Brad Taylor

American Traitor Brad Taylor, 2021-01-05 “Few authors write about espionage, terrorism, and clandestine hit squads as well as Taylor does.”—Houston Press Pike Logan is on the desperate hunt for a man who is about to betray his country—and ignite a horrific new world war—in this pulse-pounding thriller from New York Times bestselling author and former special forces officer Brad Taylor. Pike Logan and Jennifer Cahill are enjoying a sunny vacation down under when they get disturbing news: their friend and colleague Clifford Delmonty is in serious trouble. While working as a contractor at an Australian F-35 facility, the former Taskforce member—callsign Dunkin—saw something he shouldn’t have, and now he’s on the run from Chinese agents. Pike and Jennifer soon discover that Dunkin’s attackers are a dangerous link to a much larger scheme that could launch a full-on conflict between China and Taiwan. In its quest for dominance, China is determined to reclaim Taiwan—a pivotal ally the United States has sworn to protect. Pike learns that the Chinese have a devious plan to bait the island nation into all-out war by destabilizing the government and manipulating an artificial intelligence defense system. As the threat reaches a boiling point, Pike alone realizes that what they’re seeing isn’t actually real. A soldier who has always been trained to fight and win, Pike must now track down and neutralize the missing man who holds the key. With the help of Jennifer, the Taskforce team, and a brave Taiwanese intelligence agent, he races to prevent a catastrophic conflict from consuming a whole region of the world.

The Devil's Ransom Brad Taylor, 2023-01-24 A New York Times Bestseller! In the latest explosive thriller from New York Times bestselling author and former special forces officer Brad Taylor, Pike Logan races to stop an insidious attack orchestrated by a man who knows America’s most treasured secrets. Conducting a routine cover development trip to Tajikistan, Pike and Jennifer learn that Afghanistan has fallen, and there’s a man on the run. One that has done more for the United States in Afghanistan than anyone else. Pulled in to extract him, Pike collides headlong into a broader mystery: his covert company, along with every other entity in the Taskforce, has been hit with a ransomware attack, and there’s some connection between the Taliban and the hack. Given the order to track down the perpetrators, he has no idea that the problem set is much, much larger and more dangerous than a simple attack on his organization. That hack was just a test-run, and the real one is coming soon, engendered by a former NSA specialist in the U.S. government. A man who wants to return to the bipolar world of the Cold War, the turncoat has cloaked his attack behind hackers from Serbia and Russia, and

if successful, his target will alter the balance of power on the global stage. So far, the specialist has remained one step ahead of the Taskforce, but he has just made one massive mistake: hitting Pike Logan.

Invented by nature and genetically manipulated by man, a highly lethal virus has just fallen into the wrong hands. Angered by sanctions placed against its nuclear program, a rogue state is determined to release the virus. Ring of Fire Brad Taylor, 2017-12 Former Delta Force officer and New York Times bestselling author Brad Taylor delivers a relentlessly fast-paced, gripping thriller featuring Taskforce operators Pike Logan and Jennifer Cahill as they come face-to-face with an insidious threat to strike terror into the heart of America. Fifteen years ago, in order to win a contract in the Kingdom, a desperate defense contractor used a shell company to provide a bribe to a wealthy Saudi businessman. Now a powerful player in the defense industry, he panics when the Panama Papers burst onto the public scene. Providing insight into the illicit deeds of offshore financing, they could prove his undoing. To prevent the exposure of his illegal activities, he sets in motion a plan to interdict the next leak, but he is not the only one worried about spilled secrets. The data theft has left the Taskforce potentially vulnerable, leaving a trail that could compromise the unit. Back in the good graces of the new president, Pike Logan and Jennifer Cahill are ordered to interdict the next leak as well, in order to control the damage. Unbeknownst to either group, the Saudi has been using the shell company to fund terrorists all over the world, and he has a spectacular attack planned, coinciding with the fifteenth anniversary of 9/11. The information Pike and Jennifer uncover will put them on the trail of the imminent threat, but it's one that they might be unable to stop. Called Ring of Fire, it will cause unimaginable destruction across the United States, and it's already in motion. Pike Logan will be challenged like never before, and the ensuing chaos and terror will distract the Taskforce from a truth no one sees: The Panama Papers hold a secret more explosive than any attack, and Ring of Fire was only the beginning. The danger is far from over--]cProvided by publisher.

"It's an excellent read, and I greatly enjoyed it." —Nelson DeMille Pike Logan and the Taskforce were once the apex predators, an unrivaled hunting machine that decimated those out to harm the United States, but they may have met their match. While

Pike Logan and Jennifer Cahill prepare to join their team on a counter-terrorist mission in the triple frontier—the lawless tri-border region where Argentina, Brazil, and Paraguay meet—they are targeted in Charleston, South Carolina. A vicious explosion kills a friend, and the perpetrators have set it up to look like an accident. While the authorities believe this was not foul play, Pike knows the attack was meant for him. When he loses contact with the team in South America, Pike is convinced he and the Taskforce are under assault. His men are the closest thing to family that Pike has, which means he will do anything, even ignore direct orders to stand down, to find them. Pike and Jennifer head to Brazil to investigate their disappearance and run headlong into a crew of Russian assassins. Within days they are entangled in a byzantine scheme involving Brazilian politics and a cut-throat battle for control of offshore oil fields. Forged in combat, the Russians are the equal of anything the Taskforce has encountered before, but they make a mistake in attacking Pike’s team, because Pike has a couple of elite Israeli assassins of his own. And Pike will stop at nothing to protect his family.

After receiving intelligence about the threat in Sweden, the United States sends Pike Logan to identify Petrov’s target—only for him to get caught in the crossfire between Putin’s agents and the Wolves. When the smoke clears, Pike makes no effort to stop the Wolves on their ultimate mission, believing it just, until he discovers that their operation has unimaginable consequences. Hot on the trail of a North Korean looking to sell sensitive US intelligence to the Syrian regime, Pike Logan and the Taskforce stumble upon something much graver: the sale of a lethal substance called Red Mercury. Unbeknownst to the Taskforce, the Syrians plan to use the weapon of mass destruction against American and Kurdish forces, and blame the attack on terrorists, causing western nations to reassess their participation in the murky cauldron of the Syrian civil war. Meanwhile, North Korea has its own devastating agenda: a double-cross that will dwarf the attack in Syria even as it lays the blame on the Syrian government. Leveraging Switzerland's fame for secrecy and its vast network of military bunkers, now repurposed by private investors for the

clandestine storage of wealth, North Korea will use Red Mercury to devastate the West's ability to deliver further sanctions against the rogue regime. As the Taskforce begins to unravel the plot, a young refugee unwittingly holds the key to the conspiracy. Hunted across Europe for reasons she cannot fathom, she is the one person who can stop the attack--if she can live long enough for Pike and Jennifer to find her.

Operator Down Brad Taylor, 2018-12-31 • A New York Times Bestseller • Former Special Forces officer and New York Times bestselling author Brad Taylor delivers a heart-pounding thriller where Pike Logan's search for a Mossad agent and ally puts him on a collision course with a ruthless military coup in Africa—and tests his loyalties to the Taskforce. It was supposed to be a simple mission. Nothing more than assessing whether a merchant in the fabled Israeli Diamond Exchange was involved in a scheme that could potentially embarrass the state of Israel. But nothing is ever simple in the world of intelligence, as Aaron Bergman—a former leader of an elite direct action team under the Mossad—should have known. Executing the operation as a contractor, a cutout that gave the State of Israel plausible deniability, he disappears without a trace. Pike Logan and his team know none of this, but he's tracking an American arms dealer in Tel Aviv who may—or may not—be attempting to sell sensitive nuclear weapons components to the highest bidder. When Pike's team breaks up an attempt at killing Shoshana, Aaron's partner, they stumble upon much more than they expected—a concerted conspiracy to topple a democratic African country. Beginning to untangle a web that extends through both the American and Israeli intelligence community, Pike is forced to choose between his Israeli friends and his Taskforce mission, even as the coup begins. But Aaron's disappearance is the one mistake the plotters made. Because Shoshana is the greatest killing machine the Mossad has ever produced, and she will stop at nothing to help Aaron, even if it means killing Pike Logan.

Black Flag Brad Taylor, 2013-11-19 In this adrenaline-fueled short story from New York Times bestselling author Brad Taylor, Pike Logan and his fellow Taskforce operators face a team of ruthless modern-day pirates with a devious plan that leaves them fighting for their very survival. Their goal is to learn more about Grolier Recovery Services, the archaeological research agency that the Taskforce team uses as sophisticated cover for their work. But when Knuckles accepts a job to find missing treasure from the notorious pirate Edward Teach, better known as Blackbeard, the whole team is put to the test, because their new employers have a very different agenda, one that leaves members of the Taskforce at the mercy of real pirates determined to get their hands on a shipment of precious contraband at any cost. Pike Logan understands the desire, but also the danger. Brought in to eliminate the risk, he's now forced to choose between his friend and the administration he's sworn to protect.
