Media, 2022-05-21T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 You must learn to control your emotions if you want to win the game of seduction. It is not necessary to become a cold-hearted bitch, but it is necessary to become aware of your emotions and their ability to control your actions. #2 You must be aware of the fact that there are a lot of bad guys out there, and they're everywhere. They know how to use a woman's emotions against her by telling her in the most sincere ways what she wants to hear. #3 Emotional creatures like us, ask ourselves why our exes are doing this to us. We make dozens of excuses as to why their behavior is forgivable. Then we plan how we'll get them back. But this is a mistake, as it allows our emotions to influence our actions and decisions. #4 We only

do irrational things in order to feel better in the short term. We give in to our emotions in order to feel better in the short term, but we end up hurting even more over the long term.

Hashtag Activism Interrogated and Embodied Melissa Ames, Kristi McDuffie, 2023-04-01 *Hashtag Activism Interrogated and Embodied* analyzes the ways that hashtags repurpose and reclaim societal narratives, considering how these digital interactions carry over into external spaces and are embodied by both participants and spectators alike. A diverse set of contributors from a range of disciplines utilize a variety of methodologies to interrogate the lifespan and trajectories of specific hashtag campaigns, study rhetorical strategies engaged by online communities, and analyze how hashtags are employed for particular purposes. The chapters capture twenty-first-century digital activism unfolding in different social and geopolitical climates. Delving into hashtag activism in various forms (tweets, memes, and personal narratives) and spaces (Twitter, Facebook, and in-person protests), these chapters reveal how participants question and construct online and offline identities and imagined and actualized communities. They also showcase the complicated ways hashtag activism intersects with consumer, popular, and celebrity cultures. *Hashtag Activism Interrogated and Embodied* calls for broader inclusion in what is considered hashtag activism, such as digital fandom, how hashtags are co-opted for nefarious purposes, the effects of anti-activism, and the role of journalism and the media. It will appeal to a range of disciplines including rhetoric and composition, internet studies, communication studies, media studies, feminist studies, affect studies, cultural studies, technical communication, and sociology. Black Women and da 'Rona Julia S. Jordan-Zachery, Shamara Wyllie Alhassan, 2023-04-18 Rooted in the ways Black women understand their lives, this collection archives practices of healing, mothering, and advocacy during the COVID-19 pandemic. Recognizing that Black women have been living in pandemics as far back as colonialism and enslavement, this

volume acknowledges that records of the past—from the 1918 flu pandemic to the onset of the HIV/AIDS epidemic—often erase the existence and experiences of Black women as a whole. Writing against this archival erasure, this collection consciously recenters the real-time experiences and perspectives of care, policy concerns, grief, and joy of Black women throughout the COVID-19 pandemic. Nineteen contributors from interdisciplinary fields and diverse backgrounds explore Black feminine community, consciousness, ethics of care, spirituality, and social critique. They situate Black women's multidimensional experiences with COVID-19 and other violences that affect their lives. The stories they tell are connected and interwoven, bound together by anti-Black gendered COVID necropolitics and commitments to creating new spaces for breathing, healing, and wellness. Ultimately, this time-warping analysis shows how Black women imagine a more just society, rapidly adapt to changing experiences, and innovate ethics of care even in the midst of physical distancing, which can be instructive for thinking of new ways of living both during and beyond the era of COVID-19. Pink Hats and Ballots Lydia Rose, Teresa M. Bartoli, 2021-07-12 The worldwide outcry from protesters of the 2017 Women's March made clear the connections of many related issues and the powerful connection to ecofeminism. *Pink Hats and Ballots: An Ecofeminist Analysis of Women's Political Activism in the Age of Trump, Coronavirus, and Black Lives Matter* provides an enlightening combination of history, federal policy changes, social science research, and ecofeminism to explain the extraordinary rise of women's political activism and the continued empowerment of minoritized individuals to resist oppression and engage in heightened new levels of political involvement. Environmental justice, racism, and social justice are central in analyzing the events encapsulating American politics between the 2016 and the 2020 Presidential elections culminating in the massive participation in 2020's Black Lives Matter protests during the COVID-19 pandemic. This book is vital reading for those new to activism and explains the connections between current issues and the exploitation of the environment.

Mediating Post-Socialist Femininities Nadia Kaneva,2017-10-02 Twenty-five years after the fall of the Berlin Wall, this collection of essays examines the ways in which popular media re-construct ideas and ideals of femininity in the post-socialist cultural space. The authors explore a comprehensive range of questions including: How have post-socialist women engaged with media as media producers and consumers, as well as objects of media representation? What are the consequences of the commodification of femininity in the post-socialist context? How does the female body serve as a battleground for the enactment and renegotiation of gendered identities and ideologies? How can we understand and theorize post-socialist women's activist movements? In seeking answers to such questions, this volume highlights the need to reconsider feminism as a political and theoretical project with many faces. It bridges research on the mediation of post-socialist femininities with broader concerns about the transnational trajectories of feminism today. This book was originally published as a special issue of Feminist Media Studies.

Awkward Politics Carrie Smith-Prei,2016-05-01 The increased use of digital tools for political activism has triggered heated debates about the effectiveness of digital campaigns for political change and feminist causes. While technology's immediacy and transnational reach have broadened the potential impact of activism, it has, at the same time, complicated the goals, materiality, and consumption of feminist actions. In Awkward Politics, Carrie Smith-Prei and Maria Stehle suggest that awkwardness offers a means of engaging with twenty-first century feminist activism by accounting for the uncertainty of popfeminist moments and movements, its sometimes illegible meanings, affects, and aesthetics. By investigating

transnational media ranging from popfeminist performance art, music, street activism, blogs, and hashtags to literature, film, academic theory, and protests, the authors demonstrate that viewing activist art through the lens of awkwardness can yield a nuanced critique. By developing awkwardness into a theoretical tool for intervention, a key concept of feminist politics, and a moving target, this innovative study dramatically alters the ways in which we approach activism, its forms, movements, and effects. It also suggests a broad range of applicability, from social movements to the academy. Breaking new ground through the intersections of technology, consumerism, and the political in popfeminist work, *Awkward Politics* highlights the urgency of feminist politics and activism.
