus One Message Savinder Kaur Gill, Sonam Wangmo, 2019-01-01 Buddhism and Sikhism, founded by the Lord Buddha and Guru Nanak respectively are both religions of India with a two thousand-year gap between the two faiths. Tarungpa Tulku in his 1966 article Guru Nanak in Tibet—A Buddhist view point wrote that Tibetan Buddhists have a special connection with Sikhism due to the belief that Guru Nanak was a manifestation of Guru Padmasambhava. It is with this curiosity that the idea for this book was conceived, leading to the discovery of an astonishing number of similarities between the two spiritual traditions. This comparative study, the first major attempt of its kind, scoured the entire Sikh Scripture Shri Guru Granth Sahib and found numerous parallels with the Buddhist Canon, especially Pali; ranging from the life stories of the founding fathers of the two faiths, their social agenda and core tenets to articles of faith, including religious symbolism. It is hoped that this research can in some way, help to blur the divisions between religious labels and bring out pure spirituality—devoid of fixation on religious externalities which leads to much dissent, especially in this degenerate ere. While acknowledging the rich diversity and uniqueness of each spiritual tradition, this book eventually comes to the conclusion that spirituality transcends religious labels. We have come to appreciate that although the externalities of religion may differ vastly—spiritual insights remain universal!

RECOVERY OF INDIA ,2024-08-02 *RECOVERY OF INDIA* presents a holistic view of the country's unmatched tradition, its growth through centuries of chequered history vis-à-vis its present struggle to rediscover its incomparably rich legacy in a world of cut-throat competition and mind-boggling speed of rat race that seems to run from nowhere to nowhere. In the giddy tumble caused by IT Era gargantuan gadgetry and the confusion generated by disordered aimlessness, nobody has the time or inclination to reflect on the whys and wherefores of a world gone topsy-turvy. In this scenario of clouded wits and maverick ambition churned by illimitable lust for Mammonism, advanced nations are turning towards India in the fond hope of finding spiritual solace and the right direction for moving towards a higher order of civilization. The author intends to help non-Indians adopt what is healthy while urging his compatriots to restore India's primeval psycho-spiritual health to its pristine glory.

The Road to Empire Satnam Singh,2024-10-15 From the late seventeenth century to the late eighteenth century, the Sikh community transformed from a relatively insignificant religious minority to an elevated position of kingship and empire. Under the leadership of Guru Gobind Singh (1661-1708), Sikh elites and peasants began to align themselves with discourses of power and authority, and within a few decades Khalsa Sikh warriors conquered some of the wealthiest provinces of the Mughal and Afghan empires. In this book, Satnam Singh argues that the Sikhs' increasing self-assertion was not simply a reaction to Mughal persecution but also a result of an active program initiated by the Guru to pursue larger visions of scholarship, conquest, and political sovereignty. Using a vast trove of understudied court literature, Singh shows how Sikhs grappled with Indo-Islamic traditions to forge their own unique ideas of governance and kingship with the aim to establish an independent Sikh polity. *The Road to Empire* offers an impressive intellectual history of the early modern Sikh world.

Literary Cultures in Early Modern North India Imre Bangha, Danuta Stasik, 2024-06-11 Literary Cultures in Early Modern North India: Current Research grows out of over a 40-year tradition of the triennial International Conferences on Early Modern Literatures in North India (ICEMLNI), initiated to share 'Bhakti in current research.' This volume brings together a selection of contributions from some of the leading scholars as well as emerging researchers in the field originally presented at the 13th ICEMLNI (University of Warsaw, 18-22 July 2018). Considering innovative methodologies and tools, the volume presents the current state of research on early modern sources and offers new inputs into our understanding of this period in the cultural history of India. This collection of essays is in the tradition of 'Bhakti in current research' volumes produced from 1980 onward but reflecting our current understanding of early modern textualities. The book operates on the premises that the centuries preceding the colonial conquest of India, which in scholarship influenced by orientalist concepts, has often been referred to as medieval. However these languages already participated in modernity through increased circulation of ideas, new forms of knowledge, new concepts of the individual, of the community, and of religion. The essays cover multiple languages (Indian vernaculars, Sanskrit, Apabhramsha, Persian), different media (texts, performances, paintings, music) and traditions (Hindu, Jain, Muslim, Sant, Sikh), analyzing them as individual phenomena that function in a wider network of connections at textual, intertextual, and knowledge-system levels.
