

Hugh Of St Victor

Hugues (de Saint-Victor),Jerome Taylor

The Theology of Hugh of St. Victor Boyd Taylor Coolman,2010-04-15 A comprehensive study which highlights the practical nature of Hugh of St. Victor's pioneering program of spiritual reformation.

The Didascalicon of Hugh of St. Victor Hugh (of Saint-Victor),1991 This is the first complete translation into English of Hugh of Saint Victor's Didascalicon. Composed in the late 1130s, the Didascalicon selects and defines all of the important areas of knowledge, demonstrating that not only are these areas essentially integrated, but that in their integrity they are necessary for the attainment of human perfection and divine destiny.

On Love Hugh Feiss,2012 The version of the Rule of St. Augustine used at the Abbey of St.Victor began with the command to love God above all things and ones neighbor as oneself. Not surprisingly, then, love was a pervasive theme in the writings produced there, many of which are introduced and translated here: (1)five lyrical essays by Hugh of St.Victor (d.1141): The Praise of Charity; The Betrothal Gift of the Soul; In Praise of the Spouse; On the Substance of Love; What Truly Should Be Loved?; (2)On the Four Degrees of Violent Love, by Richard of St.Victor (d.1173), which traces the likenesses and differences between romantic love and the love of God; (3)Achard of St.Victor (d.1170), Sermon5 and two of Adam of St.Victors sequences are examples of how these authors wove love into their writings; (4)excerpts from the Microcosmus by Godfrey of St.Victor (d.ca.1195), summarize the central place of love in his humanistic theological anthropology.

Hugh of Saint Victor Paul Rorem,2009-04-08 Born in Saxony in 1096, Hugh became an Augustinian monk and in 1115 moved to the monastery of Saint Victor, Paris, where he spent the remainder of his life, eventually becoming the head of the school there. His writings cover the whole range of arts and sacred science taught in his day. Paul Rorem offers a basic introduction to Hugh's theology, through a comprehensive survey of his works. He argues that Hugh is best understood as a teacher of theology, and that his numerous and varied writings are best appreciated as a comprehensive pedagogical program of theological education and spiritual formation. Drawing his evidence not only from Hugh's own descriptions of his work but from the earliest manuscript traditions of his writings, Rorem organizes and presents his corpus within a tri-part framework. Upon a foundation of training in the liberal arts and history, a structure of doctrine is built up, which is finally adorned with moral formation. Within this scheme of organization, Rorem treats each of Hugh's major works (and many minor ones) in its appropriate place, orienting the reader briefly yet accurately to its contents, as well as its location in

Hugh's overarching program of theological pedagogy.

The Origin and Early Life of Hugh of St. Victor L. Jerome Taylor, 1967

Hugh of Saint-Victor * Hugh of Saint Victor, 2009-04-14 Here is the first volume in English which enables the reader to form a vivid impression of the great twelfth-century Paris master, Hugh of Saint-Victor. Among the classical authorities on the contemplative life in the Western world, no one has been accorded higher honor than Hugh. An extraordinary productive writer and teacher, Hugh's influence was felt throughout Europe during his own lifetime. He was the first great writer of dogmatics in the West. The greater part of this volume is devoted to substantial selections from Hugh's great works on the symbolism of Noah's Ark. In these works his aims as one skilled in critical explanation and as a theologian are constantly implicit. The charming later group of works on charity is represented by the first English version of a short piece, *On the Nature of Love*. From Hugh's unfinished commentary on Ecclesiastes, there is a short passage, *The Soul's Three Ways of Seeing*. In his full and concise introduction Aelred Squire discusses the more recent studies of the many biographical and literary problems of Hugh's career. He shows the close unity of Hugh's thought by examining his spiritual teaching in its wider theological context.

Foundation and Restoration in Hugh Of St. Victor's De Sacramentis P. Dillard, 2014-03-20 Taking Hugh of St. Victor's *On the Sacraments of the Christian Faith* as his source text, Dillard applies the methods of analytic philosophy to develop a systematic theology in the spirit of Christian Platonism, exploring questions that remain pressing for readers interested in philosophy, theology, religion, and the history of medieval thought.

Fundamentals of Hugh of St. Victor Hugh (of Saint-Victor), 2009

Victorine Restoration Robert J. Porwoll, David Allison Orsbon, 2021 The Victorines were scholars and teachers of philosophy, liberal arts, sacred scripture, music, and contemplation at the Abbey of Saint-Victor in Paris. This collection focuses on the three greatest Victorines: Hugh (d. 1141), who established the direction of the school; Richard (d. 1173), who developed Victorine contemplation; and Thomas Gallus (d. 1246), who culminated Victorine contemplative thought and transmitted it to other schools, especially the Franciscans. They offer an innovative revival of the Christian spiritual and intellectual tradition for their reforming pastoral mission in their urban setting and for the Church. Their contemporaries saw the Victorines as beacons of spiritual love and intellectual richness. Later reformers and thinkers held their writings as touchstones of contemplative love, including, for example, Bonaventure, Thomas Aquinas, Jean Gerson, Thomas a Kempis, the

Devotio Moderna, and many others. The writings of the Victorines found broad appeal among later medieval readers, as well as praise among early modern reformers, Protestant and Catholic alike. In recent decades, the Victorines have returned to scholarly attention and renewed appreciation. Scholarly studies, critical editions, and translation projects reveal the treasures of Victorine thought and spirituality. This volume showcases the findings of recent research and scholarly advances in Victorine studies, offering new readers a status quaestionis of the field. It also features new research by eminent experts in Victorine thought that points out promising directions for future research, thus offering important new findings for established specialists.

The Medieval Craft of Memory Mary Carruthers, Jan M. Ziolkowski, 2002 A volume that will interest a wide spectrum of readers.—Patrick Geary, University of California, Los Angeles

The Theology of Hugh of St. Victor Boyd Taylor Coolman, 2013-05-30 In the context of the early twelfth-century urbanization of Paris, Hugh of St Victor developed a pioneering program of intellectual and moral practices focused on reforming the soul. Boyd Taylor Coolman identifies the signature theme of spiritual re-formation as the unifying motif to Hugh's theology and analyzes the symbolic and aesthetic dimensions of re-formation conceived as 'soul-construction', in the manner of Gothic cathedrals being built at the time. This study places Hugh of St Victor within the context of the profound economic, political and cultural changes characteristic of the twelfth century. Drawing on the majority of Hugh's writings, it reveals links between various aspects of his theology - exegesis and spirituality; theology and cultivation of virtue - and highlights the practical nature of his reforming program, aimed both at restoring the beauty of the soul and re-forming the human person into a dwelling place for the presence of God.
