La pluralidad de emisión en España, 1844-1874 Carles Sudrià Triay,Yolanda Blasco-Martel,2016-05-31 Este libro aborda el desarrollo financiero de España durante la etapa en que estuvo vigente la pluralidad de bancos de emisión. España inauguró la emisión plural en 1844 y la finalizó formalmente el 19 de marzo de 1874, al firmarse el decreto de concesión del monopolio de emisión al Banco de España. Durante ese período de tiempo, hasta veintiún bancos provinciales desarrollaron tareas de emisión en España. El objetivo de esta obra es analizar el papel jugado por la pluralidad de emisión en el proceso de formación del moderno sistema bancario español. Los bancos emisores jugaron un papel clave en la difusión del billete de banco (principal innovación financiera de la época), en la generalización de las cuentas corrientes y en la financiación de la actividad productiva regional. El abrupto final de la pluralidad de emisión respondió a las perentorias necesidades del Estado. El trabajo cuestiona la forma y la oportunidad de la decisión tomada en 1874 de otorgar el monopolio emisor al Banco de España. El volumen se ha organizado en cuatro partes. La primera presenta un análisis de las controversias teóricas en torno a la pluralidad de emisión y de la experiencia europea a lo largo del siglo xix. La segunda parte está dedicada al estudio de la banca de emisión española desde una perspectiva global. La tercera está estructurada, a su vez, en tres capítulos que agrupan los ensayos individuales sobre los bancos estudiados en el período 1845-1874. Finalmente, la cuarta y última parte se ocupa de revisar las circunstancias en las que se puso fin a la pluralidad de emisión. El estudio, dirigido a un público amplio, se ha construido sobre la base de fuentes originales, lo que resulta especialmente interesante a los investigadores que se ocupan de la historia bancaria. Sus principales aportaciones se centran, por una parte, en los análisis agregados y desagregados de las cifras de la banca emisora que se presentan y, por otra, en el detallado estudio de los aspectos sociales, institucionales y económicos de la pluralidad de emisión en España.

Continuidad y cambio en la España urbana en el período de entreguerras Jesús Mirás Araujo,2007 El libro analiza la estructura y las transformaciones de la economía de una ciudad española de rango jerárquico medio (A Coruña) durante el período de entreguerras (1914-1935), que se encuadra dentro del creciente interés que ha experimentado en las últimas décadas el estudio histórico de las ciudades españolas. Para evitar caer en un excesivo descriptivismo y localismo, el estudio requiere una adecuada contextualización. El método seguido parte de la caracterización de los cambios que condujeron a la

ciudad por la senda de la modernización, pretendiendo insertar su comportamiento en el contexto de las economías española y gallega, y dentro del conjunto del sistema urbano nacional. De este modo, contribuye al hallazgo de referentes comparativos para la historia urbana de nuestro país. El enfoque es estructural y macroeconómico. Se trata de proporcionar una visión de la estructura y de los cambios acaecidos en las diferentes coyunturas que presidieron el período (guerra europea, posguerra, Dictadura de Primo de Rivera y Segunda República). Desde otro ángulo, se intenta descender asimismo a nivel microeconómico, al análisis de algunas empresas de especial significación en la economía urbana. El resultado final es la percepción de que el primer tercio del siglo XX supuso para la economía y las ciudades españolas un período de desarrollo, en el que la estrategia de A Coruña se centró en su creciente especialización como ciudad terciaria.

Estadísticas históricas de España Carlos Barciela López, Albert Carreras, Xavier Tafunell, 2005 Esta publicación es la suma de varias obras: un anuario estadístico de dos siglos combinado con una serie de estudios introductorios más guías de fuentes y bibliografías. El grueso de la obra lo constituyen más de cinco mil columnas de datos, referenciadas en índices analíticos, onomásticos y topográficos que permiten indagar en la práctica totalidad de los ámbitos estudiados: el clima; la población y la salud; la educación; el sector agrario y la pesca; la industria; la urbanización y la vivienda; los transportes y las comunicaciones; el sector exterior; el sistema monetario y financiero; la empresa y la bolsa; la investigación y el desarrollo; el sector público administrativo y el Estado del bienestar; el Gobierno y la Administración; la política y las elecciones; el trabajo y las relaciones laborales; el consumo y los precios, y la renta y la riqueza. Esta segunda edición, actualizada, revisada y ampliada con nuevos capítulos y temas, y preparada por veinticinco autores, dejará una huella profunda en el conocimiento de la España contemporánea. Además, sitúa a nuestro país en el selecto grupo de naciones que disponen de colecciones de estadísticas históricas de amplio espectro temático y cronológico, contribuyendo, de este modo, al desarrollo de los estudios comparativos.

Las Colecciones de Arte de la Banca Pública (1960-1982) Julián Zarauza Massó, 2023-10-02 Las instituciones bancarias se cuentan hoy entre los coleccionistas de arte más significativos de nuestro tiempo. Este coleccionismo asume la coexistencia de varios gustos individuales y cambiantes. Estas colecciones se inician con los testimonios inmediatos de los que las fundaron y dirigieron a lo largo de su historia, que se une a la misma condición bancaria. Proceden de la voluntad de su consejo de administración con una intención decorativa para buscar una mayor dignidad y calidad de sus sedes. Durante la segunda mitad del siglo XX, algunas de estas instituciones iniciaron la labor pionera de comprar arte con intención de formar una colección. Estas iniciativas estuvieron ligadas a determinadas personalidades, como ocurrió con Manuel Arburúa de la Miyar en el Banco Exterior de España y Juan Lladó Sánchez-Blanco en el Banco Urquijo. Dotaron a sus sedes centrales y regionales de grandes obras de arte en un momento en que el estado, la sociedad y los medios de comunicación vivían al margen de la creación artística. Este mecenazgo se incrementó a partir de 1977, con motivo de la liberalización del sistema

financiero español, al poder operar los bancos sin restricciones a lo largo y ancho de la geografía española. Entre 1973 y 1983 se triplicó el número de oficinas bancarias. Fue un momento en que urgía decorarlas. A lo largo de este trabajo apreciamos cómo las colecciones de arte de estas instituciones bancarias no sólo han contribuido a incrementar y preservar el patrimonio artístico de nuestro país, también actuaron en calidad de mecenas de muchos artistas.

The Origins of Modern Banking in Spain Carles Sudrià,Yolanda Blasco-Martel,2019-04-18 This book analyses the formation of the Spanish banking system. It provides a general overview of European financial systems in operation during the mid-nineteenth century, followed by a detailed analysis of the economic and institutional changes that gave rise to a new form of banking in Spain. The chapters analyse changes on banking regulation; study the social origin of banks' promoters; investigate the economic results of banks; and evaluate the interaction between banks and the economy as a whole. Finally, the causes, extent and consequences of monetary plurality in Spain and its European context are discussed. As such, this book covers the gap that exists in the Spanish banking historiography. Until now only the Bank of Spain and its predecessors had been adequately examined. As the Bank of Spain acted mostly as the state's financial agent, we know very little about private-sector financing. This text provides data and analysis for a more comprehensive view of early Spanish financial development in a comparative European framework. The Origins of Modern Banking in Spain should be considered essential reading for financial history students and scholars, as well as anybody interested in longview approaches to modern financial development.

LA BANCA EXTRANJERA EN ESPAÑA, 1898-1921 CARLOS TEJADA BERGADO,2013-10-16 Este trabajo profundiza en la incidencia de la Banca Extranjera en España en el periodo estudiado, es decir, 1898-1921. Pero a partir de este conocimiento, se descubren los fundamentos que permitieron el nacimiento de una poderosa y solvente banca española. Además, se analizan los pro y los contra de su presencia en España y, por supuesto, las principales elementos que resultaron asimilables por la incipiente banca española.

LA VERDADERA HISTORIA DEL BANCO PASTOR Ramón Tenreiro,2024-10-20 En LA VERDADERA HISTORIA DEL BANCO PASTOR: Los secretos ocultos de la Herencia Pastor, te invitamos a descubrir una historia nunca antes contada sobre uno de los linajes más influyentes en la historia financiera de España. Este libro revela una trama de decisiones familiares, herencias ocultas y un legado lleno de misterios que ha permanecido en las sombras durante más de un siglo. Basado en documentos originales, escritos de puño y letra, y secretos familiares guardados celosamente, esta obra expone la verdad detrás del testamento de Don José Pastor y Horta, el patriarca de una dinastía que fundó lo que llegaría a ser el Banco

Pastor. A lo largo de estas páginas, desenmascaramos cómo un simple cambio en un testamento pudo transformar la historia oficial que se ha contado sobre el Banco. En lugar de un único heredero, el visionario empresario decidió repartir su legado entre varios sobrinos, lo que cambió el rumbo de su imperio y creó una red de obligaciones no resueltas que aún resuenan en la actualidad. Pero la historia no termina ahí: ¿por qué durante 100 años se ocultó esta verdad y quiénes participaron en reescribir la historia oficial de esta influyente familia? Esta obra no solo arroja luz sobre las intrigas legales y familiares que surgieron tras la muerte de Don Pedro Barrié de la Maza, sino que también examina cómo su decisión afectó el desarrollo del Banco Pastor. ¿Qué motivó a cambiar la historia? ¿Y cual es la razón para la distorsión de esta historia? Este libro es una mezcla fascinante de historia empresarial, drama familiar y revelaciones que hasta ahora han sido desconocidas para el público. Si te interesan las grandes sagas familiares, los secretos ocultos y las luchas de poder que trascienden generaciones, Los Secretos Ocultos de la Herencia Pastor te llevará al corazón de una de las historias más intrigantes del mundo financiero español. Descubre la verdad que ha permanecido escondida durante más de un siglo. Una historia que va más allá de la simple sucesión de bienes, para convertirse en una leyenda de intrigas, poder y el precio de la verdad.

Port Cities of Atlantic Iberia, c. 1500-1900 Professor Patrick O'Flanagan, 2013-06-28 Charting the evolution of the port cities of Atlantic Spain and Portugal over four centuries, this book examines the often dynamic interaction between the large privileged ports of Lisbon, Seville and Cadiz (the Metropoles) and the smaller ports of, among others, Oporto, Corunna and Santander (the Second Tier). The book particularly focuses on the implications of state-sponsored commercial policies for the main ports of Atlantic Iberia during the monopoly period extending from 1503 to c.1778, and briefly considers the implications of the suppression of monopoly for these centres over the remainder of the nineteenth century. Patrick O'Flanagan employs a wealth of source material to provide a multi-faceted survey of the growth of these port cities, moving deftly from local concerns to regional developments and global relationships. Beyond Spain and Portugal, the book also considers the important role played by the Atlantic archipelagoes of the Canaries, the Azores and Madeira. This formidable study is an essential addition to the library of those studying Atlantic Iberia, historical geography, and transatlantic economic relationships of this period.

BANCO DE GALICIA, orígenes, evolución y extinción José Luis Múgica Melgar, 2010-08-07 Este libro refleja la historia completa de uno de los pocos Bancos que con marcadas características regionales (aunque vinculado a un importante Grupo nacional) ha tenido su sede social y ha operado básicamente en Galicia. Aparte de información y de datos referidos al Banco de Galicia y a los bancos de los que procede, el libro contiene numerosas ilustraciones, explicaciones, anécdotas y comentarios -algunos no exentos de crítica- sobre la actividad bancaria y el entorno económico en el que se han desarrollado los negocios de dicho Banco.

A Century of Banking Consolidation in Europe Manfred Pohl,Teresa Tortella,2017-03-02 From the late nineteenth century to the late twentieth century the European banking sector experienced countless mergers and acquisitions. The outcome of this century of consolidation is strikingly similar across the continent, with the banking sector of each country now dominated by a handful of giant banking corporations. Consolidation and concentration trends in banking was the theme of the Academic Archive Colloquium of the European Association for Banking History held in Madrid in June 1997. This volume is comprised of the 18 papers and responses presented at the Colloquium by a truly international group of delegates. Some of the themes explored in the book include: the significance of mergers for bank archives; the regulation of mergers and their impact on banking legislation; reactions to consolidation from within and without the banking industry; case studies of particular mergers and their impact on the wider banking community. Youssef Cassis's introductory chapter provides a general survey of trends in the consolidation process and suggests that the advent of the Euro may herald a new era in the history of European banking consolidation.

El dinero es un velo Romero Mora, Antonio,2023-03-01 Nuestro sistema financiero nació en los intrincados y bulliciosos zocos de las ciudades medievales de Al-Ándalus y los reinos cristianos del norte. Allí hizo su aparición, modestamente, un nuevo gremio, el de los cambistas, que con sus inconfundibles balanzas lograron poner orden entre las incontables monedas que, procedentes de los más diversos lugares, se citaban en los mercados. Desde aquel remoto origen han transcurrido nada menos que diez siglos, a lo largo de los cuales los bancos y cajas que conforman el sistema financiero han evolucionado al compás de los avatares de nuestra historia. Este libro pretende contribuir a nuestro actual conocimiento de esta trayectoria desde una óptica peculiar, escasamente explorada hasta ahora: la de su legislación. Las leyes que a lo largo de su historia han regulado el funcionamiento de bancos y cajas constituyen una primordial fuente de conocimiento para analizar la conexión entre la evolución del sistema financiero y la historia política y económica de nuestro país. El sector bancario no ha sido precisamente una isla desconectada de los grandes acontecimientos nacionales. Los cambios de régimen político, las crisis económicas, las guerras que España ha librado han modificado constantemente la estructura de nuestras entidades financieras, las han moldeado y reconfigurado una y otra vez, tanto o más que al resto de la sociedad. Y a la inversa, en no pocas ocasiones, acontecimientos financieros han condicionado nuestro devenir histórico, como la reciente Crisis Económica Global ha evidenciado. Bajo estas premisas, El dinero es un velo ofrece un recorrido por la historia de España que pone de manifiesto el papel, en algunos momentos decisivo, desempeñado por el sistema bancario.

Migrant Integration in a Changing Europe Roxana Barbulescu,2019-02-28 In this rich study, Roxana Barbulescu examines the transformation of state-led immigrant integration in two relatively new immigration countries in Western

Europe: Italy and Spain. The book is comparative in approach and seeks to explain states' immigrant integration strategies across national, regional, and city-level decision and policy making. Barbulescu argues that states pursue no one-size-fits-all strategy for the integration of migrants, but rather simultaneously pursue multiple strategies that vary greatly for different groups. Two main integration strategies stand out. The first one targets non-European citizens and is assimilationist in character and based on interventionist principles according to which the government actively pursues the inclusion of migrants. The second strategy targets EU citizens and is a laissez-faire scenario where foreigners enjoy rights and live their entire lives in the host country without the state or the local authorities seeking their integration. The empirical material in the book, dating from 1985 to 2015, includes systematic analyses of immigration laws, integration policies and guidelines, historical documents, original interviews with policy makers, and statistical analysis based on data from the European Labor Force Survey. While the book draws on evidence from Italy and Spain in an effort to bring these case studies to the core of fundamental debates on immigration and citizenship studies, its broader aim is to contribute to a better understanding of state interventionism in immigrant integration in contemporary Europe. The book will be a useful text for students and scholars of global immigration, integration, citizenship, European integration, and European society and culture.
