Burn the Business Plan Carl J. Schramm, 2018-01-16 Business startup advice from the former president of the Ewing Marion Kaufmann Foundation and cofounder of Global Entrepreneurship Week and StartUp America, this “thoughtful study of ‘how businesses really start, grow, and prosper’...dispels quite a few business myths along the way” (Publishers Weekly). Carl Schramm, the man described by The Economist as “The Evangelist of Entrepreneurship,” has written a myth-busting guide packed with tools and techniques to help you get your big idea off the ground. Schramm believes that entrepreneurship has been misrepresented by the media, business books, university programs, and MBA courses. For example, despite the emphasis on the business plan in most business schools, some of the most successful companies in history—Apple, Microsoft, Google, Facebook, and hundreds of others—achieved success before they ever had a business plan. Burn the Business Plan punctures the myth of the cool, tech-savvy twenty-something entrepreneur with nothing to lose and venture capital to burn. In fact most people who start businesses are juggling careers and mortgages just like you. The average entrepreneur is actually thirty-nine years old, and the success rate of entrepreneurs over forty is five times higher than that of those under age thirty. Entrepreneurs who come out of the corporate world often have discovered a need for a product or service and have valuable contacts to help them get started. Filled with stories of successful entrepreneurs who drew on real-life experience rather than academic coursework, Burn the Business Plan is the guide to starting and running a business that will actually work for the rest of us.

Am I Crazy? Chad Prather, 2021-10-12 The World needs Chad Prather more than ever. He's a throwback to a saner and more fun-loving America. His rants are OUR rants. — Charlie Kirk Chad Prather — “a modern-day Will Rogers” — is just your friendly neighborhood cowboy philosopher, gazing into the sweet tea leaves at the bottom of his cowboy hat, pondering a most fundamental question: “Am I crazy? Or is the world crazy...?” Chad finds life amusing, baffling, sometimes heartwarming, and downright interesting, and wants to share personal stories and witty observations on the hasty growth of insanity within the folds of society, and inspire critical thinking about the state of our modern culture. In this series of humorous essays — reminiscent of the rants he is famous for doing from his truck in Texas — Chad takes on all the problems

he has with the modern age, and also talks about some of the problems that we have with each other. Problems with kids, problems with spouses, problems with our bosses at work, and of course problems with all those other jackwagons we work with. What are some of the basic things you need to know if you're going to survive marriage and parenthood? Whatever happened to decency, hard work, and a sharing of the basic values that made us great in the first place? When did it become unfashionable to believe in God, to go to church on Sunday, or to send our "thoughts and prayers" toward those having a difficult time? When did it become child abuse to spank your kids, instead of child abuse to avoid it? Why do we have such visceral reactions to politics when — by and large — we know so little about how it actually works? When is social media going to finally stop messing around and just bring the full-on possession? And why is it that, as we march further and further along the road of progress — growing our collective knowledge and technological means of dealing with life along the way — we seem to be regressing socially at an equally break-neck pace? AM I CRAZY?: An Unapologetic Patriot Takes on the Insanity of Today's Woke World explores human misbehavior and stupidity in all its naked splendor with laugh-out-loud humor. BESA Pertef Bylykbashi, 2020-03-19 BESA recounts my life, beginning as a young boy of a large, happy three-generation family living together in southern Albania. The Bylykbashi's were prosperous land owners and store owners, but when Enver Hoxha and his Communist regime muscled their way into power, that idyllic life quickly fell apart for my family, my village, and my country at large. My story—sometimes horrible, sometimes hilarious, and sometimes heartrending—gives a factual account of the survival tactics I invented as a boy to stay alive under the communist regime and the survival tactics I used as a new soldier in the U.S. Army stationed in Fort Jackson, South Carolina, armed only with an Albanian-English dictionary.

BESA spans from my childhood to present day, touching on some personal aspects of life with my wife and children and sharing the steps I took to become a successful businessman. It is a story of promises made to my mother the night before I planned to escape from the labor camp and my BESA given that I would never stop fighting to free my family and their memories from the bonds of communism—a fight that continues even today. I know you will enjoy BESA! It has many “life’s lessons” that could be an inspiration to anyone, from the age of ten to ninety-nine, from any culture, race ethnicity, religion, and walk of life. It gives a true understanding of the words honor, nobility, and loyalty—the true meaning of BESA!

Built from Scratch Bernie Marcus, Arthur Blank, Bob Andelman, 2019-08-20 One of the greatest entrepreneurial success stories of the past twenty years When a friend told Bernie Marcus and Arthur Blank that “you’ve just been hit in the ass by a golden horseshoe,” they thought he was crazy. After all, both had just been fired. What the friend, Ken Langone, meant was that they now had the opportunity to create the kind of wide-open warehouse store that would help spark a consumer revolution through low prices, excellent customer service, and wide availability of products. *Built from Scratch* is the story of how two incredibly determined and creative people—and their associates—built a business from nothing to 761 stores and \$30 billion in sales in a mere twenty years. *Built from Scratch* tells many colorful stories associated with The Home Depot’s founding and meteoric rise; shows that a company can be a tough, growth-oriented competitor and still maintain a high sense of responsibility to the community; and provides great lessons useful to people in any business, from start-ups to the Fortune 500.

The Minds of Marginalized Black Men Alford A. Young, 2006-02-05 While we hear much about the culture of poverty that keeps poor black men poor, we know little about how such men understand their social position and relationship to the American dream. Moving beyond stereotypes, this book examines how twenty-six poverty-stricken African American men from Chicago view their prospects for getting ahead. It documents their definitions of good jobs and the good life--and their beliefs about whether and how these can be attained. In its pages, we meet men who think seriously about work, family, and community and whose differing experiences shape their views of their social world. Based on intensive interviews, the book reveals how these men have experienced varying degrees of exposure to more-privileged Americans--differences that ground their understandings of how racism and socioeconomic inequality determine their life chances. The poorest and most socially isolated are, perhaps surprisingly, most likely to believe that individuals can improve their own lot. By contrast, men who regularly leave their neighborhood tend to have a wider range of opportunities but also have met with more racism, hostility, and institutional obstacles--making them less likely to believe in the American Dream. Demonstrating how these men interpret their social world, this book seeks to de-pathologize them without ignoring their experiences with chronic unemployment, prison, and substance abuse. It shows how the men draw upon such experiences as they make meaning of the

complex circumstances in which they strive to succeed.

In nineteen thoughtful and engaging essays and stories, You and I Eat the Same explores the ways in which cooking and eating connect us across cultural and political borders, making the case that we should think about cuisine as a collective human effort in which we all benefit from the movement of people, ingredients, and ideas. An awful lot of attention is paid to the differences and distinctions between us, especially when it comes to food. But the truth is that food is that rare thing that connects all people, slipping past real and imaginary barriers to unify humanity through deliciousness. Don't believe it?
