David Weber, Eric Flint

The Door Into Fire Diane Duane, 2019-06-08 A sorcerous swordsmith desperate to achieve true power. His stubbornly nonmagical sword. His princely runaway lover. His hungry new fire elemental. Put them all together, and what can possibly go wrong? Herewiss is the only man in centuries to possess the Power of the blue Flame, but he can't use or control it - not even to help his friend and lover Freelorn, prince of Arlen, exiled from his native land and pursued across the Middle Kingdoms by the usurpers' allies. Invoking perilous sorceries and the even more dangerous assistance of the fire elemental Sunspark, Herewiss manages to rout the armies besieging Freelorn and his little band of followers, and free his loved. Together they flee east to seek temporary refuge in the mysterious lands near the edge of the world they know. But now Herewiss faces a devastating choice. His time to master the blue Fire is running out. Should he abandon his fruitless search and join Freelorn in his fight to regain his kingdom? Or should he seek out the ancient keep in the Waste where doors lead into other worlds—perhaps even the door whose use will teach him to control the Power that he must master or die?... The Door Into Fire, first novel set in Diane Duane's award-winning Middle Kingdoms universe, opens a fantastic saga of power, magic and friendship that has become a cult classic for its uniquely inclusive take on epic fantasy and its unforgettable characters.

Reborn in Fire Kasey Mackenzie, 2020-03-26 It sucks to die screaming in fire. Trust me. The last thing I expected was to wake up amid flames that no longer burn or be rescued by a sexy stranger right before my would-be murderers return. Sexy - AKA Jake - forces my skeptical butt to admit what I'd rather deny. Death has unleashed my Elemental power to manipulate fire magic. Now I've got to master my Phoenix powers before I'm killed again. Jake's touch ignites me like flames no longer

can, and he claims the same wildness that killed my mother will drive him insane if I don't bind myself to him for life. Can I trust that Jake's feelings won't flash and fade? If I don't, he's going to lose his mind—and we both could lose our unnatural lives. ***Note from Author: This is an adult urban fantasy book featuring a smoking-hot romantic subplot suitable for readers 18+. It features elemental magic with humans who kick butt, take names, and keep flinging themselves into danger to fight for what they believe in. Tested in Fire E.J. Russell, 2018-03-31 Six months ago, Stefan Cobbe was at rock bottom: grief-stricken, guilt ridden, debt laden, artistically blocked, and living on charity in an isolated mountain cabin. But after reconciling with his first love, Luke, and moving to Sarasota with him, Stefan is preparing for his first major show. Yes, he still has debts, and no, Luke doesn't understand Stefan's desire for independence. But compared to last year? No contest. Luke Morganstern ought to be happy. After all, his art-investigation business has recovered and he's got his boyfriend back. But Stefan stubbornly refuses to move

in with him or accept Luke's financial help, and it's really starting to bug him. Who knew that the biggest test of their relationship wouldn't be time or distance, but his own insecurities? After Luke's next job—a trip to Italy to retrieve a mysterious artifact—he plans to convince Stefan that it's time to totally commit. But when Luke returns, he changes, and Stefan begins to suspect that the person in Luke's skin isn't Luke at all. He can hardly go to the police and claim his lover is the victim of a supernatural hijacking though. He needs alternative help to find Luke and get him back, because he refuses to let anyone—or anything—come between them again.

To End in Fire David Weber, Eric Flint, 2021-10-05 THE CROWN OF SLAVES SAGA CONTINUES. ADVENTURE AND INTRIGUE IN HONOR HARRINGTON'S STAR KINGDOM FROM NEW YORK TIMES BEST-SELLING AUTHORS DAVID WEBER AND ERIC FLINT. The Solarian League lies in defeat, crushed by the Grand Alliance of Manticore, Haven, and Grayson. Obedient to the Alliance's surrender demands, the League is writing a new Constitution, to prevent the reemergence of out-of-control bureaucrats, like the Mandarins who led it to disaster. Frontier Security has been disbanded, the outer worlds have regained control of their own economic destinies, and multiple star systems will soon secede from the League entirely. Yet the League is—and will remain—the largest, most economically powerful human star nation in existence, and despite the overwhelming evidence that their unelected political leaders were the driving force behind the war, many League citizens deeply resent the fashion in which their star nation—the Solarian League—has been humbled. And those who most resent the Grand Alliance continue to blame Manticore for the nuclear bombardment of the planet Mesa after its surrender. They refuse to accept that the League—and the members of the Grand Alliance—could have been manipulated by a deeply hidden interstellar conspiracy called the Mesan Alignment. The Alignment is only an invention of the Grand Alliance, no more than a mask, a cover, for its own horrific Eridani Violations. Those Solarians will never accept the war guilt of the League, because they know the Grand Alliance was just as bad. Because they deeply resent the way in which the Grand Alliance pretends to be the innocent good guys. And in the fullness of time, those Solarians will seek vengeance upon their enemies. Not all Solarians feel that way, but even some of those who accept that there was an interstellar conspiracy cherish doubts about its origins. But it is still out there, and now defeated Solarians and agents of the victorious Alliance must join forces to find it. Even if they don't believe in it, it believes in them. They must find it and identify it, to prove to revanchist Solarians that there was a conspiracy. And they must find it and destroy it to end its evil once and for all. Computational Fluid Dynamics in Fire Engineering Guan Heng Yeoh, Kwok Kit Yuen, 2009-04-20 Fire and combustion presents a significant engineering challenge to mechanical, civil and dedicated fire engineers, as well as specialists in the process and chemical, safety, buildings and structural fields. We are reminded of the tragic outcomes of ‘untenable’ fire disasters such as at King’s Cross underground station or Switzerland’s St Gotthard tunnel. In these and many other cases, computational fluid dynamics (CFD) is at the forefront of active research into unravelling the probable causes of fires and helping to design structures and systems to ensure that they are less likely in the future. Computational fluid dynamics (CFD) is routinely used as an analysis tool in fire and combustion engineering as it possesses the ability to handle the complex geometries and characteristics of combustion and fire. This book shows engineering students and professionals how to understand and use this powerful tool in the study of combustion processes, and in the engineering of safer or more fire resistant (or conversely, more fire-efficient) structures. No other book is dedicated to computer-based fire dynamics tools and systems. It is supported by a rigorous pedagogy, including worked examples to illustrate the capabilities of different models, an introduction to the essential aspects of fire physics, examination and self-test exercises, fully worked solutions and a suite of accompanying software for use in industry standard modeling systems. - Computational Fluid Dynamics (CFD) is widely used in engineering analysis; this is the only book dedicated to CFD modeling analysis in fire and combustion engineering - Strong pedagogic features mean this book can be used as a text for graduate level mechanical, civil, structural and fire engineering courses, while its coverage of the latest techniques and industry standard software make it an important

reference for researchers and professional engineers in the mechanical and structural sectors, and by fire engineers, safety consultants and regulators - Strong author team (CUHK is a recognized centre of excellence in fire eng) deliver an expert package for students and professionals, showing both theory and applications. Accompanied by CFD modeling code and ready to use simulations to run in industry-standard ANSYS-CFX and Fluent software

Will End in Fire Nicole Bokar, 2014 Twenty-seven-year-old climate journalist Ellie Stone has spent her life locked in an unending sibling rivalry with her brother, Josh--star athlete and golden boy-turned-drug addict. One night, after their parents have left her to babysit Josh, she and he have a blow-up and she abandons him. Soon after, the house is engulfed in fire--and Josh is burnt beyond recognition. Social media takes this on as a local cause célèbre, blaming Ellie since, years ago, she was involved in a blaze that scarred a teenage girl. Is history repeating itself? In shock, Ellie can't recall if she left a lit cigarette in her family home. But could this suspected arson have something to do with the unknown vehicle that was spotted nearby? The only people sympathetic to Ellie are her brother's best pal--who quickly becomes her new romantic partner--and Josh's girlfriend, who lets on that their relationship might not have been what it seemed. As she grows closer to her brother's inner circle, Ellie discovers secrets that make her question whom to trust, how to stay out of danger, and how to save her future--

Drowning in Fire Craig S. Womack, 2001 Josh Henneha has always been a traveler, drowning in dreams, burning with desires. As a young boy growing up within the Muskogee Creek Nation in rural Oklahoma, Josh experiences a yearning for something he cannot tame. Quiet and skinny and shy, he feels out of place, at once inflamed and ashamed by his attraction to other boys. Driven by a need to understand himself and his history, Josh struggles to reconcile the conflicting voices he hears--from the messages of sin and scorn of the non-Indian Christian churches his parents attend in order to assimilate, to the powerful stories of his older Creek relatives, which have been the center of his upbringing, memory, and ongoing experience. In his fevered and passionate dreams, Josh catches a glimpse of something that makes the Muskogee Creek world come alive. Lifted by his great-aunt Lucille's tales of her own wild girlhood, Josh learns to fly back through time, to relive his people's history, and uncover a hidden legacy of triumphs and betrayals, ceremonies and secrets he can forge into a new sense of himself. When as a man, Josh rediscovers the boyhood friend who first stirred his desires, he realizes a transcendent love that helps take him even deeper into the Creek world he has explored all along in his imagination. Interweaving past and present, history and story, explicit realism and dreamlike visions, Craig Womack's *Drowning in Fire* explores a young man's journey to understand his cultural and sexual identity within a framework drawn from the community of his origins. A groundbreaking and provocative coming-of-age story, *Drowning in Fire* is a vividly realized novel by an impressive literary talent.
