Alma, nostalgia, armonía y otros relatos sobre las palabras Soledad Puértolas,Elena Cianca,2022-11-30 Un fascinante itinerario por las palabras de nuestro idioma, sus significados, su evolución, sus secretos y sus misterios. Estimado lector, tienes en tus manos un libro sobre las palabras, sobre la vida y los secretos de palabras como «personaje», «persona», «salud», «enfermedad», «humanidad», «curiosidad», «normalidad», «melancolía», «nostalgia», «memoria», «recuerdo», «identidad», «imaginación», «fantasía», «casualidad», «destino», «misterio», «equilibrio», «armonía»... Esta exploración se lleva a cabo de la mano de las obras literarias que las utilizan, los diccionarios que las definen y los hablantes que las mantienen vivas. Esta es, por tanto, una historia de las palabras y de quienes las emplean -el hablante, el conferenciante, el escribidor, el novelista, el poeta-, que van dejando su huella en el idioma. El resultado es un ensayo delicioso, pensado para cualquiera que sienta amor por las palabras con las que piensa, habla y escribe. Porque somos lo que hablamos, o lo que pensamos y no decimos, lo que callamos. Escrito por una narradora y una filóloga, este es un libro a un tiempo erudito y amenísimo, que se divide en dos partes: en la primera, la narradora -Soledad Puértolas- explora como escritora y lectora la vida de las palabras y los siglos que tiene nuestro idioma a sus espaldas; en la segunda, la filóloga -Elena Cianca- añade un análisis académico a los recorridos de la primera. Ambas perspectivas se complementan y parten de una misma pasión por la lengua. Como afirma Soledad Puértolas en el prólogo: «Las palabras se llaman unas a otras. Nosotros, sus usuarios, eternos aprendices de la lengua y de la vida, las llamamos también, las convocamos, las lanzamos al aire, las dejamos marchar, sin saber si llegarán a perderse o alcanzarán objetivos imprevistos.»

Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Miguel Ángel Esparza Torres,Hans-Josef Niederehe,2015-10-15 Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano, conde de la Viñaza (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably, and most manuscript and secondary sources had never been tapped before Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings, scattered in libraries, journals and other places. The resulting Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español: Desde los principios hasta el año 1600 (BICRES) began appearing in 1994. BICRES I covered the period from the early beginnings to 1600), followed by BICRES II (1601-1700), BICRES III (1701-1800), and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV

(1801 to 1860). Now, the fifth volume, has become available, covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5,272 titles is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work — relative sources of the Americas have also been covered — making it exhaustive source for any serious scholar of any possible aspect of the Spanish language.

Lexicography of Coronavirus-related Neologisms Annette Klosa-Kückelhaus,Ilan Kerneran,2022-12-19 This volume brings together contributions by international experts reflecting on Covid19-related neologisms and their lexicographic processing and representation. The papers analyze new words, new meanings of existing words, and new multiword units, where they come from, how they are transmitted (or differ) across languages, and how their use and meaning are reflected in dictionaries of all sorts. Recent trends in as many as ten languages are considered, including general and specialized language, monolingual as well as bilingual and printed as well as online dictionaries.

Riesgos del uso de algoritmos en el diagnóstico y en la investigación biomédica Gil Membrado, Cristina,2023-11-15

Estudio sobre el marco jurídico existente en relación al uso masivo de datos (big data) en el campo de la salud y su incidencia, tanto en la toma de decisiones médicas cuanto en la investigación biomédica, mediante el empleo de inteligencia artificial y en la decisión del jurado el texto ha sido valorado de gran utilidad técnica, al abordar detalladamente el marco normativo actual y la problemática que conlleva jurídica, técnica y médicaamente, así como sus propuestas alternativas en su regulación.

El poder de la lectura Cordón García, José Antonio,Muñoz-Rico, María,2023-10-01 Comparado con otros países de nuestro entorno, España presenta importantes problemas económicos y sociales que han estado presentes en las últimas décadas y que derivan en buena medida de una deficiente calidad de gobierno. Este déficit de gestión se manifiesta, en particular, en una visión cortoplacista en la que la racionalidad estratégica de los agentes políticos conduce de forma paradójica e ineludible a la irracionalidad del sistema político, esto es, a su incapacidad para solucionar aquellos problemas estructurales. Con el propósito de hacer un diagnóstico de esta situación, la obra analiza los fallos más relevantes del sistema: la ceguera del corto plazo debida en buena medida a la insuficiencia de procedimientos de evaluación de los efectos de las normas; la existencia de mecanismos que dificultan la adopción de decisiones que, aun siendo beneficiosas en el largo plazo, suponen costes políticos inmediatos; la falta de continuidad de las políticas más allá de los ciclos electorales debida a la ausencia de consensos entre partidos y a la inexistente separación entre élites políticas y burocráticas; y la colonización política de las instituciones arbitrales e independientes. Estos fallos provocan una dinámica de círculo vicioso, en la que los fallos estructurales del sistema social y económico se hacen cada vez más difíciles de corregir. Partiendo de dicho

diagnóstico y del carácter prioritario de la racionalización del sistema político como condición para la mejora de la situación económica y social, la obra hace algunas propuestas articuladas como cambios institucionales, y pone de manifiesto la necesidad de replantear las relaciones entre sistema político y sociedad.
