

Historia Del Pensamiento Filosofico Y Cientifico Tomo 1

Guillermo Sánchez Medina

Pensamiento novohispano. ,2003

El currículo y el desarrollo del pensamiento crítico Leonardo Viniegra Velázquez,Estela Aguilar Mejía,2023-02-21 El currículo y el desarrollo del pensamiento crítico... es un libro provocador para quienes están insatisfechas/os con sus labores docentes, en búsqueda de alternativas y no se arredran ante la posibilidad de transgredir los dogmas imperantes. Esta propuesta curricular -tanto en su dimensión teórica como empírica- asume, hasta sus últimas consecuencias, que una educación que no se proponga desarrollar en los alumnos el pensamiento crítico a fin de desplegar sus aptitudes para la elaboración de su conocimiento es prescindible. Se plantea una forma diferente de mirar la educación y llevarla a cabo, abriendo otros cauces para la construcción y la investigación del currículo. Concebir la educación como un proceso de ida y vuelta entre la experiencia y la información, donde la experiencia vital del alumno (las vivencias de alto significado afectivo que suscitan interés cognoscitivo) es el principal referente de los materiales de estudio, para lograr un aprendizaje con sentido que es caldo de cultivo del pensamiento crítico y base de sustentación de la elaboración del conocimiento. El conocimiento no es la asimilación pasiva de las ideas de otros, sino consecuencia de su crítica al confrontarlas con las propias y posicionarse por lo más penetrante o esclarecedor. La educación formal está en retirada como fuerza civilizatoria, suplantada por los medios masivos de control y desinformación que nos precipitan al colapso civilizatorio en marcha. No es por la senda de la transmisión de carretadas de información sin sentido, como la escuela puede reasumir su papel protagónico en la educación de hábitos, tradiciones y valores dignificantes, sino en la medida en que los alumnos puedan realmente ser encauzados por la vía emancipadora y creativa del pensamiento crítico y la elaboración de su propio conocimiento.

Psicoanálisis y la teoría de la complejidad Guillermo Sánchez Medina,2002

La antigua Grecia. Sabios y saberes Carmen Elena Muñoz Preciado,2009 El legado de la Grecia antigua a la cultura universal es invaluable. Los griegos crearon la filosofía como amor al saber y búsqueda de la verdad por medio de la discusión crítica, inventaron la lógica y reinventaron la matemática, articularon la literatura y el arte a los interrogantes sobre los grandes temas de la humanidad, suscitaron la democracia y la reflexión política como práctica de participación, iniciaron las grandes obras de ingeniería, ampliaron los conocimientos sobre astronomía, fundaron la medicina occidental. La

antigua Grecia. Sabios y saberes reúne 27 reflexiones sobre esos aportes del pueblo griego, que aún hoy continúan vigentes. La obra está dirigida a un público general, pues tanto el especialista como el aficionado puede encontrar en ella información esencial para entender nuestra forma de ver el mundo y de relacionarnos con el arte y la cultura, pues analizar los sabios y los saberes de la Grecia antigua es indagar por las raíces de la civilización occidental--Back cover.

Libros en venta en Hispanoamérica y España ,1993

Medianoche con Dios Santiago Andrés Gómez Sánchez,2025-07-28 Medianoche con Dios, con el subtítulo: «Cosmovisión en Paradiso, de José Lezama Lima: Escritura sagrada», es un libro basado en la tesis doctoral cum laude de Santiago Andrés Gómez Sánchez, profesor de la Facultad de Comunicaciones y Filología de la Universidad de Antioquia, en el área de Lingüística. La investigación, afincada en la situación social y cultural de la Cuba y la América Latina de mediados del siglo XX, se funda en diversidad de fuentes sobre los cambios mentales suscitados por la modernidad, y en especial en los postulados del temprano romanticismo alemán. El objetivo es explorar y describir cómo Paradiso, la única novela del poeta y ensayista cubano José Lezama Lima, busca y consigue ser una nueva escritura sagrada hecha a conciencia de esa manera, contra el cientifismo, el pragmatismo y el individualismo que, sobre todo desde la Revolución francesa, caracterizan a la modernidad. Según el jurado evaluador de esta aventurada tesis de Gómez Sánchez, en Medianoche con Dios el autor logra demostrar de manera tan rigurosa como amena que quien lea Paradiso a fondo podrá entrar en contacto con una divinidad actual, personal y real.

Libros españoles en venta ,1994

Los cuatro jinetes del Apocalipsis moderno Juan Jaramillo Antillón,2000

Filosofía: conceptos fundamentales Cristóbal Orrego Sánchez,2020 Este libro es una introducción a los temas filosóficos que sirven de base al auténtico pensamiento crítico. Sin criterios no es posible discernir lo verdadero de lo falso ni lo correcto de lo incorrecto, y, por lo tanto, no cabe formular una crítica fundamentada de la realidad contemporánea y del pensamiento dominante. Los conceptos fundamentales que permiten asimilar esos criterios proceden de la filosofía clásica, especialmente luminosa en la síntesis de Santo Tomás de Aquino. Después de defender las opciones filosóficas por la verdad, el bien, la belleza, la razón y el realismo, se explican los conceptos claves de la metafísica, la lógica, la retórica, la filosofía del hombre y la teología natural. Entre todos sobresalen la confianza en la razón y en la libertad humana, la convicción sobre la espiritualidad y la inmortalidad del alma intelectiva, la posibilidad de acceder al conocimiento racional de Dios y la superioridad esencial de la criatura humana en cuanto trasciende todo el universo material. El libro se basa en la larga experiencia del autor en la formación integral de estudiantes universitarios, quienes han aprendido a entrar en diálogo crítico con los enfoques más difundidos en la actualidad. Más allá de la acumulación de conceptos y de argumentos, se ofrece a los lectores como una excelente guía para el ejercicio riguroso y profundo de sus capacidades racionales y como una sólida

fundamentación de la dignidad de la persona humana. Esta segunda edición ofrece explicaciones adicionales y una redacción más clara de los pasajes más difíciles, y complementa el aparato bibliográfico con más de ochenta obras y casi doscientas citas y notas nuevas.

Historia del derecho público en Colombia. Tomo I Francisco Barbosa,2012-01-01 El derecho y la historia han tenido una relación intensa, pero conflictiva. Desde el derecho, la historia ha sido enmarcada en una suerte de linealidad normativa que prescinde de la panoplia de problemas que se pueden estudiar históricamente. Desde la historia, el estudio del derecho ha sido presuntuoso queriendo abordarlo, sin entenderlo, sin conocer sus meandros, sus líneas de corte e incluso tropezando las más de las veces con problemas conceptuales. Tanto el uno como el otro deben saberse mirar, respetarse y no colonizarse. Es la única forma de hacer trabajos conjuntos. Esta interacción no debe plantearse como un imperativo epistemológico. Por el contrario, en algunos casos la historia debe hacer su trabajo y el derecho debe continuar haciendo el suyo. En otros escenarios, como los que plantea esta obra colectiva, el trabajo conjunto es útil y necesario para lograr una clarificación de nuestro presente jurídico, permitiendo abordar su historia a través de posturas metodológicas que son traídas del saber histórico y, en algunos casos, del saber jurídico.

Introducción Al Estudio Del Conocimiento Científico Segundo Galicia Sánchez,2005-01-01 Introducción al estudio del conocimiento científico ha sido elaborado con el propósito fundamental de motivar al estudiante para las tareas que exige la investigación científica creativa e innovadora. Para ello se presentan diversos criterios y perspectivas que pretenden orientar el aprendizaje hacia la discusión y la crítica de los principales problemas de la ciencia y de la investigación científica contemporáneas. Dada la complejidad de estos problemas, se han intentado dar una forma pedagógica a la exposición, que esperamos se haya logrado. El desarrollo de la ciencia y la tecnología en nuestros países requiere perentoriamente de un creciente esfuerzo tanto por parte de profesores y estudiantes como de la sociedad en su conjunto. Jamás se alcanzarán los conocimientos que garanticen niveles mínimos de bienestar de nuestros pueblos, si el profesor se limita al desempeño formal de sus funciones sin realizar su trabajo con entera dedicación, si no se supera permanentemente mediante la investigación científica en el campo de su actividad profesional. Tampoco será posible lograr una formación sistemática y fecunda de las nuevas generaciones si el estudiante no dedica una parte importante de sus enormes potencialidades a lo que es una e sus tareas fundamentales, aunque no exclusiva: estudiar. Cuando la vida se estudiante transcurre como un simple pasatiempo y cuando la condición de profesor o de funcionario administrativo se torna en un cómoda manera de vivir, entonces necesariamente la escuela, la universidad o el centro de investigación degeneran en instituciones parasitarias. Sociología de la educación Rafael Jerez Mir,1990 Síntesis de las principales tendencias epistemológicas, de los contenidos y de los métodos básicos de la sociología de la educación.

La metafísica eres tú Humberto Giannini,2018 Este libro se propone una reflexión sobre el territorio de la intersubjetividad, sobre los caminos que conducen hacia el otro. Entre lo puramente subjetivo y 'la objetividad pura' queda el modestísimo trecho del pasaje entre el uno y otro: el espacio del 'entre', propio de la interacción comunicativa. Allí están presentes, en juego efectivo, las subjetividades -la tuya y la mía-, con la intención declarada de actuar concretamente en algún punto de este mundo que se objetiva, se confirma como 'mundo', justamente a partir de nuestras interacciones. Los investigadores estaremos, así, en el intervalo de la interacción; ni la subjetividad ni en la objetividad. La mirada indagadora será como la mirada de uno observando una partida de ajedrez; que solo sigue los movimientos de las piezas en el tablero y aun cuando no le cabe duda alguna que los jugadores están pensando lo que hacen, supone que estos pensamientos y decisiones tiene que traducirse en el enfrentamiento dialógico de los jugadores: tiene que aparecer en la interacción comunicativa. En este investigación la interacción comunicativa es el campo especialísimo de la ética, y la ética, el sentido de nuestro 'ser en el mundo'. De este sentido intentaremos hablar en *La metafísica eres tú*. Humberto Giannini.

Después de las utopías Alberto Dou,1993

Los constituyentes de 1917 Eber Betanzos Torres,Jaime Chávez Alor,2017-08-01 Este libro es un análisis sobre el complejo y determinante proceso político que dio a luz a la Constitución de 1917. Por ello, se aboca a estudiar a cada uno de los miembros del Congreso Constituyente y su participación en la elaboración de la Carta Magna. El minucioso estudio que contiene este texto permite situar a cada uno de los participantes en su preciso contexto político y social. Así, el libro es un testimonio sobre el surgimiento de la democracia mexicana y, de paso, se convierte en un vistazo fresco a la historia constitucionalista de México

MANUAL DE HISTORIA DE LA EDUCACIÓN Y DEL PENSAMIENTO PEDAGÓGICO ECUATORIANOS. Tomo 1 Carlos Paladines Escudero,2023-10-19 La educación es un tesoro formado, amasado, resguardado y transmitido por cientos y miles de maestros y maestras que hicieron de esta actividad su principal 'ilusión'. Los Manuales de Historia de las Educación y el Pensamiento Pedagógicos Ecuatorianos, pretende reconstruir las múltiples facetas, obras, rupturas y batallas de quienes coadyuvaron, desde finales de la etapa pre-hispánica, pasando por la colonial y la republicana, hasta el presente, a la construcción y al renacer del sistema educativo ecuatoriano. Para los historiadores y educadores, especialmente para la formación de los futuros docentes, esta obra cubre un vacío, al ofrecer una visión ordenada y sistemática del amplio y complejo mundo de la historia de la educación en nuestro país y sus principales corrientes pedagógicas, instituciones educativas, autores, obras, figuras y símbolos. Lo que más entusiasma del trabajo de Carlos Paladines, según Irvin Zapater, es su enorme capacidad intelectual y su ya tradicional devoción por la historia de las ideas y de la educación en nuestro país.

Autor de numerosos libros y artículos, publicados tanto en el país como en el exterior. A Paladines se deberá tomar en cuenta, a partir de ahora, en cualquier estudio que se haga sobre la evolución de las ideas pedagógicas y filosóficas en nuestro medio.

Medicina científica mutisiana Jaime E. Bernal,Alberto Gómez Gutiérrez,2008

El evolucionismo Agustín Franco,2023-04-06 Este libro trata sobre la evolución de la vida en nuestro planeta, con especial énfasis en nuestra especie. No es más que eso: un intento, desde luego imperfecto, de repasar ciertas evidencias y reflexiones, tratando de imaginar cómo fueron nuestros orígenes y el motivo por el que un ser aparentemente frágil ha sido capaz de llegar a alterar el medio ambiente como nunca otra especie conocida ha conseguido hacerlo.

La divulgación científica Agustín Vivas Moreno,Macarena Cuéllar,Daniel Martín,2017-06-05 La divulgación y la información científica son parte fundamental de las misiones que tienen encomendadas las universidades en su transferencia de conocimiento. Es obligación de estas instituciones de Educación Superior formar, a través de sus diversas acciones comunicativas, a una ciudadanía crítica y participativa. Bajo esta premisa, este libro se centra en esbozar el tejido temporal que justifica la vinculación ciencia y sociedad y en comprender las nuevas funciones y perspectivas que ofrecen los gabinetes de comunicación, las unidades de cultura científica y las radios universitarias. Además, este estudio ofrece una radiografía de las iniciativas puestas en marcha por distintas entidades del contexto europeo y latinoamericano para el acercamiento de la I+D+i.

Embracing the Song of Phrase: An Emotional Symphony within **Historia Del Pensamiento Filosofico Y Cientifico Tomo 1**

In a world consumed by monitors and the ceaseless chatter of immediate communication, the melodic splendor and emotional symphony developed by the published word often disappear into the background, eclipsed by the constant noise and disruptions that permeate our lives. But, nestled within the pages of **Historia Del Pensamiento Filosofico Y Cientifico Tomo 1** an enchanting fictional treasure brimming with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by a wonderful musician of language, that interesting masterpiece conducts visitors on an emotional trip, skillfully unraveling the hidden tunes and profound impact resonating within each carefully constructed phrase. Within the depths of this moving analysis, we will explore the book's key harmonies, analyze its enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers' souls.
