Urban Slavery in Colonial Mexico Pablo Miguel Sierra Silva, 2018-04-05 Using the city of Puebla de los Ángeles, the second-largest urban center in colonial Mexico (vicereignty of New Spain), Pablo Miguel Sierra Silva investigates Spaniards' imposition of slavery on Africans, Asians, and their families. He analyzes the experiences of these slaves in four distinct urban settings: the marketplace, the convent, the textile mill, and the elite residence. In so doing, *Urban Slavery in Colonial Mexico* advances a new understanding of how, when, and why transatlantic and transpacific merchant networks converged in Central Mexico during the seventeenth century. As a social and cultural history, it also addresses how enslaved people formed social networks to contest their bondage. Sierra Silva challenges readers to understand the everyday nature of urban slavery and engages the rich Spanish and indigenous history of the Puebla region while intertwining it with African diaspora studies.

Hacienda and Market in Eighteenth-Century Mexico Eric Van Young, 2006-06 This classic history of the Mexican hacienda from the colonial period through the nineteenth century has been reissued in a silver anniversary edition complete with a substantive new introduction and foreword. Eric Van Young explores 150 years of Mexico's economic and rural development, a period when one of history's great empires was trying to extract more resources from its most important colony, and when an arguably capitalist economy was both expanding and taking deeper root. The author explains the development of a regional agrarian system, centered on the landed estates of late colonial Mexico, the central economic and social institution of an overwhelmingly rural society. With rich empirical detail, he meticulously describes the features of the

rural economy, including patterns of land ownership, credit and investment, labor relations, the structure of production, and the relationship of a major colonial city to its surrounding area. The book's most interesting and innovative element is its emphasis on the way the system of rural economy shaped, and was shaped by, the internal logic of a great spatial system, the region of Guadalajara. Van Young argues that Guadalajara's population growth progressively integrated the large geographical region surrounding the city through the mechanisms of the urban market for grain and meat, which in turn put pressure on local land and labor resources. Eventually this drove white and Indian landowners into increasingly sharp conflict and led to the progressive proletarianization of the region's peasantry during the last decades of the Spanish colonial era. It is no accident, given this history, that the Guadalajara region was one of the major areas of armed insurrection for most of the decade during Mexico's struggle for independence from Spain. By highlighting the way haciendas worked and changed over time, this indispensable study illuminates Mexico's economic and social history, the movement for independence, and the origins of the Mexican Revolution.

Christmas Music from Baroque Mexico Robert Stevenson, 2023-11-15 Christmas Music from Baroque Mexico is an extraordinary compilation of seventeenth- and eighteenth-century Christmas music, now preserved thanks to the landmark acquisition of the Sánchez Garza Collection by Mexico's Secretaría de Educación Pública. The collection, housed within the Mexican National Institute of Fine Arts, encompasses 276 rare manuscripts, including Christmas villancicos and other baroque compositions by both New World and Peninsular composers. These works capture a blend of European musical forms with indigenous and folk influences, representing a unique convergence of cultural expressions in colonial Mexico. This volume not only brings these compositions to light but also features transcriptions of twelve musical examples directly from the Sánchez Garza manuscripts, with additional pieces from the archives of Puebla Cathedral. The Sánchez Garza Collection stands as a significant artifact of Mexico's colonial musical heritage. With pieces like Salazar's negro, Vaeza's negriya, and Ximeno's gallego, the collection reveals a fascinating infusion of ethnic and folk characteristics within baroque traditions. Originally held by the Holy Trinity Convent in Puebla, these manuscripts survived untouched until their acquisition by the historian Jesús Sánchez Garza, whose dedication preserved them for posterity. Through the meticulous work of the Instituto Nacional de Bellas Artes, this volume offers an invaluable resource for ethnomusicologists, historians, and anyone interested in the deep cultural history and artistry of Baroque Mexico. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology.
