Language and Linguistic Diversity in the US Susan Tamasi,Lamont Antieau,2014-12-02 This highly engaging textbook presents a linguistic view of the history, society, and culture of the United States. It discusses the many languages and forms of language that have been used in the US - including standard and nonstandard forms of English, creoles, Native American languages, and immigrant languages from across the globe - and shows how this distribution and diversity of languages has helped shape and define America as well as an American identity. The volume introduces the basic concepts of sociolinguistics and the politics of language through cohesive, up-to-date and accessible coverage of such key topics as dialectal development and the role of English as the majority language, controversies concerning language use in society, languages other than English used in the US, and the policies that have directly or indirectly influenced language use. These topics are presented in such a way that students can examine the inherent diversity of the communicative systems used in the United States as both a form of cultural enrichment and as the basis for socio-political conflict. The author team outlines the different viewpoints on contemporary issues surrounding language in the US and contextualizes these issues within linguistic facts, to help students think critically and formulate logical discussions. To provide opportunities for further examination and debate, chapters are organized around key misconceptions or questions (I don't have an accent or Immigrants don't want to learn English), bringing them to the forefront for readers to address directly. Language and Linguistic Diversity in the US is a fresh and unique take on a widely taught topic. It is ideal for students from a variety of disciplines or with no prior knowledge of the field, and a useful text for introductory courses on language in the US, American English, language variation, language ideology, and sociolinguistics.

Science and Power in the Nineteenth-Century Tasman World Alexandra Roginski,2023-06-01 The contentious science of phrenology once promised insight into character and intellect through external 'reading' of the head. In the transforming settler-colonial landscapes of nineteenth-century Australia and Aotearoa New Zealand, popular phrenologists - figures who often hailed from the margins - performed their science of touch and cranial jargon everywhere from mechanics' institutions to public houses. In this compelling work, Alexandra Roginski recounts a history of this everyday practice,

exploring how it featured in the fates of people living in, and moving through, the Tasman World. Innovatively drawing on historical newspapers and a network of archives, she traces the careers of a diverse range of popular phrenologists and those they encountered. By analysing the actions at play in scientific episodes through ethnographic, social and cultural history, Roginski considers how this now-discredited science could, in its own day, yield fleeting power and advantage, even against a backdrop of large-scale dispossession and social brittleness.

Modernity's Ear Roshanak Kheshti, 2015-10-23 Inside the global music industry and the racialized and gendered assumptions we make about what we hear Fearing the rapid disappearance of indigenous cultures, twentieth-century American ethnographers turned to the phonograph to salvage native languages and musical practices. Prominent among these early “songcatchers” were white women of comfortable class standing, similar to the female consumers targeted by the music industry as the gramophone became increasingly present in bourgeois homes. Through these simultaneous movements, listening became constructed as a feminized practice, one that craved exotic sounds and mythologized the ‘other’ that made them. In *Modernity's Ear*, Roshanak Kheshti examines the ways in which racialized and gendered sounds became fetishized and, in turn, capitalized on by an emergent American world music industry through the promotion of an economy of desire. Taking a mixed-methods approach that draws on anthropology and sound studies, Kheshti locates sound as both representative and constitutive of culture and power. Through analyses of film, photography, recordings, and radio, as well as ethnographic fieldwork at a San Francisco-based world music company, Kheshti politicizes the feminine in the contemporary world music industry. Deploying critical theory to read the fantasy of the feminized listener and feminized organ of the ear, *Modernity's Ear* ultimately explores the importance of pleasure in constituting the listening self.

Rethinking the Red Power Movement Sam Hitchmough, Kyle T. Mays, 2024-06-28 *Rethinking the Red Power Movement* examines Red Power ideology with a focus on its many forms of solidarity with African Americans, the role of gender in shaping the movement, its international expansion, and its current meaning in contemporary activism. The Red Power Movement is often considered the apex of Indigenous activism in the twentieth century. While diverse, the movement is typically told through four actions. Beginning with the occupation of Alcatraz in 1969, followed by the Trail of Broken Treaties in 1972, Wounded Knee in 1973, then culminating with the Longest Walk in 1978, there is a clear jumpstart, middle, and end to the Red Power Movement. Through a chronological approach, this study makes the case that Red Power never died—and neither did Indigenous activism. Instead, it shows how Indigenous peoples found many ways to push forward Indigenous sovereignty and continue to call on the United States to value Indigenous possibilities for justice, freedom, and power. This book is useful for students and scholars interested in twentieth century America, social movements, and the history of Indigenous activism.

The Fabric of Indigeneity ann-elise lewallen, 2016-10-01 In present-day Japan Ainu, women create spaces of cultural

vitalization in which they can move between “being Ainu” through their natal and affinal relationships and actively “becoming Ainu” through their craftwork. They craft these spaces despite the specter of loss that haunts the efforts of former colonial subjects, like Ainu, to reconnect with their pasts. The author synthesizes ethnographic field research, museum and archival research, and participation in cultural-revival and rights-based organizing to show how women craft Ainu and indigenous identities through clothwork and how they also fashion lived connections to ancestral values and lifestyles. She examines the connections between the transnational dialogue on global indigeneity and multiculturalism, material culture, and the social construction of gender and ethnicity in Japanese society, and she proposes new directions for the study of settler colonialism and indigenous mobilization in other Asian and Pacific nations.

Survivance, Sovereignty, and Story Lisa King, Rose Gubele, Joyce Rain Anderson, 2015-11-01 Focusing on the importance of discussions about sovereignty and of the diversity of Native American communities, *Survivance, Sovereignty, and Story* offers a variety of ways to teach and write about indigenous North American rhetorics. These essays introduce indigenous rhetorics, framing both how and why they should be taught in US university writing classrooms. Contributors promote understanding of American Indian rhetorical and literary texts and the cultures and contexts within which those texts are produced. Chapters also supply resources for instructors, promote cultural awareness, offer suggestions for further research, and provide examples of methods to incorporate American Indian texts into the classroom curriculum. *Survivance, Sovereignty, and Story* provides a decolonized vision of what teaching rhetoric and writing can be and offers a foundation to talk about what rhetoric and pedagogical practice can mean when examined through American Indian and indigenous epistemologies and contemporary rhetorics. Contributors include Joyce Rain Anderson, Resa Crane Bizzaro, Qwo-Li Driskill, Janice Gould, Rose Gubele, Angela Haas, Jessica Safran Hoover, Lisa King, Kimberli Lee, Malea D. Powell, Andrea Riley-Mukavetz, Gabriela Raquel Ríos, and Sundy Watanabe.

Settler Attachments and Asian Diasporic Film Beenash Jafri, 2025-03-04 A cinematic study of Asian-Indigenous relationality *Settler Attachments and Asian Diasporic Film* is an interdisciplinary examination of the stubborn attachment of Asian diasporas to settler-colonial ideals and of the decolonial possibilities Asian diasporic films imagine. Beenash Jafri uniquely addresses the complexities of Asian-Indigenous relationality through film and visual media, urging film scholars to approach their subjects with an eye to the entanglements of race, diaspora, and Indigeneity. Highlighting how Asian diasporic attachments to settler colonialism are structural, she explores how they are manifested through melancholic yearning within the figure of the Asian cowboy in films such as *Cowgirl* and *Wild West* and through the aesthetic and representational politics of body and land in experimental films by Shani Mootoo and Vivek Shraya. While recognizing the pervasive violence of settler colonialism, Jafri maintains a hopeful outlook, showcasing how Asian diasporic filmmakers persistently work toward decolonial worldmaking. This emerging vision can be seen in the radical friendship between Ali

Kazimi and Onondaga artist Jeffrey Thomas in Kazimi's film *Shooting Indians*, in the queer relational survivance depicted in films such as *This Place and Scarborough*, and in the sensory disruptions of Jin-me Yoon's interactive art project *Untunnelling Vision*. From film and media studies to diaspora studies and critical ethnic studies, Indigenous studies to queer theory, *Settler Attachments and Asian Diasporic Film* provides a critical framework for engaging cinematic media to understand and imagine beyond the entrenched settler-colonial dynamics within Asian diasporic communities. Our Osage Hills Michael Snyder, John Joseph Mathews, 2020-07-24 This revealing book presents a selection of lost articles from "Our Osage Hills," a newspaper column by the renowned Osage writer, naturalist, and historian, John Joseph Mathews. Signed only with the initials "J.J.M.," Mathews's column featured regularly in the *Pawhuska Daily Journal-Capital* during the early 1930s. While Mathews is best known for his novel *Sundown* (1934), the pieces gathered in this volume reveal him to be a compelling essayist. Marked by wit and erudition, Mathews's column not only evokes the unique beauty of the Osage prairie, but also takes on urgent political issues, such as ecological conservation and Osage sovereignty. In *Our Osage Hills*, Michael Snyder interweaves Mathews's writings with original essays that illuminate their relevant historical and cultural contexts. The result is an Osage-centric chronicle of the Great Depression, a time of environmental and economic crisis for the Osage Nation and country as a whole. Drawing on new historical and biographical research, Snyder's commentaries highlight the larger stakes of Mathews's reflections on nature and culture and situate them within a fascinating story about Osage, Native American, and American life in the early twentieth century. In treating topics that range from sports, art, film, and literature to the realities and legacies of violence against the Osages, Snyder conveys the broad spectrum of Osage familial, social, and cultural history.

Handbook of Decolonial Community Psychology Christopher C. Sonn, Jesica Siham Fernández, James Ferreira Moura Jr., Monica Eviandaru Madyaningrum, Nick Malherbe, 2024-10-21 This handbook offers refined interpretations of decolonial thought, methodologies, and practices in community psychology. As a representative mapping of the broad range of decolonial cosmovisions, experiences, and praxes in community psychology and allied disciplines around the globe, it brings together contributions from North America, Latin America, Europe, Oceania, Africa, and Asia. It offers an overview of community psychology with a decolonial focus and from a transnational perspective, transcending intellectual, geographical, and cultural borders, and constraining identities, affirming and celebrating the unique identities, experiences, and positions of its contributors within the global landscape of knowledge and politics. The handbook illuminates the dynamic intersections between resistance and colonial legacies, foregrounding the enduring struggles against settler colonialism and racial capitalism across diverse geographies, temporalities, and histories. Underscoring the urgency of addressing inter-connected local and global challenges, such as land rights, livelihoods, and dignified existence, it offers hopeful yet critical perspectives

on radical social justice struggles around the globe. The volume brings together contributions from scholars, academics, educators, researchers, practitioners, activists, and community collaborators, and its chapters range in style and format. Some are more aligned with academic writing, while others - in the spirit of decolonizing disciplinary logics - are structured through more undisciplined, less constrained writing forms. Each author was invited to question the colonality of power in and beyond community psychology. As such, the handbook contains productions that trouble the manifestations of colonality both in the past and in the present, as well as in the different territories of the Majority World, particularly within settler colonial nation-states. As a seminal work, the Handbook of Decolonial Community Psychology will further define and shape the contours of knowledge in decolonial community psychology, and inspire new generations of scholars, practitioners, students, and community organizers to advance the field with innovative ideas and transformative practices.

The Cost of Free Land Rebecca Clarren, 2023-10-05 'Sharply insightful . . . A monumental piece of work' The Boston Globe Growing up, Rebecca Clarren only knew the major plot points of her immigrant family's origins. Her great-great-grandparents, the Sinykins, and their six children fled antisemitism in Russia and arrived in the United States at the turn of the 20th century, ultimately settling on a 160-acre homestead in South Dakota. Over the next few decades, despite tough years on a merciless prairie and multiple setbacks, the Sinykins became an American immigrant success story. What none of Clarren's ancestors ever mentioned was that their land, the foundation for much of their wealth, had been cruelly taken from the Lakota by the United States government. By the time the Sinykins moved to South Dakota, America had broken hundreds of treaties with hundreds of Indigenous nations across the continent, and the land that had once been reserved for the seven bands of the Lakota had been diminished, splintered, and handed for free, or practically free, to white settlers. In *The Cost of Free Land*, Clarren melds investigative reporting with personal family history to reveal the intertwined stories of her family and the Lakota, and the devastating cycle of loss of Indigenous land, culture and resources that continues today.

Indigenous Healing as Paradox Krista Maxwell, 2025-04-24 Indigenous healing is a paradox in the liberal settler colony where efforts to foster well-being can simultaneously undermine distinct Indigenous societies. This book examines the prominence of "Indigenous healing" in Canadian public discourse through a historical and ethnographic lens. It focuses on late twentieth-century Indigenous social histories in Treaty 3 territory and cities in northern and southern Ontario to show practices of re-membering—drawing on traditional ways of being and knowing for social repair and collective rejuvenation—against the backdrop of the social dismemberment of Indigenous Peoples. Expansion of re-membering is often enabled by tactical engagements with the settler state which have fuelled an Indigenized biopolitics from below. Maxwell offers an analysis of the possibilities, tensions, and risks inherent to these biopolitical tactics. Informed by Indigenous feminist scholarship that emphasizes relationality, care, and the everyday, as well as the intimate workings of settler colonialism, this book aims to enrich critical conversations about reconciliation and resurgence politics and challenge their

perceived dichotomy.

Spinning the Dream Anna Haebich,2008-03-01 In *Spinning the Dream*, multi-award-winning historian Anna Haebich re-evaluates the experience of Assimilation in Australia, providing a meticulously researched and masterfully written assessment of its implications for Australia's Indigenous and ethnic minorities and for immigration and refugee policy.

Indigenous Networks Jane Carey,Jane Lydon,2014-06-27 This edited collection argues for the importance of recovering Indigenous participation within global networks of imperial power and wider histories of transnational connections. It takes up a crucial challenge for new imperial and transnational histories: to explore the historical role of colonized and subaltern communities in these processes, and their legacies in the present. Bringing together prominent and emerging scholars who have begun to explore Indigenous networks and transnational encounters, and to consider the broader significance of extra-local connections, exchanges and mobility for Indigenous peoples, this work engages closely with some of the key historical scholarship on transnationalism and the networks of European imperialism. Chapters deploy a range of analytic scales, including global, regional and intra-Indigenous networks, and methods, including histories of ideas and cultural forms and biography, as well as exploring contemporary legacies. In drawing these perspectives together, this book charts an important new direction in research.

Indigenous DC Elizabeth Rule,2023 Washington, DC is Indian land, but Indigenous peoples are often left out of the national narrative of the United States and erased in the capital city. To redress this myth of invisibility, *Indigenous DC: Native Peoples and the Nation's Capital* maps and analyzes historical and contemporary sites of Indigenous importance in the District of Columbia. This manuscript derives from the *Guide to Indigenous DC*, a public history iOS mobile application and decolonial mapping project. Now, as a full length manuscript, *Indigenous DC* intervenes in US History, Native American and Indigenous Studies, and Critical Geography Studies to reveal the centrality of Native peoples to the history of the District of Columbia, highlight Indigenous contributions to the United States and its capital city, and emphasize that all American land is Indian land--

Tribal Fantasies J. Mackay,D. Stirrup,2012-12-28 This transnational collection discusses the use of Native American imagery in twentieth and twenty-first-century European culture. With examples ranging from Irish oral myth, through the

pop image of Indians promulgated in pornography, to the philosophical appropriations of Ernst Bloch or the European far right, contributors illustrate the legend of the Indian. Drawing on American Indian literary nationalism, postcolonialism, and transnational theories, essays demonstrate a complex nexus of power relations that seemingly allows European culture to build its own Native images, and ask what effect this has on the current treatment of indigenous peoples.

Religion and Outer Space Eric Michael Mazur, Sarah McFarland Taylor, 2023-07-07 Religion and Outer Space examines religion in and on the final frontier. This book offers a first-of-its-kind roadmap for thinking about complex encounters of religion and outer space. A multidisciplinary group of scholarly experts takes up some of the most intriguing scientific, spiritual, trade/commercial, and even military dimensions of the complex entanglements of religion and outer space. Attending to the historical reality that the interconnections between religion and the heavens are as old as religions themselves, the volume starts with an examination of outer space elements in the most sacred writings of the world's religions. It then explores some of the religious questions inevitable in this encounter, analyzing cultural constructions (both literary and actual) of religion and outer space. It ends with examinations of the role of religion in the very real and very present business of space exploration. What might motivate the spread of religion (or at least fantasies of religion in its myriad possibilities) into new interior and exterior dimensions of the cosmos? Only the future will tell. Religion and Outer Space is essential reading for students and academics with an interest in religion and space, religion and science, space exploration, religion and science fiction, popular culture, and religion in America.

Indian Cities Kent Blansett, Cathleen D. Cahill, Andrew Needham, 2022-02-17 From ancient metropolises like Pueblo Bonito and Tenochtitlán to the twenty-first century Oceti Sakowin encampment of NoDAPL water protectors, Native people have built and lived in cities—a fact little noted in either urban or Indigenous histories. By foregrounding Indigenous peoples as city makers and city dwellers, as agents and subjects of urbanization, the essays in this volume simultaneously highlight the impact of Indigenous people on urban places and the effects of urbanism on Indigenous people and politics. The authors—Native and non-Native, anthropologists and geographers as well as historians—use the term “Indian cities” to represent collective urban spaces established and regulated by a range of institutions, organizations, churches, and businesses. These urban institutions have strengthened tribal and intertribal identities, creating new forms of shared experience and giving rise to new practices of Indigeneity. Some of the essays in this volume explore Native participation in everyday economic activities, whether in the commerce of colonial Charleston or in the early development of New Orleans. Others show how Native Americans became entwined in the symbolism associated with Niagara Falls and Washington, D.C., with dramatically different consequences for Native and non-Native perspectives. Still others describe the roles local Indigenous community groups have played in building urban Native American communities, from Dallas to Winnipeg. All the contributions to this volume show how, from colonial times to the present day, Indigenous people have shaped and been

shaped by urban spaces. Collectively they demonstrate that urban history and Indigenous history are incomplete without each other.
