Origins Susan Prescott,2015 Prevention is the ultimate approach to reducing the burden of all kinds of disease, and the greatest potential for success lies in early life. What happens during early critical periods of life can determine our longevity and our risk of disease decades later. In other words: how well we start life will determine how well we finish it. Dr. Susan Prescott, a pediatrician internationally recognised for her work in disease prevention through healthier lifestyles, takes us on a journey of health, beginning from the first moments of life, revealing how adverse conditions during the important stages of our development can have a far more profound effect on our body structures, functions and even our developing behaviours. She draws on the latest research to explain how early life conditions determine our biological reserve, our capacity to deal with life's challenges, and how many of the consequences may not appear until much later in life. Covering a broad range of topics including obesity, diabetes, heart disease, cancer, allergy, arthritis and mental health, she shows how improving conditions in early life is critical for long-term health and longevity, and in prevention of adverse conditions--Page 4 of cover.

Miriam Stannage Lee Kinsella,2016 Miriam Stannage (b. 1939) is a relentless innovator. Her practice is founded upon a deep intellectual engagement with, and curiosity about, the challenges and nature of contemporary life. For the last fifty years, she has produced a dazzling range of works that resist easy categorization. Stannage has developed an aesthetic that celebrates the strange and beautiful that can be found in the everyday: from industrial building sites to suburban street verges laden with abandoned goods, and crumbling ghost towns as they disappear into the soil of the vast Australian continent. *Miriam Stannage: Time Framed* provides an analysis on this important contemporary artist's work, exploring her use of words and symbols, and the concept of vision in all of its senses. This survey presents Stannage's works, many of which have not been seen publicly, and documents the media she has worked in, specifically installation, photography, painting, video, prints and drawings, and artist's books. (Book accompanies exhibition of Stannage's work at the Lawrence Wilson Art Gallery, U. of Western Australia 7/30/16-9/24/16.) [Subject: Art, Biography]

Yearbook of International Organizations, 2013-2014 (Volume 2) Union Of International Associations,Union of International Associations,2013-06-21 The Yearbook of International Organizations provides the most extensive coverage of non-profit international organizations currently available. Detailed profiles of international non-governmental and intergovernmental organizations (IGO), collected and documented by the Union of International Associations, can be found here. In addition to the history, aims and activities of international organizations, with their events, publications and contact details, the volumes of the Yearbook include networks between associations, biographies of key people involved and extensive statistical data. Volume 2 allows users to locate organizations by the country in which secretariats or members are located.
