Technology Application in the Tourism and Hospitality Industry of Bangladesh Azizul Hassan,2021-10-06 The tourism and hospitality industry of Bangladesh as a South Asian country has potential. Sustainable development of this industry in this country is on the move. Still, there are some hindrances which appear to be stymieing this industry's overall development potential. Overcoming such hindrances can be partly enabled by applying digital innovation and introducing more Internet based platforms in the country's tourism and hospitality industry. The country is believed to have emphasized innovative technology application in this industry, but technology applications in this industry in Bangladesh have so far attracted very few researchers, resulting in insufficient contributions and very limited knowledge. This book, therefore, can make a significant contribution towards the very limited knowledge in this identified research area. On the specific ground of technology application in the tourism and hospitality industry, the book covers concepts and context, the present scenario, product and service offers, and an analysis of the roles of public and private institutions. On related issues, the book also covers social media, networking and connectivity; sustainability practices and climate change effects; tourist experiences; developments; and challenges, suggestions, and future research directions. The book is expected to appeal to general readers, as well as researchers with an interest in technology applications in the tourism and hospitality industry. This book is also an essential read for the relevant policy planners and industry professionals.

These essays discuss how terrorist activity in the region during the past few decades can be directly linked to religion-centric violence. Apart from other events, this book looks at prolonged terrorism in Punjab; militancy in Kashmir; ethnic conflict in Sri Lanka; insurgency in northeast India; Maoist insurgency in Nepal; and sectarian conflict in Pakistan.

*The New Maharajahs* Claudia Cragg,1996 Until India gained its independence from Britain in 1947, one third of the country was ruled by a lazy, pampered group of 565 maharajahs, or princes. They led hedonistic lives with scores of wives and concubines, palaces and jewels, and spent much of their time playing polo and tiger hunting. The late Prime Minister Indira Gandhi taxed the maharajahs almost out of existence, and few physical traces of their former glory remain. However, a new breed of commercial princes has sprung up in their place.
