**María Dolores Fernández de la Torre Madueño, Antonia María Medina Guerra, Lidia Taillefer de Haya**

*El uso del verbo y del gerundio en español* Alicia Zorrilla, 2022-02-16 Lo que escribimos es, sin duda, espejo de lo que somos. Las palabras aparecen vacías, porque los tiempos en que vivimos devoran la espiritualidad del hombre y enaltecen las apariencias en pro del interés material: todo vale —hasta el error— si es sinónimo de conveniencia. Entonces, las voces brillan de manera artificial, porque ya no se pesan los significados. Es lo mismo un anacoluto que una oración ordenadamente construida; una preposición que otra; un tiempo verbal que otro; un gerundio que un participio; una raya que un guion; un punto y coma que una coma, es decir, es lo mismo el orden que el desorden. Por eso, debemos esforzarnos para usar con decoro el idioma en la oralidad y en la escritura. Este libro trata de solucionar las dudas que se presentan cuando se usan los distintos tiempos verbales en los distintos modos, cuando se correlacionan esos tiempos; se refiere a cómo se reconocen las perífrasis verbales; analiza la normativa del verbo en español; expone el paradigma de la conjugación regular y estudia los pronombres personales. Respecto del gerundio, se advierte sobre los errores que se cometen al usarlo; se estudian sus distintas clases y su diferencia con el participio.

*Gramática didáctica del español* Leonardo Gómez Torrego, 2015-06-01 Gramática didáctica del español. Una gramática didáctica que resuelve las dudas gramaticales con explicaciones claras y múltiples ejemplos. Es muy fácil de usar con su organización en forma de fichas y el índice temático. Presenta un enfoque descriptivo y normativo, con aclaraciones terminológicas y cuadros de norma.

**Sintaxis del español / The Routledge Handbook of Spanish Syntax** Guillermo Rojo, Victoria Vázquez Rozas, Rena Torres Cacoullós, 2023-03-20 El volumen *Sintaxis del español/The Routledge Handbook of Spanish Syntax* proporciona una visión general de los temas fundamentales de la sintaxis del español, basada en datos extraídos de corpus textuales, sensible a los fenómenos de variación y conectada con otros componentes de la lengua. La obra, escrita en español, reúne perspectivas teóricas diversas, elaboradas por un grupo internacional de lingüistas. Está dividida en seis partes y comprende 45 capítulos centrados en cuestiones teóricas, cláusulas, oraciones y estructuras supraoracionales, categorías verbales, frases y clases de palabras, variación y cambio sintácticos, así como acercamientos computacionales y sus diferentes

aplicaciones. El volumen constituye una referencia fundamental para los investigadores al tiempo que proporciona una introducción accesible para estudiantes de la lengua y la lingüística españolas. *Sintaxis del español / The Routledge Handbook of Spanish Syntax* provides a comprehensive overview of topics in Spanish syntax, drawing on corpus-based data, incorporating variation, and connecting with other aspects of language. Written in Spanish, the volume brings together diverse theoretical perspectives from an international group of scholars. Divided into six parts, the book comprises 45 chapters on theoretical perspectives, clauses, sentences and (supra)sentential syntax, verb categories, phrases and word classes, syntactic variation and change, and computational approaches and their applications. **Aspetti teorici e proposte didattiche per l'insegnamento dell'italiano a ispanofoni in contesto universitario (livelli B1-B2)** Giorgia Marangon, Linda Garosi, 2024-10-23 Quest'opera è stata concepita con l'obiettivo di mettere a disposizione del docente, che si trova ad operare in contesti di apprendimento della lingua italiana come L2/LS, studi e proposte didattiche firmati da specialisti e da insegnanti coinvolti in un progetto di Innovazione Docente Universitario promosso dalle curatrici del volume. **Los verbos pseudo-copulativos del español** Yuko Morimoto, María Victoria Pavón Lucero, 2007 El objetivo de la presente obra es ofrecer al lector una descripción clara y sistemática de las propiedades semánticas y sintácticas de los VERBOS PSEUDO-COPULATIVOS del español. Los verbos de esta clase aportan matices significativos muy variados a la atribución. Esto, sumado a la diferencia existente entre ser o estar, hace que la lengua española presente un abanico muy amplio de posibilidades para codificar la relación entre sujeto y atributo. Destinado tanto a los estudiantes como a los profesores de lengua española, este cuaderno ayudará a comprender mejor el sistema de la atribución en español. En sus páginas, el lector encontrará claves para responder a preguntas aparentemente tan enrevesadas como: ¿cuál es la diferencia entre hacerse fanático y volverse fanático?; ¿qué añade andar enamorado a la descripción que realiza el sintagma estar enamorado? Estos ejemplos son solo una pequeña muestra de las múltiples cuestiones que suscitan esta clase de verbos tan

ricos en matices como heterogéneos en sus comportamientos sintácticos.
