Músicas migrantes Miguel Olmos Aguilera, 2014-11-24 En esta época de intensa movilidad mujeres y hombres, objetos sonoros y melodías, se agitan incesantemente en un mundo contemporáneo productor de aquella entropía denunciada por Lévi- Strauss. Las diferentes prácticas cotidianas son trastocadas por la impronta de una modernidad sin límites, en cuyos espacios de tránsito se violan y reconfiguran los más elementales principios espirituales de la continuidad cultural, aquellos que procuran el sosiego de los hábitos y costumbres de nuestra sociedad. Sin embargo, en medio de este cúmulo entropizador de objetos y sujetos volátiles y migrantes, encontramos la música como uno de los artefactos culturales que, además, por su naturaleza estética, exige un tratamiento hermenéutico de conocimiento especializado, muy distinto al frío análisis de las encuestas y mediciones que, sin ninguna consideración someten a la maquinaria estadística fenómenos humanos íntimamente ligados con las emociones y la memoria compartida. Este libro recoge trabajos de investigación musical sobre géneros musicales, mujeres y hombres migrantes que, en su peregrinar hacia otras tierras por los motivos más disimiles, se hacen acompañar de sus anhelos volcados en notas y frases musicales. Ellas y ellos son portadores de una cultura musical que, aún sin pesar en las maletas, tiene la gracia de fundamentar múltiples aspectos de sus modos de vida o de sus sueños en el deambular por regiones, fronteras, o por el insondable camino de sus vidas que deja huella en la historia, unas veces como melodía y otras como susurro.

San Juan Mixtepec Federico Besserer, Michael Kearney, 2006

Hacer comunidad Abbdel Camargo Martínez , 2021-11-15 Este libro es una aproximación socioantropológica al proceso de reconfiguración étnica de los grupos indígenas migrantes a partir de su asentamiento en la región fronteriza del valle de San Quintín y de la apropiación de propuestas religiosas distintas al catolicismo. Mediante un análisis procesual y con un lente etnográfico, el texto muestra las configuraciones multireligiosas que ocurren en la colonia Nuevo San Juan Copala. Ahí se han asentado los triquis provenientes de la región de Copala en la Mixteca oaxaqueña. También examina el desarrollo de un campo religioso basado en los atributos étnicos de sus pobladores. Estos procesos se han llevado a cabo a partir del surgimiento de territorios estratégicos en los que diversos mercados globales interactúan, y donde se observa que los pobladores residentes de las colonias de la región han implementado formas comunitarias novedosas. Desde que estos grupos se asentaron y consolidaron su arraigo en el valle, su identidad étnica y la reformulación de su pertenencia religiosa

se han manifestado como parte de las dimensiones políticas en su expresión de las demandas, en las relaciones laborales y en los modos de pertenencia. Las movilizaciones sociopolíticas de los trabajadores de San Quintín que presenciamos en 2015 exhiben la dimensión política de la reformulación comunal, y evidencian el rostro étnico de las luchas de los pueblos indígenas de México frente a los constreñimientos globales. El lector podrá conocer el proceso de reconfiguración de los territorios étnicos del país, así como el reconocimiento de los colonos indígenas con derechos civiles y laborales, que trasciende la representatividad política, la diferenciación étnica y la adscripción religiosa.
