Pasamos de la noción planetaria de mercado a través de la concentración mediática de las grandes networks a la digitalización de contenidos y su distribución a través de todos los canales y plataformas posibles. Los medios apelaron a los gobiernos locales por una desregulación y una autorregulación para garantizar que sus fusiones y acciones transnacionales pudieran operar de una manera más efectiva. La conformación de networks fue la vía rápida para lograr la convergencia tecnológica, la convergencia cultural y de consumidores. Así fuimos testigos de la hibridación corporativa y de géneros:

edutainment, informerciales, infotainmet, politainmet, advertorials, advergames, newsgame... La comunicación se hizo convergente, híbrida, desregulada y digital. Con la aparición de las redes socio digitales la industria se reorganizó impactando no sólo los modos de producción, sino también de almacenamiento, distribución, consumo y socialización. A la competencia entre los monopolios públicos y privados se sumó la participación de las audiencias en los modos de producción; vivimos en ese momento el esplendor de la era de la participación.

Banca-seguros. Experiencia internacional Lorenzo Mezzasoma, Albina Candian, Andrea Bellucci, Paoloefisio Corrias, Sara Landini, Eugenio Llamas Pombo, Carlos Ignacio Jaramillo J., 2018-02-01 El término jurídico BANCA-SEGUROS es un neologismo acuñado por la doctrina jurídica y económico-empresarial para identificar un fenómeno de integración y diálogo entre los sectores bancario y asegurador, que se ha manifestado en los últimos decenios mediante la superposición y complementariedad de los productos y servicios ofrecidos por las entidades bancarias y aseguradoras. El desarrollo de la investigación comenzó por delimitar la temática que había de ser objeto de estudio, para encargar cada materia, según los casos, a expertos juristas o economistas. Dado el grado de complejidad del fenómeno, ciertamente, la investigación no podía limitarse a consideraciones exclusivamente jurídicas, sino que era necesario contrastar las mismas con la perspectiva de los expertos en economía y empresa. Los resultados de la investigación recogidos en este libro permiten, por todo ello, conocer el panorama legislativo, comunitario y extracomunitario en el desarrollo de la Banca-seguros, en los ordenamientos italiano, español, colombiano, argentino y uruguayo, entre otros, así como otras cuestiones de interés muy relevante desde la perspectiva comparada, como la disciplina de la hipoteca inversa, como institución que cumple una importante función asistencial. Tomado del Prefacio de esta obra

Español 1 Santos Santos Cano, Tania, 2018-07-01 Esta obra fue elaborada con el propósito de que la enseñanza del español como lengua materna tenga impacto positivo en los alumnos respecto a su forma de concebir su idioma y respecto a su manera de utilizarlo para expresar sus ideas. Cada práctica social del lenguaje está planteada en un modo tal que los alumnos desarrollen su capacidad de desenvolverse tanto en forma oral como por escrito en distintos contextos. Teniendo en mente los aprendizajes esperados como parámetro, cada práctica encamina al estudiante para alcanzarlos, siempre consciente de lo que está aprendiendo.

Teoría y método del ejercicio periodístico María Susana González Reyna,2023-04-04 El propósito de este libro es aportar ideas para la enseñanza y el aprendizaje del periodismo. Para ello, se seleccionaron algunos tópicos en función de los diferentes lenguajes con los que se construye el discurso periodístico de ayer y de ahora, así como los nuevos paradigmas de comunicación creados a partir del surgimiento de internet. Pese al amplio abanico de posibilidades que se abren con el desarrollo tecnológico suscribimos la siguiente idea como fundamental: el periodismo no desaparece ni modifica su esencia. Los textos que componen este libro siguen un orden didáctico que pretende conducir al lector por diferentes temas que le harán incursionar en aspectos teóricos y metodológicos sobre la enseñanza del periodismo, tales como la reflexión sobre las disciplinas en que se apoya, los cambios y continuidades del ejercicio de esta actividad, la importancia de los géneros y los soportes, la multimodalidad -como característica del discurso periodístico-, así como miradas cercanas a algunos géneros periodísticos en especial.

Informe de la nutrición mundial 2016 International Food Policy Research Institute (IFPRI),2016-09-26 En la actualidad, pocos son los obstáculos a los que se enfrenta la comunidad mundial que puedan compararse en magnitud con el de la malnutrición, una condición que afecta directamente a una de cada tres personas. La malnutrición se manifiesta de distintas formas: retraso en el crecimiento y el desarrollo de los niños; personas esqueléticas o propensas a las infecciones; personas con exceso de peso o con riesgo de enfermedades crónicas debido al consumo excesivo de azúcar, sal o grasa; e incluso personas con carencias de vitaminas o minerales de importancia. La malnutrición y la alimentación constituyen claramente los mayores factores de riesgo para la carga mundial de morbilidad (CMM): cada país se enfrenta a un serio problema de salud pública debido a la malnutrición. Cada año, las consecuencias económicas implican pérdidas del 11% del PIB en África y Asia, mientras que la prevención de la malnutrición representa 16 dólares estadounidenses de rentabilidad de

la inversión por cada dólar gastado. En todo el mundo, los países han acordado metas en materia de nutrición, pero, a pesar de ciertos avances observados en los últimos años, el mundo está lejos de poder alcanzarlas. Este tercer informe sobre el estado de la nutrición mundial propone formas de invertir la tendencia y acabar con todas las formas de malnutrición en 2030.
