The Great Train Robbery Brenda Haugen, Natalie Rosinsky, 2011 Shout and we'll kill you! Threats and violence were part of the Great Train Robbery of 1963. Its loot was, at that time, the largest amount of cash ever stolen in Britain. The Crime of the Century seemed to be perfectly planned and executed, but police aimed to show that they'd find those involved and bring them to justice. Would they succeed or would the daring criminals involved in the crime escape with the cash?

The First Great Train Robbery David C. Hanrahan,2011 In May 1855, the citizens of Victorian Great Britain were shocked to read in their morning edition of The Times that 12,000 pounds worth of gold bars and other valuables had been stolen from a train travelling between London and Paris--without explosives or violence! Who did it and how was a great mystery which was finally solved.

The Great Train Robbery (1903): Shooting Script ,1903

The Great Train Robbery Nick Russell-Pavier,Stewart Richards,2013-01-10 Definitive account of the famous 1963 Great Train Robbery - and its aftermath. In the early hours of Thursday 8th August 1963 at rural Cheddington in Buckinghamshire, £2.6 million (£50 million today) in unmarked £5, £1 and 10-shilling notes was stolen from the Glasgow to London nightmail train in a daring and brilliantly executed operation lasting just 46 minutes. Quickly dubbed the crime of the century, it has captured the imagination of the public and the world's media for 50 years, taking its place in British folklore and giving birth to the myths of The Great Train Robbery. Ronnie Biggs, Buster Edwards and Bruce Reynolds became household names. But what really happened? This is the story of four talented villains who took the criminal world by storm, of the 'perfect crime'. It is also the story of ruthless policemen, determined to hunt the robbers down and to make sure nobody slipped through the net, not even the innocent. It is the story of an Establishment under siege, and of one mistake which cost the robbers 307 years in prison. Fifty years later, here is the story set out in full for the first time, a true-life crime thriller, and also a vivid slice of British social history.

The Detective Novels of Agatha Christie James Zemboy, 2016-03-15 The most popular mystery writer of all time concocted a rich recipe of intrigue, character, and setting. All of Agatha Christie's 66 detective novels are covered here in great detail. Each chapter begins with general comments on a novel's geographical and historical setting, identifying current events, fashions, fads and popular interests that relate to the story. A concise plot summary and comprehensive character listing follow, and each novel is discussed within Christie's overall body of work, with an emphasis on the development of themes, narrative technique, and characters over the course of her prolific career. An appendix translates Poirot's French and defines the British idiomatic words and phrases that give Christie's novels so much of their flavor.

Michael Crichton Elizabeth Trembley, 1996-01-19 It will help Crichton's readers learn more about how significant events in his life affected the development of his fiction and literary style and how the heritage of popular fiction, including mystery, gothic, adventure, and science fiction, influenced his writing. Highball, Lawrence Treadwell, 2022-06-30 Highball is an old signal from the train conductor to engineer that the train was clear to start from its stop and proceed at speed. Two green balls, one above the other, were the visual signal. Railroads were running long before motion pictures. Soon after silent movies were invented, directors liked trains in their films as railroading became an important business for America, passengers, and freight trains. From the beginning, Hollywood loved trains. In the book are over 450 films with the title, the year distributed, director, cast, producer/distributor, and an overview, which set forth the key train link. Hollywood produced all sort/type of films: comedy, mystery, drama, Western, war, adventure, crime, construction, musical, and epic with combinations of genre. Every film in the book has a railroad link or connection of some sort, which makes this a stand-alone edition. Movies included begin in the Silent Era, 1920s, and continue to the present day. The Hollywood Golden Age through World War II produced great films and continued using different techniques and emphasis. Dangerous cargoes, revivals, scenarios, and technology reflect the extraordinary genius of moviemakers today. With jet aircraft, passenger train travel declined to the extent that passenger trains became too expensive for America's railroads to operate. In 1971, Congress created Amtrak, a quasi-public corporation, the National Railroad Passenger Corporation. Freight continued with the railroads, which today consist of five major train, class I

companies: CSX, NS (Norfolk Southern), BNSF (Burlington and Santa Fe), UP (Union Pacific), and KCS (Kansas City Southern). Canadian Pacific (CP) operates both passenger and freight trains. Movies produced overseas are included with the United Kingdom being a large contributor to the book. The reference book is a must for all railroaders and movie lovers to recall their favorites and to see movies that they missed. All aboard!

The Terminal Man Michael Crichton, 2014-03-11 From the bestselling author of Jurassic Park, Timeline, and Sphere comes a neurological thriller about the dangers of cutting-edge medical experimentation. Harry Benson suffers from violent seizures. So violent that he often blackouts when they take hold. Shortly after severely beating two men during an episode, the police escort Benson to a Los Angeles hospital for treatment. There, Dr. Roger McPherson, head of the prestigious Neuropsychiatric Research Unit, is convinced he can cure Benson with an experimental procedure that would place electrodes deep in his brain's pleasure centers, effectively short-circuiting Harry's seizures with pulses of bliss. The surgery is successful, but while Benson is in recovery, he discovers how to trigger the pulses himself. To make matters worse his violent impulses have only grown, and he soon escapes the hospital with a deadly agenda. . .

Michael Crichton: A Biography Steven T., 2012-03-12 ABOUT THE BOOK I am certain there is too much certainty in the world. Michael Crichton Born on October 23, 1942, John Michael Crichton was raised in Long Island, New York. His parents John Henderson Crichton and Zula Miller Crichton also gave birth to two girls, Kimberley and Catherine Crichton, and one boy, Douglas. His father was a journalist. His mother regularly took the kids to the museum, theatres and movies. Crichton has cited his parents' wide-ranging interests for sparking his own. Crichton was a sickly child, staying indoors for much of his childhood. This home stay combined with his early growth spurt often left him feeling shy and isolated from other children. He would often spend his time indoors playing with model train sets and practicing simple science experiments. He developed an early interest in writing, publishing an article about travel in the New York Times at the age of 14. In 1960 he enrolled in Harvard College to study English Literature. After receiving his professors constant criticism about his writing style, he switched majors to Biological Anthropology. Crichton developed a habit of responding badly to criticisms, often walking away from projects if rewrites were requested and criticizing the person responsible. This habit stayed with him through his career. After his professors criticism of one particular essay, he plagiarised an essay originally written by George Orwell and handed it in. The essay received a B-minus. EXCERPT FROM THE BOOK Michael Crichton's first novel called Odds On was published under the pseudonym John Lange in 1966. In 1969, his novel A Case In Need won a Mystery Writers of America Edgar Allan Poe Award under the pseudonym Jeffery Hudson, and he followed this with his first best-seller The Andromeda Strain. Crichton wrote quickly, often churning out 10,000 words a day. In these periods of writing he would lock himself away and eat the same meal for lunch every day, which he believed aided his concentration. For example, during the writing of Jurassic Park, Crichton ate egg salad sandwiches with extra pepper every day. During these intensely focused

periods, Crichton would be capable of releasing three novels a year. In 1970, he published *Drug of Choice*, *Dealing and Grave Descend*. In 1972, he published *Terminal Man* and *Binary*. *Binary* became a TV movie called *Pursuit*, which was Crichton's directorial debut. Buy a copy to keep reading!
