The Bioarchaeology of Individuals Ann L.W. Stodder, Ann M. Palkovich, 2012-04-22 Spanning more than 4000 years of human history and focusing on individuals who lived between 3200 BC and the 19th century, the essays in this book examine the daily lives of nomads, warriors, artisans, farmers, and healers by constructing profiles of the lives of specific individuals whose remains were excavated from archaeological sites.

Germanic and Slavic Paganisms Kaarina Aitamurto, Ross Downing, 2024-12-12 Providing an intensive and up-to-date analysis of far-right, ethno-purist and nationalistic currents as well as the inclusive visions for social and ecological change, this book explores the complexities of contemporary Slavic and Germanic Paganisms. This timely volume re-evaluates what we know about contemporary Paganism, particularly addressing the social threat and impact of radicalism. In light of the war in Ukraine, the authors deconstruct heritage narratives that are at the heart of current geopolitical and nationalist social tensions in Central and Eastern Europe including the West versus East problem. With suggestions on how we can mitigate and overcome the potential security threats connected to radical forms of Paganisms, this book shows how minority groups are advancing solutions to global challenges. Exploring multiple perspectives through a diverse blend of contributors, this volume bridges the gap between academia, governmental institutions and Pagan communities, providing a rich resource for all parties. Highlighting broader religious and security issues, this volume is the first to consider the dialogue between ethno-exclusivist and inclusivist positioning within contemporary Slavic and Germanic Paganisms.

Adam's Curse Bryan Sykes, 2004 Examines the history and future of the Y chromosome and maintains that because it is unable to exchange genetic material or repair itself, the day will come when it will cease to exist.

Eclipse of Empires Patricia Jane Roylance, 2013-10 This book analyzes the nineteenth-century American fascination with what the author calls narratives of imperial eclipse, texts that depict the surpassing of one great civilization by another. The central claim in this book is that historical episodes of imperial eclipse - for example, Incan Peru yielding to Spain, or the Ojibway to the French - heightened the concerns of many American writers about specific intranational social problems plaguing the nation at the time: race, class, gender, religion, and economics.

Essential Orthopaedics E-Book Mark D. Miller, Jennifer Hart, John M. MacKnight, 2019-04-07 The vast majority of orthopaedic care takes place not in the orthopaedic surgeon's office or operating room but in various primary care settings.

Essential Orthopaedics, 2nd Edition, provides concise, practical guidance from noted authority Dr. Mark D. Miller, along with a stellar editorial team and numerous contributors from both orthopaedics and primary care. Using a templated, bulleted format, it delivers the information you need on diagnosis, management, and appropriate referrals for adult and pediatric patients. It's the perfect, everyday orthopaedic reference for primary care physicians, physician assistants, nurse practitioners, physical therapists, and athletic trainers in the clinic or training room. - Offers expert insight to help you confidently diagnose and treat sprains, fractures, arthritis and bursitis pain, and other musculoskeletal problems, or refer them when appropriate. - Covers topics of high importance in orthopaedic care: anatomy and terminology, radiologic evaluation of orthopaedic conditions, principles of fracture management, and special considerations for the obese, the elderly, athletes, those with comorbidities, and other patient populations. - Features 40 videos covering injections, physical examinations, common procedures, and more. - Includes 12 new chapters with current information on physical exam of the hip and pelvis, femoroacetabular impingement (FAI), athletic pubalgia, state-of-the-art surgical techniques, and new imaging information, particularly in the area of musculoskeletal ultrasound. - Provides new ICD-10 codes for common orthopaedic conditions. - Features diagnostic algorithms, specific steps for treatment, and full-color illustrations throughout.

Representations of the North in Victorian Travel Literature Dimitrios Kassis, 2015-02-05 Travel literature has always been associated with the construction of utopias which were founded on the idea of unknown lands. During their journeys in foreign lands, British travellers tended to formulate various critical opinions based on their background knowledge of the country visited. Their attempts to interpret other nations were often misinterpretations of the peoples in question as the Other. At the close of the eighteenth century, when Grand Tourism started to fade away and travelling became a mainstream activity for the middle-class Briton, travel writers attempted to identify with.

Essential Orthopaedics Mark D. Miller, Jennifer Adele Hart, John M. MacKnight, 2010-01-01 Noted authority Mark D. Miller, MD, together with a stellar editorial team and numerous contributors representing a breadth of specialty areas within orthopaedics and primary care, offers you the comprehensive, multidisciplinary insight you need to confidently diagnose and treat sprains, fractures, arthritis and bursitis pain, and other musculoskeletal problems, or refer them when appropriate. Videos on DVD demonstrate how to perform 29 joint injections, 7 common physical examinations, a variety of tests, and 6 splinting and casting procedures. Presents multidisciplinary coverage that provides authoritative orthopaedic guidance oriented towards the practical realities of primary care practice.

Valkyrie Jóhanna Katrín Friðriksdóttir, 2020-04-02 **LOONGLISTED FOR THE 2020 CUNDILL HISTORY PRIZE** Valkyries: the female supernatural beings that choose who dies and who lives on the battlefield. They protect some, but guide spears, arrows and sword blades into the bodies of others. Viking myths about valkyries attempt to elevate the banality of war – to make the pain and suffering, the lost limbs and deformities, the piles of lifeless bodies of young men, glorious and

worthwhile. Rather than their death being futile, it is their destiny and good fortune, determined by divine beings. The women in these stories take full part in the power struggles and upheavals in their communities, for better or worse. Drawing on the latest historical and archaeological evidence, Valkyrie introduces readers to the dramatic and fascinating texts recorded in medieval Iceland, a culture able to imagine women in all kinds of roles carrying power, not just in this world, but pulling the strings in the other-world, too. In the process, this fascinating book uncovers the reality behind the myths and legends to reveal the dynamic, diverse lives of Viking women.

Viking Fund Publications in Anthropology ,1974

Street Style in America Jennifer Grayer Moore,2017-08-18 A comprehensive resource that will prove invaluable to fashion historians, this book presents a detailed exploration of the breadth of visually arresting, consumer-driven styles that have emerged in America since the 20th century. What are the origins of highly specific denim fashions, such as bell bottoms, skinny jeans, and ripped jeans? How do mass media and popular culture influence today's street fashion? When did American fashion sensibilities shift from conformity as an ideal to youth-oriented standards where clothing could boldly express independence and self-expression? *Street Style in America: An Exploration* addresses questions like these and many others related to the historical and sociocultural context of street style, supplying both A-Z entries that document specific American street styles and illustrations with accompanying commentary. This book provides a detailed analysis of American street and subcultural styles, from the earliest example reaching back to the early 20th century to contemporary times. It reviews all aspects of dress that were part of a look, considering variations over time and connecting these innovations to fashionable dress practices that emerged in the wakes of these sartorial rebellions. The text presents detailed examinations of specific dress styles and also interrogates the manifold meanings of dress practices that break from the mainstream. This book is a comprehensive resource that will prove invaluable to fashion historians and provide fascinating reading for students and general audiences.
