Matrixial Breath Christoph Solstreif-Pirker,2025-09-26 Day by day, the global climate crisis intensifies, yet there are little changes in the behavior of privileged societies. This book reveals that such paradoxical behavior is due to the prevalence of a narrative that considers planet Earth as a self-sustaining system, driven by a circular respiration pattern from one actor to the next. It argues that transforming this prevailing planetary breathing pattern is necessary to change humans' destructive behavior towards the morethan- human environment. The volume, in particular, references the feminine Matrixial Theory of psychoanalyst and philosopher Bracha L. Ettinger. In linking the Matrixial Theory to environmental issues for the first time, it explores the rhythms and scopes of a Matrixial breath and what alternative forms of relationship between humans and nature might emerge from it. It lays the foundation for an urgently needed subversion of thought and action toward novel ethics of breathing-with beyond homeostatic reductionism. The first of its kind, this volume will be indispensable for students and researchers of environmental ethics, feminist thought, climate studies, social change, or critical theory. It will also be useful to cultural scientists, artists, philosophers, ecologists, theologians, architects, therapists, social workers, educators, and politicians.

Melancholia de Lars von Trier Thomas Simon,2019 Melancholia, c'est d'abord l'histoire d'un mariage qui vire à l'échec puis celle de deux astres qui gravitent ensemble dans un ballet cosmique, qui s'attirent dangereusement et qui finissent par se rencontrer dans un fracas inouï. Face au chaos à venir, chacun choisit de vivre les derniers instants en accord avec ses valeurs. La faillite de la science mènera John à se suicider alors que la promesse du néant donnera à Justine la force de construire un tipi, ultime tentative d'habiter le monde au bord de l'abîme. Même si Melancholia met en scène la fin du monde, le film fonctionne avant tout comme un monde autonome capable de totaliser les grandes questions qui agitent l'humanité. Toutes les facettes de l'existence humaine sont passées en revue par Lars von Trier : depuis les questions esthétiques, jusqu'aux problématiques épistémologiques et métaphysiques. En ce sens, Melancholia est un trésor herméneutique inépuisable.--Page 4 of cover.
