Mariette and the Science of the Connoisseur in Eighteenth-Century Europe Kristel Smentek, 2017-07-05 Celebrated connoisseur, drawings collector, print dealer, book publisher and authority on the art of antiquity, Pierre-Jean Mariette (1694-1774) was a pivotal figure in the eighteenth-century European art world. Focusing on the trajectory of Mariette's career, this book examines the material practices and social networks through which connoisseurs forged the idea of art as an object of empirical and historical analysis. Drawing on significant unpublished archival material as well as on histories of science, publishing, collecting and display, this book shows how Mariette and his colleagues' practices of classification and interpretation of the graphic arts gave rise to new conceptions of artistic authorship and to a history of art that transcended the biographies of individual artists. To follow Mariette's career through the eighteenth century is to see that art was consolidated as a specialized category of intellectual inquiry-and that style emerged as its structuring analytic device-in the overlapping spaces of the collector's cabinet, the connoisseur's portfolio and the dealer's shop.

La Reconstruction en Europe Après la Première Et la Seconde Guerre Mondiale Et Le Rôle de la Conservation Des Monuments Historiques Luc Verpoest,2011 Living with History focuses on a particular aspect of heritage preservation in the twentieth century: destruction and postwar reconstruction in Belgium, France, Germany, Great Britain, and The Netherlands. This book establishes a status quaestionis for the historiography of wartime and postwar preservation, and sets these particular developments in preservation history in the context of the general evolution of architecture and urbanism. The authors investigate the specific role of conservationists and heritage institutions and administrations in the overall reconstruction and examine the part played by architects and planners in heritage preservation.
