experience.

Differentiation That Really Works Cheryll M. Adams, Rebecca L. Pierce, 2021-09-03 Differentiating requires more than just a simple bag of tricks. Teachers need to have concrete strategies if they want to provide choice and challenge for all learners in their classroom. The strategies included in this book were chosen based on their ease of implementation and modification. In addition, they all encourage student engagement, provide inherent opportunities for differentiation, and are appropriate for multiple grade levels. Differentiation That Really Works provides time-saving strategies and lesson ideas created and field-tested by practicing professionals in their own heterogeneous classrooms. These lessons can be used as written or can be modified to meet the needs of a particular classroom. The book also provides templates that can be used to develop new lessons using each strategy. These strategies, including exit cards, choice boards, cubing, graphic organizers, learning contracts, and tiered lessons, help pave the way to a differentiated classroom that meets all students' needs! Not Paved for Us Camika Royal, 2022-07-19 Winner of the 2024 AERA Outstanding Book Award Not Paved for Us chronicles a fifty-year period in Philadelphia education, and offers a critical look at how school reform efforts do and do not transform outcomes for Black students and educators. This illuminating book offers an extensive, expert analysis of a school system that bears the legacy, hallmarks, and consequences that lie at the intersection of race and education. Urban education scholar Camika Royal deftly analyzes decades of efforts aimed at improving school performance within the School District of Philadelphia (SDP), in a brisk survey spanning every SDP superintendency from the 1960s through 2017. Royal interrogates the history of education and educational reforms, recounting city, state, and federal interventions. She covers SDP's connections with the Common School Movement and the advent of the Philadelphia Freedom Schools, and she addresses federal policy shifts, from school desegregation to the No Child Left Behind and Every Student Succeeds Acts. Her

survey provides sociopolitical context and rich groundwork for a nuanced examination of why many large urban districts struggle to implement reforms with fidelity and in ways that advance Black students academically and holistically. In a bracing critique, Royal bears witness to the ways in which positive public school reform has been obstructed: through racism and racial capitalism, but also via liberal ideals, neoliberal practices, and austerity tactics. Royal shows how, despite the well-intended actions of larger entities, the weight of school reform, here as in other large urban districts, has been borne by educators striving to meet the extensive needs of their students, families, and communities with only the slightest material, financial, and human resources. She draws on the experiences of Black educators and community members and documents their contributions. *Not Paved for Us* highlights the experiences of Black educators as they navigate the racial and cultural politics of urban school reform. Ultimately, Royal names, dissects, and challenges the presence of racism in school reform policies and practices while calling for an antiracist future.

Math Therapy™ Vanessa Vakharia, 2024-08-08 Anything is possible - even building a better relationship with math! This is much more than a book about math. This is a book about hope. Imagine failing 11th grade math - twice! - and going on to be known affectionately as The Lady Gaga of Math. That is the story of author Vanessa The Math Guru Vakharia. Thanks to an inspiring teacher who helped Vanessa heal her own relationship with math, Vanessa was then able to see math in a way that literally changed the trajectory of her life. Most people have experienced math trauma at least once, but by early-mid elementary school, many students have gotten the message that either they are a math person or they are not. In *Math Therapy™*, Vanessa shows that with the right tools and strategies, teachers can foster a culture in which every student is capable of building a better relationship with math - and with themselves. Through the five M's of Math Therapy™—Mythbust, Moderate, Motivate, Makeover, and Measure—teachers can help their students overcome math trauma, cultivate a positive math identity, and develop a mathematical mindset. Written in a fun and conversational style, and grounded in research on math education and neuropsychology, this book Provides practical, hands-on strategies and tools that make it easy and fun for teachers to implement each step of Math Therapy™ in their classroom Helps teachers unpack their own math history before diving in to what they can do to help their students Addresses the trauma-induced stumbling blocks that many students face when tackling mathematics Includes humorous and engaging real-life vignettes—from celebrating Pi Day by visiting a prison, to setting off a confetti cannon to celebrate a student's milestone, to the time Vanessa's band opened for Bon Jovi, and more! Much more than a book about helping students kick butt in math class, this book is about empowering students to develop the skills they need to live a life in which they truly believe that anything is possible, even a better relationship with math!
