Joshua Nick Wright,2025-03-30 In 1865 the Northern State's superior numbers and industrial superiority were grinding the Civil War to its inevitable end. In the mountains of East Tennessee the Cahill family, who wished only to be left alone to tend their small farm, was eventually forced to take sides in their community. Local prejudice, bias, and eventually, an unavoidable act of violence, forced them to abandon their home. Seeking to leave past events behind, the Cahills abandoned their home and joined the mass migration of pioneers heading west along the California-Oregon Trail. Their aim was to start a new life in a new land. Violence followed them. Joshua is a story of devotion, loyalty, courage, and revenge. It is about coming of age: part adventure-part western. It is a story about a family lost—and a family found.

Fear Gone Wild Kayla Stoecklein,2020-09-08 A pastor's wife's shattering yet ultimately hopeful story of her husband's death by suicide, her journey to understand mental illness, and the light she found in the darkness. On August 25, 2018, Kayla Stoecklein lost her husband, Andrew--megachurch pastor of Inland Hills Church in Chino, California--to suicide. In the wake of the tragedy, she embarked on a brave journey to better understand his harrowing battle with mental illness and, ultimately, to overcome the stigma of suicide. Fear Gone Wild is her intimate account of all that led to that tragic day, including her husband's panic attacks and debilitating bouts of anxiety and depression. Despite their deep faith in God and the countless prayers of many believers, Andrew was never healed of his illness. Turning to Scripture for answers, she discovered that God uses wilderness experiences to prepare His children--including Jesus--for his greater purpose and to work miracles inside our souls. With a clear-eyed acknowledgment of how misguided and misinformed she was about mental illness, Kayla Stoecklein shares her story in hopes that anyone walking through the wilderness of mental illness will be better equipped for the journey and will learn to put their hope in Jesus through it all.

Quotes for Signboards, Marquees, Church Signs, Inspiration, and Reflection Stan H. McCarley, 2024-02-02

Character is doing what is right when no one else is looking. Keep your fears to yourself, but share your courage with others. Never put the key to your happiness in someone else's pocket. Quantity is what you count; quality is what you count on. Very few burdens are heavy if everyone lifts. These are just a few of the quotations that I have included in this book. It is a culmination of over four decades of gathering quotes and sayings, noticing church and marquee signs and bumper stickers and, most recently, researching on the Internet. In the preface for this book, I went through and listed quotes that meant a lot to me, but as I look back, I realize that they all mean something to me. I hope that you can use them for motivation, reflection, and inspiration.

How to Face My Fear of Dogs Stefani M. Cohen, 2024-08-26 Many children are afraid of dogs. The fear can range from mild to debilitating. The fear of dogs is also known as cynophobia and is often misunderstood. It does not usually get better without some intervention. When a child has a strong fear of dogs, it is important to address this fear as soon as possible. If your child is afraid of dogs, you know firsthand how much this fear can interfere with social and emotional development and everyday activities. They avoid sleepovers and play dates where a dog is in residence. They often refuse to go to a park in case they might encounter a dog. Some children will even endanger themselves by running into the street to avoid a dog. Facing the fear of dogs is ultimately easier than living with the fear. There is much to gain when children are able to overcome their fears. They develop self-confidence, self-esteem, and feel empowered. Children who face their fears learn coping skills and self-control, two of the biggest predictors of success later in life. In addition, they learn to speak up and ask for help. Based on decades of experience as a licensed psychotherapist, parenting coach, and mother of a child who was afraid of dogs, I developed an expertise in helping people of all ages overcome their fear of dogs. *How to Face My Fear of Dogs* provides a kid-friendly vehicle for kids to explore their fear of dogs and to find ways to feel safer with them. This book can be used on its own, but is designed to be a companion to my previous book *Overcoming Your Child's Fear of Dogs: A Step-by-Step Guide for Parents*. The book includes colorful and easy to understand informational graphics as well as many interactive opportunities for kids to personalize their bravery journey. Used together, these books replicate what I might do if I was working with you and your child directly. This guide can be used by children of all ages. Parental support is recommended up to Grade 3. The activities and information in the book will help your child: Recognize and understand more about how they became afraid of dogs. Identify and understand the emotional and physical feelings that accompany their fear of dogs. Use coping mechanisms for their anxiety, such as mindfulness and breathing exercises. Learn different ways to face the fear of dogs and feel brave and empowered. Learn about dogs and some important ways to stay safe with them. My ultimate goal is to enable children to feel comfortable around dogs so their lives aren't disrupted by their fear. This activity guide provides an easy and fun way to begin the journey of feeling safe with dogs.

Resetting Susan B. Hassmiller, 2020-01-07 A wife and medical professional reflects on the loss of her husband in a series of reflections that reveal the emotional stages of grief and healing. Although grief and loss are universal human conditions, the idea of losing those we love is still greatly feared, largely undiscussed, and certainly not prepared for. It is no wonder people feel alone and isolated in their feelings and thoughts when loss comes to them. Longtime nurse and Red Cross volunteer Susan Beth Hassmiller is no stranger to death. Not only has she experienced the suffering of death alongside her patients, but she was blindsided by the physical and emotional toll of loss in her personal life when her husband was fatally injured in an accident. *Resetting* is written in a daily diary format in which Susan opens a very private window to the actual feelings and thoughts she lived through during her grief process. Raw and gripping, *Resetting* reveals a profound understanding of the human experience of death. By sharing her perspective as a wife, widow and medical professional, Susan helps those who going through grief gain a new perspective and a greater understanding of death, while also offering ideas on how to help those who are experiencing bereavement—from words to say to providing support.

Mysticism in Newburyport Peter James Ford, 2023-03-26 MYSTICISM IN NEWBURYPORT is a seven-book series revealing ancient secrets from masters of all cultures along with modern-day breakthroughs by scientists and quantum physicists of our times. These tales began flowing after Peter's powerful spiritual awakening in Newburyport, Massachusetts. Newburyport is a quaint little, historic seaport on the coast of Massachusetts heading towards New Hampshire. Peter had been sober in the 12-step recovery program for many years and had recovered from his alcoholism. Peter's love of Nature had brought him to the Newburyport area. This area is rich with Nature's treasures, Native American Heritage and many tales from the tall cargo ships of olden days. High street was lined with homes of these Sea Captains. Peter's awakening had

given him new eyes and new highly evolved senses. Peter was to have powerful past lives experience with his Mystery Woman guide named Layne. Layne was a mystic that would tell people things about themselves that there was no way she could know. She would look you in the eyes and tell you your deepest secrets. She also knew about the Earth's electromagnetic grids and helped Peter understand what he was experiencing in Newburyport. Peter's new heightened senses could feel the electromagnet flow of energy and the convergence right below Market Square in Newburyport. Market Square was one of the crossroads for these powerful electromagnet energies that gives life to our planet. Peter was to share the secrets that were revealed to him in his writings.

Transition to Nursing: Preparation for Practice Bill Whitehead, Michelle Brown, 2017-12-16 How do you think like a staff nurse? What behaviour and level of work is needed to be awarded your degree? How will you adapt to working as a professional and working in a team? This book is for you if you're in the final stage of a pre-registration nursing course or if

you are making the transition to becoming a registered nurse. It provides you with a toolkit of advice to help you deal with challenges you'll face and prepare you with an understanding of what the university and NMC will be looking for. Clear advice is given on the academic skills you will need, how to face the rigours of the final year, and what you need to demonstrate in your behaviour and placements. Professional issues covered include using evidence in practice, managing a caseload, and how far to fit into or question workplace culture. The features of this book include:

- Guidance enriched by the latest research and expert knowledge of this transition period
- Reflective learning boxes to help you identify how you can prepare
- Case studies raising issues from student and registered nurses' experience going through this transition
- Short chapters enable quick learning to support you now
- Knowledge that will build your confidence and enhance your ability to fit into your first job

This book is recommended reading for all final year nursing students and nurses new to the profession. Packed with practical detail and the supporting evidence, it's obvious the authors are anchored in the reality of today's complex healthcare environments. The journey from student to registered nurse is more like a vertical ladder than a learning curve. This book helps you climb up every rung of the way. This book doesn't just describe the process of transition; it gives advice for both academic and practice based achievement, preparing you to think and practise as a staff nurse. It's a resource you can either dip into as needed, or read from cover to cover. In addition there's an evidence-based preceptorship toolkit for transition which is a useful tool for employers to devise an effective system of support. The experienced nurse would also benefit from this as a reference tool to support their students and preceptees and a reminder of the demands placed on them. Liz Allibone, Head of Clinical Education and Training, Royal Brompton and Harefield NHS Foundation Trust, London, UK, and Chair of UK Clinical Nurse Educator Network

The transition from student nurse to registered nurse is daunting, to say the least. The realisation of what accountability actually means and the implications of working within the NMC Code (2015) become a reality rather than the focus of an academic essay. This book *Transition to Nursing: Preparation for Practice* effectively prepares third-year student nurses for the reality of becoming a Registrant. The book offers useful and practical advice on how to make the most of your final year as a student nurse and how to achieve the highest degree classification possible. The book utilises case studies to encourage self-reflection, and consider how the NMC Code (2015) applies to the daily life of a Registrant. The book acknowledges the reality of working in modern day health care and the challenges that it brings - and offers practical advice on how to develop resilience, mindfulness and self-awareness. This book is a must for all final year students. Mike Parker, Senior Lecturer in Emergency and Unscheduled Care, University of York, UK

This interesting book takes the pre-registration nursing student on a journey from the beginning of their third year through to registration and working as a newly qualified nurse. The book is divided into three distinct sections, addressing academic aspects, the final clinical placement and lastly registration as a newly qualified nurse. It is written in an easy to read style using a case study approach with each chapter addressing a specific aspect thus allowing it to be read as a whole

or dipped into as the need arises. The areas covered in each section are relevant to all fields of nursing and the case studies are realistic and encompass all aspects of the transition. This will be a very useful resource for third year students embarking on what is undoubtedly a stressful year as they strive to achieve success in their nursing degree and make the transition from student nurse to newly qualified nurse. Pauline Carson, Lecturer, Children and Young People's Nursing, Queens University Belfast, UK Transition to Nursing: Preparation for Practice is an excellent text for all students embarking on the last stages of their journey to become a Registered Nurse. It offers great advice and guidance that will inform and help boost confidence, during the final year of the programme and beyond. The logical structure of the contents and use of case study scenarios allows the reader to develop their understanding of the important aspects of theory and practice requirements at Level 6, and the expectations and reality of life as a Newly Qualified Nurse. This is essential reading for all final year students. Claire Williams, Senior Lecturer, University of Derby, UK "Much has been written about transition to practice for newly qualified nurses, Bill and Michelle have done a fantastic job in putting this in one place and producing a valuable resource for student nurses to help them prepare for this part of their journey to registered professional. They have covered all the important elements of transition including resilience, speaking out, developing confidence and dealing with reality shock culminating in a very handy toolkit that can be used to help manage this exciting and sometimes stressful time !!" Claire Agnew, Senior Nurse - Clinical Practice Development, University Hospitals of Leicester NHS Trust, UK
