It explores different 'place connections', investigates how places are named and renamed, and looks at the forces that are remaking the future place name map of India. Lucid and accessible, this book explores the bonds between names, places and people through a unique amalgamation of toponymy, history, mythology and political studies within a geographical expression. This volume addresses questions on the status and value of place names, their interpretation and classification. It brings to the fore the connections between place names and the cultural, geographical and historical significations they are associated with. This will be an essential read for scholars and researchers of geography, law, politics, history and sociology, and will also be of interest to policy-makers, administrators and the common reader interested in India.

**Religious Journeys in India** Andrea Marion Pinkney, John Whalen-Bridge, 2018-08-20 Explores how religious travel in India is transforming religious identities and self-constructions. In an increasingly global world where convenient modes of travel have opened the door to international and intraregional tourism and brought together people from different religious and ethnic communities, religious journeying in India has become the site of evolving and often paradoxical forms of self-construction. Through ethnographic reflections, the contributors to this volume explore religious and nonreligious motivations for religious travel in India and show how pilgrimages, missionary travel, the exportation of cultural art forms, and leisure travel among coreligionists are transforming not only religious but also regional, national, transnational, and personal identities. The volume engages with central themes in South Asian studies such as gender, exile, and spirituality; a variety of religions, including Sikhism, Islam, Buddhism, and Christianity; and understudied regions and emerging places of pilgrimage such as Manipur and Maharashtra. [It's rare to find such diverse accounts of religious travel collected in a single volume, where scholars' engagements with individual places of pilgrimage in India and with the journeys surrounding them are truly in conversation with one another. For readers, it makes for a deeply enlightening journey. It also raises an interesting question: Is the reality of India powerful enough that it absorbs divergent expressions of religious tourism, making of them a common fabric? Here, so unusually, readers have the materials to decide.] [John Stratton Hawley, author of A Storm of Songs: India and the Idea of the Bhakti Movement]

The earliest records of this occupation can be traced back to 1.5 Ma ago and possibly to c. 2 Ma ago. Archaeological evidence has been reported from all known phases in India, showing a continuous record of occupation from the Early Pleistocene onwards and reflecting adaptation by multiple hominin species over time. This book aims to highlight recent advances in the Quaternary geoarchaeology by showcasing diverse methods such as archaeology, geology, palaeoclimatology, sedimentology, GIS, remote sensing and taphonomy. It presents a collection of papers that address various geoarchaeological aspects from different regions in India, within the time frame of the Early Pleistocene to Anthropocene. **A Research Agenda for Religious Tourism** Kiran A. Shinde,Joseph M. Cheer,2024-03-14 Incisive and interdisciplinary, this Research Agenda broaches topics that have been under-researched within religious tourism, including: place attachment

and marketing; memory and modification of sacred landscapes for tourism needs; the darker sides of religious tourism; multi-stakeholder governance; mission-trips; and allied forms of tourism.

**A Place for Utopia** Smriti Srinivas, 2015-11-02 Exploring several utopian imaginaries and practices, *A Place for Utopia* ties different times together from the early twentieth century to the present, the biographical and the anthropological, the cultural and the conjunctural, South Asia, Europe, and North America. It charts the valency of utopia for understanding designs for alternative, occluded, vernacular, or emergent urbanisms in the last hundred years. Central to the designs for utopia in this book are the themes of gardens, children, spiritual topographies, death, and hope. From the vitalist urban plans of the Scottish polymath Patrick Geddes in India to the Theosophical Society in Madras and the ways in which it provided a context for a novel South Indian garden design; from the visual, textual, and ritual designs of Californian Vedanta from the 1930s to the present; to the spatial transformations associated with post-1990s highways and rapid transit systems in Bangalore that are shaping an emerging “Indian New Age” of religious and somatic self-styling, Srinivas tells the story of contrapuntal histories, the contiguity of lives, and resonances between utopian worlds that are generative of designs for cultural alternatives and futures.

*Religion, Caste, and Politics in India* Christophe Jaffrelot, 2010 Following independence, the Nehruvian approach to socialism in India rested on three pillars: secularism and democracy in the political domain, state intervention in the economy, and diplomatic non-alignment mitigated by pro-Soviet leanings after the 1960s. These features defined a distinct Indian model, if not the country's political identity. From this starting point, Christophe Jaffrelot traces the transformation of India throughout the latter half of the twentieth century, particularly the 1980s and 90s. The world's largest democracy has sustained itself by embracing not only the vernacular politicians of linguistic states, but also Dalits and Other Backward Classes, or OBCs. The simultaneous--and related--rise of Hindu nationalism has put minorities--and secularism--on the defensive. In many ways the rule of law has been placed on trial as well. The liberalization of the economy has resulted in growth, yet not necessarily development, and India has acquired a new global status, becoming an emerging power intent on political and economic partnerships with Asia and the West. The traditional Nehruvian system is giving way to a less cohesive though more active India, a country that has become what it is against all odds. Jaffrelot maps this tumultuous journey, exploring the role of religion, caste, and politics in determining the fabric of a modern democratic state.

*The Future of Ritual* Richard Schechner, 2003-09-02 A brilliant examination of cultural expression and communal action, *The Future of Ritual* asks pertinent questions about art, theatre and the changing meaning of 'culture' in today's intercultural world.

Negotiation by Peaceful Means Bishnu Pathak, Ph.D., Susmita Bastola, Ph.D. Candidate, 2022-08-01 This book offers an

exclusive dialogic pyramid model to resolve or transform the Nepo-India territorial disputes. Nepal and India are not only territorially close, but they are enjoying excellent connections of history, culture, religion, and tradition engagement from people to people. Therefore, dialogue at the bottom level can equally serve as a peaceful means to solve territorial disputes. The bottom-up dialogue approach among the civilians can transform anti-national sentiments and media jingoism. Ultimately, both countries love the cultural ties-up by maintaining peace, coexistence, and harmony. There has been a self-admiration that India is the world's largest democratic country. But the question is, why does India not sit for a dialogue with Nepal to transform the territorial disputes by peaceful means? Both nations should open the channels for informal-indirect and formal-direct dialogue and participation among state-to-state and non-state to non-state actors, grassroots people, civil society, and religious leaders. Dialogue begets the negotiation to transform the disputes by peaceful means.

**The Production of Hindu-Muslim Violence in Contemporary India** Paul R. Brass, 2011-05-01 Chronic Hindu-Muslim rioting in India has created a situation in which communal violence is both so normal and so varied in its manifestations that it would seem to defy effective analysis. Paul R. Brass, one of the world's preeminent experts on South Asia, has tracked more than half a century's riots in the north Indian city of Aligarh. This book is the culmination of a lifetime's thinking about the dynamics of institutionalized intergroup violence in northern India, covering the last three decades of British rule as well as the entire post-Independence history of Aligarh. Brass exposes the mechanisms by which endemic communal violence is deliberately provoked and sustained. He convincingly implicates the police, criminal elements, members of Aligarh's business community, and many of its leading political actors in the continuous effort to "produce" communal violence. Much like a theatrical production, specific roles are played, with phases for rehearsal, staging, and interpretation. In this way, riots become key historical markers in the struggle for political, economic, and social dominance of one community over another. In the course of demonstrating how riots have been produced in Aligarh, Brass offers a compelling argument for abandoning or refining a number of widely held views about the supposed causes of communal violence, not just in India but throughout the rest of the world. An important addition to the literature on Indian and South Asian politics, this book is also an invaluable contribution to our understanding of the interplay of nationalism, ethnicity, religion, and collective violence, wherever it occurs.

**Religion** David Chidester, 2018-04-20 Religion: Material Dynamics is a lively resource for thinking about religious materiality and the material study of religion. Deconstructing and reconstructing religion as material categories, social formations, and mobile circulations, the book explores the making, ordering, and circulating of religious things. The book is divided into three sections: Part One revitalizes basic categories—animism and sacred, space and time—by situating them in their material production and testing their analytical viability. Part Two examines religious formations as configurations of power that operate in material cultures and cultural economies and are most clearly shown in the power relations of

colonialism and imperialism. Part Three explores the material dynamics of circulation through case studies of religious mobility, change, and diffusion as intimate as the body and as vast as the oceans. Each chapter offers insightful orientations and surprising possibilities for studying material religion. Exploring the material dynamics of religion from poetics to politics, David Chidester provides an entry into the study of material religion that will be welcomed by students and specialists in religious studies, anthropology, and history.

**Echoes of Faith** Amod Desai, 2024-04-14 As we delve into the annals of history to recount the tale of Ram Janmabhoomi - a narrative entwined with faith, politics, and identity - it is paramount to approach this account with sensitivity and objectivity. The Ram Janmabhoomi conflict, far beyond a legal dispute over a parcel of land in Ayodhya, has been deeply ingrained in the collective memory of a nation, resonating with millions across religious and cultural boundaries. The narrative of Ram Janmabhoomi is not just a chronicle of events that unfolded over decades but a reflection of India's evolving socio-political landscape. It is a story that spans centuries, tracing back to pre-historic times and stretching into the modern era of legal battles and mass movements. This story is not merely about the bricks and mortar of a disputed structure but the intertwined relationship between faith and identity, law and justice, history and chronological facts. In this book, we embark on a comprehensive exploration of the multifaceted layers of the Ram Janmabhoomi struggle. We traverse its historical foundations, the fervent emergence of the Ayodhya movement, the intricate legal battles, the eventual resolution by the Supreme Court of India, and the broader implications for Indian society. Each chapter serves as a testament to the issue's complexity, illuminating the religious sentiments, political aspirations, legal arguments, and the quest for communal harmony. The long-term impact on Hindu-Muslim relations and communal harmony in India remains a topic of debate. In 2019, the response to the Supreme Court's verdict on the Ram Janmabhoomi issue was primarily measured by calls for peace and communal harmony from various quarters. We acknowledge the diverse perspectives that this topic encompasses and respect the profound emotions it stirs. The aim is not to advocate a singular viewpoint but to present a balanced understanding of how the Ram Janmabhoomi issue shaped and was shaped by the myriad dimensions of Indian life. This book is an endeavor to chronicle a significant chapter in India's history that will be remembered for generations as a cornerstone in the country's journey towards grappling with its diverse heritage and charting its path forward. As readers embark on this journey through the pages of history, it is hoped that they gain insights into the events that transpired and the underlying currents of cultural, religious, and national identity that the Ram Janmabhoomi struggle represents. This is a story of a nation's struggle with its past, its present, and the implications for its future. Welcome to the journey of Ayodhya's struggle. Objective of this book In this book, our primary objective is to delve into the multifaceted aspects of the Ram Janmabhoomi issue. This topic sits at the intersection of history, religion, and politics in India, which is Bharat, and simultaneously affects the entire world. Many research studies have led to chronological evidence shared in this book. This exploration aims to

comprehensively understand the complexities and nuances surrounding the history, faith, and belief of righteousness around this sacred struggle. The book seeks to unravel the layers of this struggle by examining its historical roots, religious significance, and the political dynamics that have shaped its discourse. This book aims to inform and foster a deeper understanding of the complexity of the Ram Janmabhoomi struggle. It endeavors to navigate through the layers of history, faith, and politics to offer a nuanced narrative that respects diverse viewpoints and contributes to an informed discourse.

**Religions of Early India** Richard H. Davis, 2024-11-26 The extraordinary multiplicity of religions and religious cultures in India, chronicled over two thousand years From its earliest recorded history, India was a place of remarkable and varied religious activity, ranging from elaborate sacrificial rituals and rigorous regimes of personal austerity to psycho-spiritual experimentation and utopian visions. In this ambitious and wide-ranging chronicle, Richard Davis offers a history of India's myriad religious cultures that spans two thousand years, from 1300 BCE to 700 CE. India, Davis writes, was not only the birthplace of the religions we now know as Hinduism, Buddhism, and Jainism. It was also the home of other, often unnamed religions that can be classified as "folk" or "popular" religions. Tracing these intertwined practices, Davis shows that the ardent and heterogeneous religious cultures of early India came to define and redefine themselves in relation to one another. Davis recounts this history through voices—voices recorded in hymns, poems, songs, didactic stories, epic narratives, scientific treatises, and theological discourses, as well as voices that speak through material remains, whether monumental sculptures or tiny terracotta figurines of nameless goddesses. He focuses on the long millennium often designated as "classical India," which stretches from the time of the founding figures of Buddhism and Jainism during the sixth century BCE through the seventh-century-CE dynasties of the Chalukyas and the Pallavas in southern India. Throughout, he emphasizes encounter, interaction, debate, critique, and borrowing among religious communities within a shared, changing social and political reality. The voices and visions of early India's religions, Davis shows us, are fascinating in their multiplicity.

**Cultural Constellations, Place-Making and Ethnicity in Eastern India, c. 1850-1927** Swarupa Gupta, 2017-11-01 In *Cultural Constellations, Place-Making and Ethnicity in Eastern India, c. 1850-1927*, Swarupa Gupta outlines a fresh paradigm moving beyond stereotypical representations of eastern India as a site of ethnic fragmentation. The book traces unities by exploring intersections between (1) cultural constellations; (2) place-making and (3) ethnicity. Centralising place-making, it tells the story of how people made places, mediating caste / religious / linguistic contestations. It offers new meanings of 'region' in Eastern Indian and global contexts by showing how an interregional arena comprising Bengal, Assam and Orissa was forged. Using historical tracts, novels, poetry and travelogues, the book argues that commonalities in Eastern India were linked to imaginings of Indian nationhood. The analysis contains interpretive strategies for mediating federalist separatisms and fragmentation in contemporary India.
