When I Look Up Ron Gallo, 2021-11-21 Most Christian books have a problem. For they speak from an "adult perspective", and not a child's. They leave out, the most important aspect of the foundation when walking with God, and that is the child. They say, do ABCDE, to get a better walk with God. That's fine, but we forget about the growth of the child and there characteristics, is the Christian life template for an adult to look at and learn from. This is the reason why children come before adults; it's so we can see who God sees. God doesn't see us as we see each other as adults, in arrogance. God doesn't care about your social status, or you can have more degrees than a thermometer, you are his child. God sees adults as tall children. So now let's look deeper into a child's life, and how it relates to Gods foundation... the family. Understanding the

child, then you will understand yourself, and what God wants from us as adults. Looking at the genesis of a child we can see many attributes and characteristics of a child that God wants to see in us. We can shadow, and be a reflection of “childlike”, not childish as Jesus said in the book of Mathew. Jesus clearly states ‘unless you’re like a child, you shall not enter....’ Right off the bat, Jesus is drawing the line in the sand. Children have many characteristics that we miss as adults, and forget that we went through these same characteristics ourselves. From looking up, having child like faith, being able to be led, humility, believability, no pride or self righteousness etc. This fascinating book being different, will enhance any reader/parent to take a stronger look at their own Christian life, and check off the boxes to see if there in alignment with Gods standards. There a chapter on being blind when your awake, yet we trust him in sleep, and other great gems of wisdom.

Reinforcement Learning - Principles, Concepts and Applications Bhavatarini N,Syed Thouheed Ahmed,Syed Muzamil Basha,2024-03-25 Reinforcement learning (RL) is a subfield of machine learning that deals with how an agent should learn to take actions in an environment to maximize some notion of cumulative reward. In other words, reinforcement learning is a learning paradigm where an agent learns to interact with an environment by taking actions and observing the feedback it receives in the form of rewards or penalties. It is a feedback-based Machine learning technique in which an agent learns to behave in an environment by performing the actions and seeing the results of actions. For each good action, the agent gets positive feedback, and for each bad action, the agent gets negative feedback or penalty.

Nothing to Lose, Everything to Gain Kathy Barnette,2020-02-04 Conservative political commentator Kathy Barnette shares how liberal leadership has failed the black community and how being a democrat is not synonymous with your skin color. During his first historic run for the presidency in 2016, Donald Trump made an impassioned plea to the black community. Give me a chance, he said. What the hell do you have to lose? According to Kathy Barnette, black Americans have nothing to lose, except for crime ridden communities, neighborhoods that have become shooting galleries, more social welfare programs, and the mocking indifference of the Democrat party. Barnette argues that even a cursory look into the black community reveals the destabilizing effect liberal policies have had on the black family. There was a time when Barnette bought into the same lie as everyone else—that if you're black, you must be a democrat. In fact, she was born into the

Democrat party just as much as she was born into brown skin. There was no point of separation. Until she began to understand what it truly means to be black in America. Barnette contends that being black is more than just the color of her skin. It's a culture and a consciousness, too. In **NOTHING TO LOSE, EVERYTHING TO GAIN**, Barnette writes about why liberal policies have failed the black community time and time again - and will fail the larger American community as Democrats rush to the hard Left of the party. From the Great Society to Kanye West's ongoing war with the liberal establishment, this book provides sharp, eloquent commentary on the most pressing issues facing black Americans today: broken family structure, loss of identity, the legacy of slavery, and more. Barnette argues that President Trump has not been willing to presume that the black vote is a foregone conclusion resting comfortably in the back pockets of Democrats. With his plainspoken style and willingness to face harsh truths, the president has done more for the black community than any president since Abraham Lincoln. Barnette insists the time is now to get back what has been lost, to fix the brokenness, and to recognize and support those who are actually working in our favor. We have nothing to lose, and even more to gain.
