Sanborn, Richard Jackson Harris, 2013-07-18 A Cognitive Psychology of Mass Communication is the go-to text for any course that adopts a cognitive and psychological approach to the study of mass communication. In its sixth edition, it continues its examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Using theories from psychology and communication along with reviews of the most up-to-date research, this text covers a diversity of media and media issues ranging from commonly discussed topics, such as politics, sex, and violence, to lesser-studied topics, such as sports, music, emotion, and prosocial media. This sixth edition offers chapter outlines and recommended readings lists to further assist readability and accessibility of concepts, and a new companion website that includes recommended readings, even more real-world examples and activities, PowerPoint presentations, sample syllabi, and an instructor guide.

Pixar's Boy Stories Shannon R. Wooden, Ken Gillam, 2014-03-27 Since Toy Story, its first feature in 1995, Pixar Animation Studios has produced a string of commercial and critical successes including Monsters, Inc.; WALL-E; Finding Nemo; The Incredibles; Cars; and Up. In nearly all of these films, male characters are prominently featured, usually as protagonists. Despite obvious surface differences, these figures often follow similar narratives toward domestic fulfillment and civic engagement. However, these characters are also hypermasculine types whose paths lead to postmodern social roles more revelatory of the current "crisis" that sociologists and others have noted in boy culture. In Pixar's Boy Stories: Masculinity in a Postmodern Age, Shannon R. Wooden and Ken Gillam examine how boys become men and how men measure up in films produced by the animation giant. Offering counterintuitive readings of boy culture, this book describes how the films quietly but forcefully reiterate traditional masculine norms in terms of what they praise and what they condemn. Whether toys or ants, monsters or cars, Pixar's males succeed or fail according to the "boy code," the relentlessly policed gender standards rampant in American boyhood. Structured thematically around major issues in contemporary boy culture, the book discusses conformity, hypermasculinity, social hierarchies, disability, bullying, and an implicit critique of postmodern parenting. Unprecedented in its focus on Pixar and boys in its films, this book offers a valuable perspective to current conversations about gender and cinema. Providing a critical discourse about masculine roles in animated features, Pixar's Boy Stories will be of interest to scholars of film, media, and gender studies and to parents.

The Orangeman, Second Edition Don Akenson, 2023-02-15 From the end of the Napoleonic Wars to Confederation, central Canada was awash with migrants from the British Isles and their cultural values. The raw prejudice that they brought with them - against the French, the Catholics, and even Yanks and Europeans - bound together the eventual political majority in Ontario. The Orangeman uses the life of Ogle Gowan, an Irish Protestant upstart from County Wexford who turned central Canada Orange, to explore these forces. Gowan was ambitious, malicious, and mendacious, but by the time of Confederation the Orange Order was the largest alliance of men in the country - the foundation of the coalition of conservative Protestants that sculpted Canadian politics in the century that followed. Don Akenson uses his skills as a historian and a novelist in respecting the historical record. The Orangeman is a lively and entertaining fictional biography, and in Akenson's telling Gowan crosses swords with William Lyon Mackenzie and goes pub-crawling with the young John A. Macdonald. One never knows everything about a historical person or event; sometimes the right thing to do is to speculate sensibly and, if possible, have a little fun along the way. Akenson shows us Canadian loyalism, constitutionalism, and deference to state authority on one side of the coin, and on the flip side, the successful attempt by one group of Canadians to do down the other. This is real history, real life: as yesterday, so today.

Cursing in America Timothy Jay, 1992 Who uses dirty words? And when? How is the bad language we use reflected in the movies, in the courts, and elsewhere? With Cursing in America, psychologist Timothy Jay presents the first serious and extensive examination of American profanity from a psycholinguistic-contextual point of view. An amazing amount of factual data gathered through several field studies and numerous laboratory-based experiments reveals the relationship between

cursing and language acquisition, anger expression, gender stereotypes and offensiveness. Sexual harassment, censorship, language content of film, obscene phone calls and cursing at public schools are some of the topics which are analyzed and related to the data. Word-by-word tables demonstrate the influence that factors such as frequency of occurrence, degree of offensiveness, and gender and age of the speaker have on obscene language usage in America today.

Offense to Others Joel Feinberg,1984 The second volume in the series *The Moral Limits of the Criminal Law*, this book explicates the offense principle, clarifies the concept of the offended mental state, examines pornography and the Constitution, obscenity, and obscene words and social policy.

Sexual Lifestyle in the Twentieth Century E. Haavio-Mannila,O. Kontula,A. Rotkirch,2001-12-17 This study presents us with an insightful sociological exploration of sexual practice, within five different types of relationship and from varying perspectives of gender and age: lifelong love; serial loves; searching; devitalized relations, and parallel relations. Based on the accounts of almost two hundred adults in Finland, these real-life experiences reflect the way in which sexuality has evolved both within the lifetime of the individual, and over generations. Also examined is the impact of major historical events on love and sexual relationships - from war to economic crisis - and that of the 'spirit of the age': from the emancipatory zeal of the 1960s to the new-age holistic ideals in the 1980s.
