*West Coast Bungalows of the 1920s* E. W. Stillwell & Co.,2012-06-11 It is better to build a small house than to overburden the budget with debt for a larger one, advised the noted architectural firm of Stillwell & Company. In their guide to economical homes, the Los Angeles-based builders declared, A beautiful small house is just as expressive of character, aims, and aspirations as the large house. Mere size is a waste of money and human endeavor. A reaction to the excesses of the Victorian era, the modest bungalow provided a practical, affordable answer to the huge demands of California's housing market in the 1920s. This handsome reprint of a Stillwell & Company catalog is an ideal resource for 21st-century bungalow buyers and renovators as well as for builders seeking details of authentic materials and techniques. Its 50 examples of the classic California bungalow style include magnificently reproduced photographs, in addition to floor plans, estimated costs, and descriptions of exteriors and interiors.

**California Design, 1930-1965** Wendy Kaplan, 2011-09-16 The first comprehensive examination of California's mid-century modern design, generously illustrated. In 1951, designer Greta Magnusson Grossman observed that California design was “not a superimposed style, but an answer to present conditions.... It has developed out of our own preferences for living in a modern way.” California design influenced the material culture of the entire country, in everything from architecture to fashion. This generously illustrated book, which accompanies a major exhibition at the Los Angeles County Museum of Art, is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European émigrés as Richard Neutra, Rudolph Schindler, and Kem Weber; it finds other specific design influences and innovations in solid-color commercial ceramics, inspirations from Mexico and Asia, new schools for design training, new concepts about leisure, and the conversion of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture). The heart of California Design is the modern California home, famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood, and Raphael Soriano, for example, were intended to blur the distinction between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel-Green, and

Architectural Pottery as well as other, previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors, lighting that was both task and ambient, bookshelves that served as room dividers, and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles, and fashion, and ten incisive essays that trace the rise of the California design aesthetic.

Daily Life in Jazz Age America Steven L. Piott,2019-06-14 This volume reveals the everyday actions of individuals and their reflections on their lives during the 1920s. The Jazz Age was a tumultuous time for Americans as they attempted to come to terms with modernity. Daily Life in Jazz Age America tells the story of how all Americans—blacks and whites, women and men, workers, employers, consumers, and activists—contended with new cultural attitudes as well as persistent racial,

ethnic, and class tensions. The book provides a broad examination of American society during the 1920s. Organized thematically, it covers rural and urban America; the changing nature of gender relationships; race relations; popular culture; the rise of mass spectator sports; and religion. **Vancouver Past: Essays in Social History** Robert A. J. McDonald, Jean Barman, 1986-01-01 Focusing on Vancouver's social history, the essays written for this special edition of BC Studies treat hitherto neglected areas of the city's past and bring new insights into how its residents lived and worked. Receiving particular attention is the socio-economic and residential structure of Vancouver with one author arguing that the city's economy created an urban working class which was at once more complex and politically more conservative than that of the highly polarized communities on Vancouver Island and in the Interior.
