Delmira Agustini, Sexual Seduction, and Vampiric Conquest Cathy L. Jrade, 2012-07-10 Delmira Agustini (1886-1914) has been acclaimed as one of the foremost modernistas and the first major woman poet of twentieth-century Spanish America. Critics and the reading public alike were immediately taken by the originality and power of her verse, especially the aggressively sexualized perspective never before found in texts written by Spanish American women. Agustini sought, like the men around her, to free herself and her writing from traditional sexual limitations. Even more daringly, she responded to their language with her own feminized discourse, developing an innovative way of expressing her sexual and artistic expressions. -- Book jacket.

Narrative Pacing Hugo Raines, AI, 2025-05-05 Narrative Pacing explores the crucial role of tempo in storytelling, examining how effective pacing techniques in Film & Television and Language Arts capture and maintain audience attention. The book argues that pacing isn't just about speed; it's a strategic art form influencing emotional response and thematic comprehension. For instance, varying scene length or manipulating dialogue rhythm can significantly impact reader engagement. By understanding how the brain processes narrative information, storytellers can strategically control suspense and build anticipation. This book uniquely combines practical advice with rigorous analysis, drawing on cognitive psychology and media studies to provide a comprehensive understanding of pacing. It delves into the mechanics of pacing, the psychology of attention, and genre conventions, analyzing how established pacing norms differ across mediums. Case studies and comparative analyses of successful and unsuccessful examples illustrate key concepts. Feminist Literary History Janet Todd,2018-03-08 In this timely book Janet Todd offers an analysis and defence of the feminist literary history practised by Elaine Showalter and other contemporary American literary critics. She argues that this approach rightly links the political concerns of feminist criticism to the uncovering of female voices embedded in history. Todd reconstructs the development of feminist literary history from the 1960s through to the present day, highlighting the central themes as well as the strengths and weaknesses. She then examines the debate between American feminist critics, on the one hand, and feminist critics inspired by the work of French theorists such as Kristeva, Irigaray and Cixous, on the other. She defends feminist literary history against its critics and casts doubt on some of the uses of psychoanalysis in feminism. Todd also considers the debate with men and assesses the relevance of academic analyses of gender, masculinity and homosexuality. *Feminist Literary History* is a forceful and committed work, which addresses some of the most important issues in contemporary feminist theory and literary criticism. It will be widely read as an introductory text by students in English literature, modern languages, women's studies and cultural studies.

Christopher Fry Album Derek Stanford, 1952

The Semantics and Pragmatics of Quotation Paul Saka, Michael Johnson, 2017-12-07 The chapters in this volume address a variety of issues surrounding quotation, such as whether it is a pragmatic or semantic phenomenon, what varieties of quotation exist, and what speech acts are involved in quoting. Quotation poses problems for many prevailing theories of language. One fundamental principle is that for a language to be learnable, speakers must be able to derive the truth-conditions of sentences from the meanings of their parts. Another popular view is that indexical expressions like I display a certain fixity -- that they always refer to the speaker using them. Both of these tenets appear to be violated by quotation. This volume is suitable for scholars in philosophy of language, semantics, and pragmatics, and for graduate students in philosophy and linguistics. The book will also be useful for researchers in other fields that study quotation, including psychology and computer science.

Railway Reading and Late-Victorian Literary Series Paul Raphael Rooney, 2018-05-11 The railway was one of the principal Victorian spaces of reading. This book spotlights one of the leading audience demographics in this late-Victorian market: the newly empowered readers of the expanding middle class. The transactions in which late-Victorian readers acquired the books read whilst travelling are reconstructed by exploring the leading determinants of consumers' purchasing choices at the railway station bookstalls selling books intended for reading in this zone. This exploration concentrates on the impact of forces like the input of the staff running the bookstalls and the commercial environment in which consumers made their purchases. At the center of this study is a leading (and still relatively under-examined) genre of Victorian print culture circulating in this reading space—the series. Rooney examines three leading examples of late-Victorian series, which sought

to satisfy railway passengers' need for literary reading matter. Many of the period's principal authors and literary genres featured in their lists. Each venture is representative of one of the three main pricing tiers of series publishing. Employing an eclectic methodological framework combining cultural studies and book history approaches with concepts from the new humanities, the reading experiences furnished by the light fiction of these series are reconstructed. This study reflects the recent growth in scholarship on historical readership, the expansion in the canon of Victorian popular literature, and the broader material turn in nineteenth-century studies.

Canon Evolution Emily James, AI, 2025-05-06 *Canon Evolution* explores the dynamic forces shaping our literary canon, examining how it transforms and who influences its structure. The book argues that the canon isn't static but evolves through social, political, and academic interactions. Understanding these contexts is crucial, as cultural values directly impact which works are deemed worthy of preservation and study. The book begins by introducing canon formation, its historical development, and subsequent challenges. It then explores the role of academic institutions and publishing houses in shaping canon selection, giving attention to how gender, race, and class impact literary recognition. The book argues that challenging the canon isn't about dismissing masterpieces but creating a more inclusive literary landscape. *Canon Evolution* uses literary history, critical theory, and archival research to support its arguments. By advocating for a more inclusive approach to literary study, the book offers a fresh perspective on the power dynamics inherent in canon formation. This exploration of literary studies is valuable for understanding social dynamics that influence tastes and perceptions.
