## AN Whitehead

**How do you say 100,000,000,000,000,000 in words?** Jun 23, 2015 · 37 Wikipedia lists large scale numbers here. As only the  $10^x$  with  $x$  being a multiple of 3 get their own names, you read 100,000,000,000,000,000 as  $100 \times 10^{18}$ , so this is 100 quintillion in American and British English and ... **Does a percentage quantity take singular or plural verb ...** Sep 12, 2015 · Does a percentage require a singular or plural verb, for example, do we say ten percent "go" or "goes"? *Origin of the phrase, "There's more than one way to skin a cat."* Jun 30, 2011 · I couldn't find any use of the phrase earlier than the 1840 Money Diggers reference, but I did find some background to which the saying might refer. Apparently the debate on cat-skinning boiled down to whether or not it was done while the cat was still alive. Here's a clip from the disturbing House of Commons' Minutes of Evidence Taken Before Committee on Bill for ... **What was the first use of the saying, "You miss 100% of the shots ...** You miss 100 percent of the shots you don't take. 1991 Burton W. Kanter, "AARP—Asset Accumulation, Retention and Protection," Taxes 69: 717: "Wayne Gretzky, relating the comment of one of his early coaches who, frustrated by his lack of scoring in an important game told him, 'You miss 100% of the shots you never take.'" ... *Is it proper to state percentages greater than 100%?* [closed] People often say that percentages greater than 100 make no sense because you can't have more than all of something. This is simply silly and mathematically ignorant. A percentage is just a ratio between two numbers. There are many situations where it is perfectly reasonable for the numerator of a fraction to be greater than the denominator. **Should it be 10 US\$ or US\$ 10? - English Language & Usage ...** May 21, 2011 · Which is correct to use in a sentence, 10 US\$ or US\$ 10. Perhaps USD should be used instead or even something else? "a 100" vs "100" - English Language & Usage Stack Exchange Aug 24, 2016 · The flow rate increases 100-fold (one hundred-fold) Would be a more idiomatic way of saying this, however, the questioner asks specifically about the original phrasing. The above Ngram search would suggest that a one hundred has always been less frequently used in written language and as such should probably be avoided. Your other suggestion of by one ... **Why is "a 100% increase" the same amount as "a two-fold ...** Nov 15, 2012 · 24 Yes, the correct usage is that 100% increase is the same as a two-fold increase. The reason is that when using percentages we are referring to the difference between the final amount and the initial amount as a fraction (or percent) of the original amount. **Correct usage of lbs. as in "pounds" of weight** May 4, 2013 · Assuming it's not casual usage, I'd recommend "All items over five pounds are excluded," instead. Most style guided recommend spelling out numbers of ten or

less, and in such a case I'd spell out the unit, too. "6-foot tall" or "6-feet tall"? - English Language Learners Stack ... I have heard/seen people say/write "She is 5 feet 10 inches tall" and "She is 5-foot-10." But in formal writing, is there a convention? I found both "8-foot-tall" and "nine-feet tall" in online sou...
