**Santos y beatos de Toledo** Luis Moreno Nieto,2003

**The Archaeology of the Spanish Civil War** Alfredo González-Ruibal,2020-02-25 The Archaeology of the Spanish Civil War offers the first comprehensive account of the Spanish Civil War from an archaeological perspective, providing an alternative narrative on one of the most important conflicts of the twentieth century, widely seen as a prelude to the Second World War. Between 1936 and 1939, totalitarianism and democracy, fascism and revolution clashed in Spain, while the latest military technologies were being tested, including strategic bombing and combined arms warfare, and violence against civilians became widespread. Archaeology, however, complicates the picture as it brings forgotten actors into play: obsolete weapons, vernacular architecture, ancient structures (from Iron Age hillforts to sheepfolds), peasant traditions, and makeshift arms. By looking at these things, another story of the war unfolds, one that pays more attention to intimate experiences and anonymous individuals. Archaeology also helps to clarify battles, which were often chaotic and only partially documented, and to understand better the patterns of political violence, whose effects were literally buried for over 70 years. The narrative starts with the coup against the Second Spanish Republic on 18 July 1936, follows the massacres and battles that marked the path of the war, and ends in the early 1950s, when the last forced labor camps were closed and the anti-Francoist guerrillas suppressed. The book draws on 20 years of research to bring together perspectives from battlefield archaeology, archaeologies of internment, and forensics. It will be of interest to anybody interested in historical and contemporary archaeology, human rights violations, modern military history, and negative heritage.

*Cuenca* Julio Larrañaga Mendía,1929

New Approaches to the Archaeology of Beekeeping David Wallace-Hare,2022-02-17 17 papers take a holistic view of beekeeping archaeology (including honey, wax, associated products, hive construction, and trade) in one large interconnected geographic region, the Mediterranean, central Europe, and the Atlantic Façade. The book serves as a handbook for current and future researchers considering the archaeology of beekeeping.

*Vías de comunicación romanas en Castilla-La Mancha* Gregorio Carrasco Serrano,2016-06-22 En la presente obra se lleva a cabo un estudio de las comunicaciones romanas en el territorio de Castilla-La Mancha, teniendo en cuenta las últimas investigaciones al respecto llevadas a cabo. Así pues, es objeto de análisis la viaria de la provincia de Albacete, así como del

ámbito territorial de Ciudad Real y de Toledo. Igualmente se realiza un estado de la cuestión de las comunicaciones romanas de las provincias de Cuenca y Guadalajara. También se presta atención a la circulación monetaria y al comercio del lapis specularis en relación a las vías romanas del territorio, contemplándose asimismo aspectos determinantes de la red viaria como son los miliarios y los puentes romanos de este ámbito de la Meseta meridional de Hispania.

**Economía romana en Castilla-La Mancha** Gregorio Carrasco Serrano, 2020-03-30 En esta obra se abordan diversos aspectos relativos a la economía romana en el territorio de la Meseta sur de Hispania, a la luz de las últimas investigaciones llevadas a cabo al respecto. Así pues, es objeto de estudio la economía romana en la provincia de Ciudad Real, y la circulación monetaria en el ámbito provincial de Albacete, así como el tráfico comercial de la ciudad de Segóbriga, y el paisaje agrario romano de la provincia de Guadalajara. También se presta atención a los intercambios y relaciones entre la Meseta superior y la Meseta meridional, así como a los talleres y artesanos de escultura romana, y las producciones musivas, teniéndose en cuenta igualmente aspectos tan destacables como el comercio cerámico, la sal en época romana, y la tanminería del lapis specularis en estos ámbitos meridionales de la Meseta.

**Amphorae from the Kops Plateau (Nijmegen): trade and supply to the Lower-Rhineland from the Augustan period to AD 69/70** Cèsar Carreras, Joost van den Berg, 2017-02-13 The amphorae from Kops Plateau represent a singular example of Roman military supply in northern Europe at a very early date. Their analysis sheds light on trading routes in the Atlantic regions, and from Gaul to Germany.

The Human Factor Alejandro Sinner, Cèsar Carreras, Pieter Houten, 2024-05-10 The Human Factor establishes a foundation for the study of ancient demography in the Iberian Peninsula, focusing on its largest province, Hispania Citerior/Tarragonensis. The authors take a multidisciplinary approach, compiling archaeological, epigraphic, architectonic, osteological, and genetic datasets. This comprehensive and detailed study of a single province is necessary to generate accurate demographic estimates and to compare it with datasets from other regions and historical periods. By examining the province of Hispania Citerior/Tarragonensis in depth, the authors provide a detailed understanding of demographic patterns, urbanism, and urbanization rates over time, and link them with the social, cultural, and economic factors that affected the Iberian Peninsula and the Western Mediterranean from the fourth century BC until the end of the Roman period. For instance, population size was a significant indicator of economic growth and performance, and the distribution of people between urban and rural areas played a vital role in the negotiation of collective identities. Additionally, human mobility promoted cultural change and mediated information and technological flows. This is the first comprehensive, state-of-the-art demographic analysis of the Iberian Peninsula from the Iron Age down to the end of the Roman period, and the authors' integration and interpretation of data provide cutting-edge research and methodology, and fill a gap in the scholarly literature, allowing for a more nuanced understanding of the ancient Mediterranean.

*Roman Amphora Contents: Reflecting on the Maritime Trade of Foodstuffs in Antiquity (In honour of Miguel Beltrán Lloris)* Dario Bernal-Casasola,Michel Bonifay,Alessandra Pecci,Victoria Leitch,2021-11-04 Presents the results of the RACIIC International Congress (Roman Amphora Contents International Interactive Conference, Cádiz, 2015), dedicated to the distinguished Spanish amorphologist Miguel Beltrán Lloris. This volume aims to reflect on the current state of knowledge about the palaeocontents of Roman amphorae.

**La cumbre urbana, de las Carmelitas Descalzas a la casa del Corregidor** Pedro Miguel Ibáñez,2021-04-30 El libro La cumbre urbana, de las Carmelitas Descalzas a la casa del Corregidor es el segundo volumen de la serie Cuenca, ciudad barroca, editada en colaboración por el Consorcio de la Ciudad de Cuenca y la Universidad de Castilla-La Mancha. Prosigue pues los objetivos propuestos en el tomo anterior. Recoge lo esencial de la historiografía precedente, identifica problemas no resueltos y añade una visión personal de los mismos, adentrándose en parcelas del conocimiento no tratadas hasta la fecha. Atentos a la complejidad del fenómeno arquitectónico, se incluyen aquí los aspectos de carácter estructural apenas tocados en la literatura especializada. Estos aspectos pueden alcanzar el mismo interés que los puramente formales o espaciales, y en una ciudad de topografía tan difícil como Cuenca constituyen un valor añadido. Sucede lo propio con los planos de los edificios, imprescindibles en el análisis. Cuantas más cosas sabemos de un tema, más conscientes somos de las que

ignoramos. Poco a poco vamos conociendo las arquitecturas de Cuenca, pero queda mucho por hacer en el futuro. Poco a poco vamos conociendo las arquitecturas de Cuenca, pero queda mucho por hacer en el futuro. Cualquier publicación que pretenda ser seria debe aportar novedades a ese saber, conscientes en todo momento del que el paso del tiempo las irá perfeccionando. Nuestro deseo es que hayamos sido capaces de proyectar una nueva mirada sobre la arquitectura barroca conquense.

**La Meseta sur de Hispania en Época Romana Altoimperial** Gregorio Carrasco Serrano, En esta obra se abordan diversos aspectos relativos al territorio de la Meseta sur de Hispania en época romana altoimperial, a la luz de las últimas investigaciones llevadas a cabo al respecto. Así pues, es objeto de estudio el territorio de la provincia de Ciudad Real en el período altoimperial, así como el ámbito provincial de Albacete. También se analiza la municipalización flavia en la provincia de Toledo, y la municipalización e integración cívica en época de Augusto en relación a las ciudades romanas de Valeria, Ercavica y Segobriga. Igualmente se aborda el ámbito del curso alto del Tajo y Tajuña durante el Alto Imperio, y la ruralización del poblamiento romano en esta misma etapa en la comarca de Molina de Aragón. Asimismo es objeto de tratamiento los ciclos dinásticos julio-claudios en las ciudades romanas de Castilla-La Mancha, así como las explotaciones auríferas de los Montes de Toledo en época altoimperial; se contemplan además otros apartados tan destacables como la ciudad de Complutum durante los siglos I y II d.C., las tabernae del foro de Segobriga, o la mujer en la documentación epigráfica de Alto Imperio en la Meseta meridional.

Volver a las trincheras Alfredo González Ruibal,2016-01-21 Volver a las trincheras propone una visión radicalmente distinta de la Guerra Civil española y la inmediata posguerra. No porque llegue a conclusiones necesariamente diferentes a las de los historiadores, sino porque utiliza una materia prima inédita: latas, casquillos, trincheras y fosas. Estos son los documentos con los que se construyen las historias que aquí se narran. Unos documentos que no hablan solo de batallas y asesinatos, sino también de experiencias cotidianas: de terror, esperanza, amor y memoria. Se trata de las vidas (y muertes) de personas anónimas enfrentadas a circunstancias excepcionales. Este libro cuenta una historia de la guerra que nos llevará desde las trincheras de la Ciudad Universitaria en Madrid, en noviembre de 1936, hasta el destacamento penal de Bustarviejo, cerrado en 1952, muchos años después de que se escuchara el último tiro en los frentes.

## **Casas De Lujn Cuenca** Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has been more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable.
