Free Marcus Katz Howard Marc Chesley,2022-01-28 Woven into his odd, chatty Yelp reviews of restaurants, stores and services, 22-year-old Aspie Marcus Katz chronicles in vivid detail how, after the death of his doting mother, he is railroaded by the Los Angeles probate court into an abusive conservatorship. When his bullying conservator tries to warehouse him in a run-down, dead-end group home, intending to drain his inheritance, Marcus runs away to Oregon, pursued by his conservator, on a risky, ill-advised road trip to meet up with fellow Aspie Durinda, a devoted fan of his now viral Yelp reviews. She lives with others also on the autism spectrum on a collective farm in rural Oregon. It is here that Marcus hopes to make a stand and finally take control of his life.

**Retranslation and Reception** , 2022-08-22 This is the first complete study of the relationship between Retranslation and Reception. Although many translation scholars have cited Reception Theory in their work, this is the first systematic study of its relationship to Retranslation. The book starts from the hypothesis that frequent retranslations of the same literary text into the same language may be indicative of its impact in the target culture. The volume encompasses both theory and practical analysis of Retranslation and Reception as mutually dependent concepts. The sixteen chapters relate the translations analysed to their socio-historical contexts in order to assess the impact that they have had on the target culture in terms of the reception of the authors studied, and also explore the relationship that may exist between the appearance of new translations and historical, social or cultural changes.

Tails from the Classroom Dr Russell Grigg, Helen Lewis, 2021-01-14 Written by Helen Lewis and Russell Grigg, *Tails from the Classroom: Learning and teaching through animal-assisted interventions (AAIs)* is a fascinating exploration of the use of AAIs in educational settings and how they can inspire and support learners' all-round development. There is growing interest in the idea of bringing animals into the classroom, but it is only recently that researchers have gathered clear data to show the impact of AAIs on the behavioural, emotional, physical and cognitive development of children and young people. *Tails from the Classroom* brings together this research in a highly accessible way, illustrated with real-life case studies from a range of classroom contexts. It also includes lots of practical guidance on how to set up, manage and evaluate a project, ensuring that the welfare of all participants, including the animals, is a priority. Helen and Russell discuss how AAIs can contribute towards learning in different subject areas and across the curriculum, sharing a wide range of examples to illustrate possible starting points for teachers in a range of subject and thematic contexts - even in less obvious areas such as

the arts, literature, and religious and moral codes. They also provide a historical overview of human-animal interactions, highlighting how animals have played a central part in humans' social, spiritual and cultural development. This then underpins the authors' exploration into animals' potential role in enhancing particular dimensions of children's social, emotional, intellectual and physical development and well-being. This groundbreaking book is not just for animal-loving educators, however. It is for anyone who is serious about inspiring learners of all ages and prepared to explore new ways of doing so. Suitable for educators working with learners of all ages.
