Violence against Women in Families and Relationships Eve S. Buzawa,Evan Stark,2009-06-08 This comprehensive overview of domestic violence against women and children in America covers the services meant to combat it, the legal approaches to prosecuting it, the public's attitudes toward it, and the successes and failures of systems meant to address it. The fight to end domestic violence consists of community-based services for battered women, laws and policies to combat the problem, a broad spectrum of frequently-innovative programs to protect or otherwise support abused women and children, a dramatic shift in media portrayals of violence against women, and a growing public critique of unacceptable forms of power and control in relationships. These volumes offer another weapon in that battle. *Violence against Women in Families and Relationships* takes stock of all of the ways in which legislation, programs and services, and even public attitudes have impacted victims, offenders, and communities over the last few decades. Contributors pay special attention to how race,

class, and cultural differences affect the experience of abuse. They explore the efficacy of interventions, and they provide compelling real-life examples to illustrate issues and challenges. Our society has made an enormous investment in stopping abuse in families and relationships, but numerous questions still remain. Many of those questions are answered in these pages, as experts uncover the realities of domestic violence and the toll it takes on families, individuals, communities, and society at large.

The Disenfranchised Peggy Sapphire, Shirley Scott, 2016-12-05 *The Disenfranchised: Stories of Life and Grief When an Ex-Spouse Dies* offers an unprecedented anthology of never-before-published, first-person life histories by ex-spouses whose grief has endured as disenfranchised: socially unacknowledged, untold, and unrecognized. Each story of disenfranchised grief is fiercely honest and courageously made public. This anthology has no parallels in current texts, academic literature or mainstream publications. Contributors present personal histories, revealing that the dimensions of disenfranchised grief are as individual as the writers who have endured this neglected aspect of grief and bereavement. In many narratives, the healing power of their creative processes through art and poetry is further revealed. The anthology is compiled and edited by Peggy Sapphire, MS (Guidance and Counseling), a writer living in Vermont. Over the span of five years, through phone conversations and written communications, Ms. Sapphire established trusting relationships with the contributors, who, though choosing to submit their work, often struggled with reluctance, even dread, at revisiting previously private events in their lives and finally committing their stories to paper, and ultimately to publication. Each narrative is accompanied by a clinical commentary, written by Shirley Scott, MS, certified Thanatologist, which provides readers, whether academic, practitioner, student, or lay, with reflections on the issues and patterns of disenfranchised grief, as reflected by each narrative. Included in each commentary are bibliographic references for further and advanced study. The contributors represent an extraordinary range of professional achievements and academic credentials--well-published writers, poets, working artists, educators, academics, mental health practitioners, and health professionals.

Understanding Domestic Violence Rafael Art. Javier, William G. Herron, 2018-08-10 *Understanding Domestic Violence* not only highlights and reexamines the different challenges that we continue to face in effectively addressing issues of domestic violence but provides innovated approaches to interventions that are more in keeping with the complex nature of domestic violence. This book provides a comprehensive and multifaceted examination of conditions and factors involved in domestic violence, including psychological, sociocultural, sociopolitical, and socioeconomic issues. The authors look at domestic violence through the trauma lens and intersectionality to develop intervention strategies within that context. Statistics and clinical examples from the field highlight unique culturally-based issues related to domestic violence among Latino, African American, and Arab Muslim communities, issues with woman perpetrators, and violence in the LGBTQ community, to name a few. In the end, *Understanding Domestic Violence* offers opportunities for the reader to engage in

further discussion of the poignant issues discussed in the book, with the invitation to become part of the solution.

Framing the Victim Nancy Berns, 2004-01-01 This book unabashedly examines not only domestic violence, but also the larger picture of how politics and processes shape our responses to social problems. It also distinguishes serious research from media which promote entertainment, empowerment and drama. This book is a must read for anyone concerned about our understanding and response to social problems. Berns shows how victims of domestic violence are moulded to accord with the perspectives of the dominant media and how, as a result, they are falsely blamed for a crime committed by another person.

Grassroots Jennifer Baumgardner, Amy Richards, 2005-01-12 From the authors of *Manifesta*, an activism handbook that illustrates how to truly make the personal political. *Grassroots* is an activism handbook for social justice. Aimed at everyone from students to professionals, stay-at-home moms to artists, *Grassroots* answers the perennial question: What can I do? Whether you are concerned about the environment, human rights violations in Tibet, campus sexual assault policies, sweatshop labor, gay marriage, or the ongoing repercussions from 9-11, Jennifer Baumgardner and Amy Richards believe that we all have something to offer in the fight against injustice. Based on the authors' own experiences, and the stories of both the large number of activists they work with as well as the countless everyday people they have encountered over the years, *Grassroots* encourages people to move beyond the generic three (check writing, calling congresspeople, and volunteering) and make a difference with clear guidelines and models for activism. The authors draw heavily on individual stories as examples, inspiring readers to recognize the tools right in front of them--be it the office copier or the family living room--in order to make change. Activism is accessible to all, and *Grassroots* shows how anyone, no matter how much or little time they have to offer, can create a world that more clearly reflects their values.

The Rules of Contagion Adam Kucharski, 2020-07-07 One of the Best Books of 2020 — Financial Times One of the Most

2020 Books of 2020 — Washington Post One of the Best Science Books of 2020 — The Times of London One of the Best Science Books of 2020 — The Guardian From ideas and infections to financial crises and fake news, an utterly timely look at why the science of outbreaks is the science of modern life These days, whenever anything spreads, whether it's a YouTube fad or a political rumor, we say it went viral. But how does virality actually work? In *The Rules of Contagion*, epidemiologist Adam Kucharski explores topics including gun violence, online manipulation, and, of course, outbreaks of disease to show how much we get wrong about contagion, and how astonishing the real science is. Why did the president retweet a Mussolini quote as his own? Why do financial bubbles take off so quickly? Why are disinformation campaigns so effective? And what makes the emergence of new illnesses -- such as MERS, SARS, or the coronavirus disease COVID-19 -- so challenging? By uncovering the crucial factors driving outbreaks, we can see how things really spread -- and what we can do about it. Whether you are an author seeking an audience, a defender of truth, or simply someone interested in human social behavior, *The Rules of Contagion* is an essential guide to modern life.

Photography as Activism Michelle Bogue, 2012-11-12 You want to look through the lens of your camera and change the world. You want to capture powerful moments in one click that will impact the minds of other people. Photographic images are one of the most popular tools used to advocate for social and environmental awareness. This can be as close to home as drug use, prostitution, or pollution or as far away as famine, war, and the plight of refugees and migrant workers. One well-known example of an activist photographer would be landscape photographer Ansel Adams, who trudged to Washington with stunning images of the American west to advocate protecting these areas. His images and testimony were instrumental in creating the National Park System and garnering specific protection for Yellowstone National Park. More recently Robert Glenn Ketchum's images of Alaska's Arctic National Wildlife Refuge raised awareness of why this area should be protected. Nigel Barker's seal photographs advocates against seal clubbing. What is your cause and how can you use your camera to make the world a better place? This book provides a comprehensive theory of, and history of, photography as activism. It also includes interviews with contemporary photographers. It is a call to action for young photographers to become activists, a primer of sorts, with advice for how to work with NGOs and non-profits, how to work safely in conflict zones and with suggestions for distribution on websites, blogs, and interactive agencies.

Some Men Michael A. Messner, Max A. Greenberg, Tal Peretz, 2015 What does it mean for men to join with women as allies in preventing sexual assault and domestic violence? Based on life history interviews with men and women anti-violence activists aged 22 to 70, *Some Men* explores the strains and tensions of men's work as feminist allies. When feminist women began to mobilize against rape and domestic violence, setting up shelters and rape crisis centers, a few men asked what they could do to help. They were directed upstream, and told to talk to the men with the goal of preventing future acts of violence. This is a book about men who took this charge seriously, committing themselves to working with boys and men to stop violence, and to change the definition of what it means to be a man. The book examines the experiences of three generational cohorts: a movement cohort of men who engaged with anti-violence work in the 1970s and early 1980s, during the height of the feminist anti-violence mobilizations; a bridge cohort who engaged with anti-violence work from the mid-1980s into the 1990s, as feminism receded as a mass movement and activists built sustainable organizations; a professional cohort who engaged from the mid-1990s to the present, as anti-violence work has become embedded in community and campus organizations, non-profits, and the state. Across these different time periods, stories from life history interviews illuminate men's varying paths--including men of different ethnic and class backgrounds--into anti-violence work. *Some Men* explores the promise of men's violence prevention work with boys and men in schools, college sports, fraternities, and the U.S. military. It illuminates the strains and tensions of such work--including the reproduction of male privilege in feminist spheres--and explores how men and women navigate these tensions. Between Care and Criminality Helena Zewer, 2023-12-15 *Between Care and Criminality* examines social welfare's encounter with migration and marriage in a period of intensified border control in Melbourne, Australia. It offers an in-depth ethnographic account of the effort to prevent forced marriage in the aftermath of a 2013 law that criminalized the practice. Disproportionately targeted toward Muslim migrant communities, prevention efforts were tasked with making the family relations and marital practices of migrants objects of policy knowledge in the name of care and community empowerment.

Through tracing the everyday ways that direct service providers, police, and advocates learned to identify imminent marriages and at-risk individuals, this book reveals how the domain of social welfare becomes the new frontier where the settler colonial state judges good citizenship. In doing so, it invites social welfare to reflect on how migrant conceptions of familial care, personhood, and mutual obligation become structured by the violence of displacement, borders, and conditional citizenship.

Understanding Victims of Interpersonal Violence Veronique N. Valliere, 2019-11-21 *Understanding Victims of Interpersonal Violence: A Guide for Investigators and Prosecutors* provides accessible information for criminal justice personnel in the trenches with victims of violence to aid in understanding and explaining their behavior. This guide sheds light on interpersonal violence victims' decisions and actions by providing context and naming factors that commonly impact victim responses. These include internal factors such as culture, religion, shame, and personality, as well as external factors like access to services, support systems, and resources. These factors inhibit or facilitate responses like disclosure, resistance, and participation (or lack thereof) in the prosecution of the offenders. This book also explores the influence of the perpetrator, as well as more deeply examining victim responses that typically offer challenges to investigators and prosecutors; for example, continued contact with the offender, lack of resistance, and issues in disclosure. Finally, the guide provides concrete tools to assist investigators in interviewing and for prosecutors to use during the prosecutorial process. This book is designed for investigators, prosecutors, advocates, criminal justice practitioners, and students of these subjects.

Escaping the Maze of Spiritual Abuse Lisa Oakley, Justin Humphreys, 2019-06-20 'Authority and rigour ... great generosity and gentleness. The authors diagnose a critical problem in the church and offer practical advice on how to fix it.' Andrew Graystone, theologian, broadcaster and communications consultant 'Every time he wanted me to do something, he would quote scripture... I couldn't argue with scripture, it was like arguing with God.' The term 'spiritual abuse' is widely used across the Christian community. But what is it? Sometimes spiritual abuse involves leaders misusing their position, but ministers can also be the victims. Common factors include control through misuse of scripture, claims to divine authority, pressure to conform, and enforced accountability. Individuals may be isolated, and compelled to secrecy and silence. Drawing on a combination of extensive research, individual testimonies, and years of hands-on experience, Lisa Oakley and Justin Humphreys describe clearly the nature of spiritual abuse, and the best ways of countering it. Recovery is possible. But - how do we prevent spiritual abuse in the first place? What can leaders do to create safer places? Is there a link between theological ideas and harmful behaviours? How can leaders create opportunities for spiritual and emotional flourishing? Dr

Lisa Oakley has researched spiritual abuse in the Christian faith in the UK since 2003. Justin Humphreys is chief executive of the safeguarding charity thirtyone: eight.

Rethinking Contemporary Feminist Politics J. Dean, 2010-07-21 Rethinking Contemporary Feminist Politics puts forward a timely analysis of contemporary feminism. Critically engaging with both narratives of feminist decline and re-emergence, it draws on poststructuralist political theory to assess current forms of activism in the UK and present a provocative account of recent developments in feminist politics.

The Headship of Men and the Abuse of Women Kevin Giles, 2020-06-17 In recent years the issue of domestic abuse and violence has gained a lot of attention as the extent of it has become known. Domestic abuse and violence is now of high concern to most churches because it is evident that domestic abuse figures are much the same in our churches, and possibly higher in evangelical churches where the headship of men and the submission of women is made the God-given ideal. In this book, Kevin Giles surveys competently the scientific information on this matter now available and notes that the consensus is that the most sure indicator of higher incidences of abuse are found in communities where men are privileged and expected to be in charge and women are subordinated. This, he argues, should make complementarians consider afresh if in fact the subordination of women is the God-given ideal, established in creation before the fall.
