**Christopher Caudwell**

**La agonía de la cultura burguesa** Christopher Caudwell,2024-04-29 La última vez que fue visto estaba disparando su ametralladora, cubriendo la retirada de su sección desde un monte a punto de ser tomado por los moros. Así fue que se le quitó la vida a este hombre brillante y generoso antes de que cumpliera los treinta años. Pronto los marxistas ingleses empezaron a darse cuenta de la magnitud de la pérdida. Leyeron los libros de Caudwell con asombro y descubrieron que algo precioso les había sido quitado, aún antes de haberlo conocido. Helena Sheehan Con Caudwell aprendemos que las formas de la economía (burguesa) bajo las que vivimos nos quitan algo más que tiempo, sacrificio, sangre, sudor y lágrimas. El capitalismo nos quita las relaciones afectivas, desde el amor de pareja hasta la amistad. Por la vía de la atomización, nos convertimos en acérrimos defensores de los intereses individuales; por la vía de la desconfianza, nos convertimos en onanistas del sentimiento; por la vía de la explotación, perdemos el tiempo, el esfuerzo y las ganas de transitar la amistad, de desarrollar el compañerismo y acompañar a nuestros hijos. En suma, descubrimos que se nos quita la posibilidad de ser felices y de disfrutar de la vida. Algo que no podemos permitir. Del prólogo de Rosana López Rodríguez

**La agonía de Proteo** Eduardo Nicol,1981

Poética mortis Humberto González Galván,2004-01-01 Comprender y explicar entran aquí en una compleja dialéctica ontológico-epistémica que repercute a todos los niveles posibles: el concepto se pulsa en cada una de sus aplicaciones a la par que la imagen se volatiza en idea.

**Populism and Passions** Paolo Cossarini,Fernando Vallespín,2019-05-29 There is a consensus that right, and left-wing populism is on the rise on both sides of the Atlantic, from Donald Trump in the United States, to Spain's leftist Podemos. These may utilize different kinds of populist mobilizations but the fact remains that elite and mass opinion is fuelling a populist backlash. In Populism and Passions, twelve scholars engage with discourse analysis, democratic theory, and post structural political thought to study the political logic of passion for contemporary populism. Together these interdisciplinary essays demonstrate what emotional engagement implies for the spheres of politics and the social, and how it governs and mobilizes individuals. The volume presents: Theoretical and empirical implications for political analysis; Chapters on the current rise of populism, both right and left-wing trends, their different ideological features, and their relationship with the logic of passion; Theoretical implications for the future study of populism and democratic legitimacy. A timely analysis of this

political phenomena in contemporary Western democracies, Populism and Passions is ideal for students and scholars in political theory, comparative politics, social theory, critical theory, cultural studies, and global studies.

**The Rhetoric of Topics and Forms** Gianna Zocco,2021-01-18 The fourth volume of the collected papers of the ICLA congress "The Many Languages of Comparative Literature" includes articles that study thematic and formal elements of literary texts. Although the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions here treat them as internally connected. While theoretical considerations inform many of the readings, the main interest of most articles can be described as rhetorical (in the widest sense) – given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of *topoi*, which were originally viewed as the 'places' where certain arguments could be found, but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of 'undeclared thematology', which not only reflects the persistence of the charge of positivism, but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology, but provides contributions to currently flourishing research areas, among them literary multilingualism, literature and emotions, and ecocriticism.

**Puteros** Beatriz Ranea Triviño,2023-12-19 Este libro aborda el análisis de la prostitución, uno de los asuntos más controvertidos tanto dentro como fuera del feminismo, a través de una de sus caras más invisibles: los puteros. Una invisibilidad y un silencio que resultan elocuentes en investigaciones, debates o medios de comunicación, en los que ha prevalecido una tendencia a identificar la prostitución únicamente con las mujeres, como si encarnasen todo el sistema, y a ocultar y tolerar a quienes lo perpetúan. Sobre ellas han recaído el estigma social y los estereotipos, acaparando buena parte de las discusiones en torno a la libertad y el consentimiento sexual, la victimización o la explotación. ¿Cómo explicar la invisibilidad y tolerancia hacia los puteros? ¿Por qué rara vez se les nombra? ¿Por qué hay hombres que pagan por sexo? ¿A qué se debe que esta demanda sea mayoritariamente masculina? ¿Cuál es la relación entre prostitución y masculinidad? Ranea presenta una minuciosa disección de la cultura y las prácticas puteras, tras entrevistar a mujeres en contextos de prostitución, puteros y algún proxeneta. Una interpelación crítica que busca contribuir a reescribir la definición feminista y colectiva de lo que es la prostitución, y del significado que esta tiene para los hombres dentro del entramado de alianzas entre capitalismo, patriarcado y racismo.

**The Ego and the Id** Fred Busch,Natacha Delgado,2023-07-14 The Ego and the Id: 100 Years Later revisits Freud's classic 1923 essay, which developed key psychoanalytic concepts and presented a radical revision of his earlier theory. International

contributors explore the themes of this remarkable work from their own perspective, with novel and surprising results. There are mysteries uncovered, questions raised about the validity of Freud's perspective, problems in psychoanalytic technique based on those clinging to Freud's earlier model of the curative process in psychoanalysis, cybernetics as a way of evaluating Freud's model, and many other gems. With contributors highlighting the significance of the essay and offering critiques based upon new understanding gathered over the last century, *The Ego and the Id: 100 Years Later* offers a fresh, international perspective on this classic paper. This book will be essential reading for psychoanalysts in practice and in training and of great interest to scholars of psychoanalytic studies.

*La revuelta íntima del corazón* Nacho Bañeras, 2022-07-21 En una sociedad acelerada e individualista, este libro nos propone una pausa, una mirada hacia la belleza, un viaje al corazón de la filosofía; destacando la importancia de encontrarle un sentido profundo a la vida ¿Dónde llevar la atención? A la actitud, que es todo y lo único que verdaderamente tenemos. Una buena actitud nos lleva a entender cómo vemos el mundo y cómo lo queremos vivir. A este proceso lo llamamos madurar: un viaje entre lo que queremos, lo que somos y lo que nos vamos encontrando por el camino. Aquello a lo que llamamos filosofía es nuestra vida, nuestra capacidad de sentir, nuestro íntimo anhelo, la invitación a convertirnos en sabios en el amor, en el cuidado de nosotros mismos, los otros, el mundo y la vida. Este anhelo lo podemos avivar. Aquí encontramos un hogar y una calidez que nos acompañan, que nos dan sentido y que nos cuidan. Filósofos/as somos todos/as.

*Por Amor* Alaleh Nejafian, 2024-10-01 Quienes hayan construido un vínculo que haya permanecido en el tiempo, un vínculo que haya soportado, en el sentido más positivo de la palabra, saben que hay que atravesar determinados conflictos. Quienes hayan compartido un tiempo suficiente con otro donde la ilusión, la proyección y el amor marcaron el camino, saben que el final del amor es el desmoronamiento. Como un rompecabezas que se desarma y convierte en un montón de piezas mal recortadas. Las personas solemos tolerar mal lo incierto, no podemos ver el rompecabezas roto, necesitamos enmarcar rápidamente los sucesos de nuestras vidas, acallar el dolor y sacar conclusiones. Por amor les habla a todas aquellas personas que se sienten solas, frustradas, decepcionadas o dolidas y, a la vez, resisten al cinismo con la fe de quienes entienden que, en definitiva, las alegrías y los dolores tienen algún sentido si son compartidos. Este libro no toma el atajo de la solución fácil, aunque costosa, del sálvese quien pueda del individualismo. Este libro habla de todas las dificultades actuales de sostenerse en vínculo, no para salir huyendo ni demonizar al otro, sino para retomar una pregunta central de estos tiempos atravesados por la deconstrucción del amor romántico y patriarcal: ¿cómo se construye un vínculo? ¿Por qué pasamos de soportarlo todo a no soportar nada?

*Graffiti Y Filozofía Ii* Peñaloza Jesus, 2024-03-01 Ensayo sobre filosofía y el origen de la escritura graffiti en Buenos Aires de Jesús Peñaloza "Espero acepten este modesto pero atrevido libro, ya que en esta oportunidad no solo hablaremos de graffiti, sino también de danza y música, ética y moral, performance y pigmento, aerosol y pincel, oriente y occidente.

Tampoco espero crear un libro pasivo sino todo lo contrario: deberán escanear muchos códigos QR durante su lectura para ver videos e imágenes que acompañan cada una de nuestras argumentaciones.”

**Unamuno êntimo** Luis Frayle Delgado,2018-04-02 Vida, amor y muerte es la trilogía (tres palabras) que condensan la temática de la obra de Don Miguel de Unamuno. Mi investigación sobre el pensador más representativo de la Universidad de Salamanca en la Edad Contemporánea y uno de los pocos fundamentales del siglo XX en España, se ha fijado siempre, con muy contadas excepciones, en esta temática que es la que nos lleva más al fondo de la personalidad del hombre Unamuno y por tanto del filósofo. Creo que a Unamuno lo estamos olvidando como gran filósofo, pensador incansable sobre los temas más propios y más serios y profundos de la humanidad, de la humanidad concreta, del hombre. Aquí quiero reivindicarlo como uno de los grandes pensadores y escritores en español.

**Variaciones** Raquel Olea,2019 Raquel Olea nos presenta un libro compuesto por escritos generados en distintos tiempos y con distinto destino -ponencias, charlas y conferencias, prólogos de libros, revistas de distinta índole- que esta vez ha vuelto a revisar y materializar en una publicación que guarda textos cuyo recorrido, tras su origen, han logrado dejar huellas en la historia política de nuestro país o que guardan íntima relación con ella.

**Farabeuf o la crónica de un instante** Salvador Elizondo,2022-01-13 El escritor mexicano Salvador Elizondo es uno de los autores más representativos de la novela de la escritura: concepción de la obra narrativa como experiencia autorreferencial, ficción volcada hacia el propio acto de escribir. Esta obra constituye un ejemplo extraordinario de esta narrativa.

*Collected Papers on Inner Speech* Pablo Fossa,Matías Barros,2024-04-01 Inner Speech is an increasingly relevant object of study in psychology research. In recent decades, interest in the study of inner language has even transcended the psychological sciences and has become an interdisciplinary and transdisciplinary study phenomenon. Philosophers, anthropologists, psychologists, educators, and neuroscientists have joined efforts to learn more about this everyday experience inherent in human nature. Specifically, in psychology, the study of Inner Speech has been taken up by cognitive psychologists, cultural psychologists, developmental psychologists, clinical psychologists, and educational psychologists who have ventured into the study of this intimate experience of talking to ourselves in silence. This book is a compilation of work on Inner Speech that has been carried out by the research team of the Cognition & Culture Laboratory (C&C Lab) of the Institute of SocioEmotional Well-being (IBEM) of the Faculty of Psychology of the Universidad del Desarrollo, Chile, for more than a decade. Throughout this book, readers will be able to approach the phenomenon of Inner Speech both at a theoretical-conceptual level and will also be able to learn about some strategies for its empirical exploration. It's worth mentioning that the works presented in this book constitute only a personal collection of theoretical elaborations and methodological approaches to Inner speech, and not the full spectrum of currently existing research on Inner Speech. The objective of this

compilation of articles is to position our line of research and present, in an organized manner, the evolution of our exploration of the phenomenon to the international research program on Inner Speech. More than closing a stage, our mission is to show the progress that we have developed for more than a decade regarding the study of Inner Speech, hoping in this way to open new questions, dialogues and methodological challenges in the international academic community.

**Intimacy** María Elisa Molina, Carlos Cornejo, Giuseppina Marsico, Jaan Valsiner, 2022-04-01 The concept of intimacy puts forth important challenges to contemporary cultural psychology. Intimacy refers to a felt experience of interiority that although is intuitively comprehensible, does not have rigorously defined limits. Intimacy can refer to a content, an object, a person, ownership, or even a part of one's own body. A potentially problematic issue for cultural psychology is that acknowledging intimacy seems to bound the Self to areas disjointed from the social sphere. In a globalized world, we witness a developmental process where social life becomes sectioned, where people are involved in an identity search by foregrounding certain social roles. With this backdrop in mind, people redefine and rebuild their intimacy spaces and the ways they roam from these to the public and collective realm. Exploring the current historical situation leads us to consider intimacy as culture in the making; certainly, in the way it manifests itself, but particularly in how we approach and understand it. The lived (experienced) dimension of intimacy becomes truly important, since it casts new light on what we mean by intimacy in different spheres of the self's life, as well as life with others.

**Algo M S Que Mal** Marisa Lorenzo, 2012-10 Algo más que mal nos introduce en el difícil mundo de la escritura y de los distintos caminos que conducen al éxito o al fracaso. La historia nos muestra las vivencias de un escritor que desea demostrar a su esposa que puede llegar al éxito en el complicado campo de la literatura. La acción se desarrolla con una inusitada frescura y transporta al lector con asombrosa facilidad al laberinto vital del protagonista.

El exotismo en las vanguardias artístico-literarias José Antonio González Alcantud, 1989

The Unconscious in Neuroscience and Psychoanalysis Marco Máximo Balzarini, 2024-04-22 The Unconscious in Neuroscience and Psychoanalysis presents a unique and provocative approach to the assimilation of these two disciplines while offering a thorough assessment of the unconscious from a neuropsychoanalytic and Lacanian perspective. Marco Máximo Balzarini offers a comprehensive overview of Freud's theory of the unconscious and its importance within psychoanalysis, before looking to how it has been integrated into contemporary neuropsychoanalytic work. Paying close attention to the field-defining work of neuropsychoanalysts such as Mark Solms, Francois Ansermet, and Pierre Magistretti, Balzarini considers the dichotomy between neuroscience and psychoanalysis, and the omnipresent debate on if and how they should be integrated when working with the unconscious. Throughout, he provides a fascinating Lacanian interpretation, showing how the work of Lacan can offer a new way of developing the dialogue and understanding around this vital topic. Part of the Routledge Neuropsychoanalysis Series, this book will be of interest to any psychoanalyst seeking to explore the

foundations of the relationship between neuropsychoanalytic and Lacanian ideas in their clinical and theoretical work.
