**Critical Ethics of Care in Social Work** Bob Pease,Anthea Vreugdenhil,Sonya Stanford,2017-10-06 This book argues that the concept of care is a political and a moral concept. As such, it enables us to examine moral and political life through a radically different lens. The editors and contributors to the book argue that care has the potential to interrogate relationships of power and to be a tool for radical political analysis for an emerging critical social work that is concerned with human rights and social justice. The book brings a critical ethics of care into the realm of theory and practice in social work. Informed by critical theory, feminism, intersectionality and post-colonialism, the book interrogates the concept of care in a wide range of social work settings. It examines care in the context of social neglect, interdisciplinary perspectives, the responsibilisation agenda in social work and the ongoing debate about care and justice. It situates care in the settings of mental health, homelessness, elder care, child protection, asylum seekers and humanitarian aid. It further demonstrates what can be learnt about care from the post-colonial margins, Aboriginal societies, LGBTI communities and disability politics. It demonstrates ways of transforming the politics and practices of care through the work of feminist mothers, caring practices by men, meditations on love, rethinking self-care, extending care to the natural environment and the principles informing cross-species care. The book will be invaluable to social workers, human service practitioners and managers who are involved in the practice of delivering care, and it will assist them to challenge the punitive and hurtful strategies of neoliberal rationalisation. The critical theoretical focus of the book has significance beyond social work, including nursing, psychology, medicine, allied health and criminal justice.

*Ethics and Value Perspectives in Social Work* Mel Gray,Stephen A. Webb,2010-05-19 This agenda setting text explores a broad range of value perspectives and their impact on and contribution to social work thinking on ethics. *Understanding Spirituality and the Sacred in Social Work Practice* Mary Jo McVeigh,Joel Hollier,Jioji Ravulo,2025-03-31 Social work is constantly epistemically evolving and embracing diverse bodies of knowledge to inform its ontology and practice frameworks. Over the years, the impact of feminist, post-colonial, and queer theory, for example, has broadened the social work lens and invited a welcome departure from dominant Westernised, patriarchal, and positivist paradigms.

However, the separation of the spiritual realm from casework, clinical, community, and group work traditions of social work remained steadfast. The last decade or so has seen forages into the issues of social work and spirituality. This examination into spirituality and social work has shown that for many service users, spiritual practices (be they religious or non-religious) are important in their lives and their way out of difficulties. Concurrently, relationships between socio-political movements and global religions have grown increasingly complex. To create a truly holistic approach to the needs of service users it is important that social work policy and practice give voice to these complexities and understand the place of spirituality within service delivery. This book critically reflects upon and discusses the intersecting role of spirituality in the lives of people who access social work services. By gathering contributions from people with lived experience, practitioners, and academics, this book will explore a comprehensive range of issues, opening the area of spirituality to current critical, socio-political, and cultural thought. It will be of interest to all social work scholars, students, and practitioners.

**Social Work Theory and Ethics** Dorothee Hölscher, Richard Hugman, Donna McAuliffe, 2023-03-17 This reference work addresses the ideas that shape social work. Much of the social work literature addresses questions of theory and ethics separately, so that the body of thought that is represented in social work scholarship and research creates a distinction between them. However, the differences between these categories of thought can be somewhat arbitrary. This volume goes beyond this simple separation of categories. Although it recognises that questions of theory and ethics may be addressed distinctly, the connections between them can be made evident and drawn out by analysing them alongside each other. Social work's use and development of theory can be understood in two complementary ways. First, theory from the social sciences and other disciplines can be applied for social work; second, considered, systematic examinations of practice have enabled theory to be developed out of social work. These different approaches are usually referred to as 'theory for practice' and 'practice theory'. The advancement of social work theory occurs often through the interplay between these two dimensions, through research and scholarship in the field. Similarly, social work ethics draw on principles and concepts that have their roots in philosophical inquiry and also involve applied analysis in the particular issues with which social workers engage and their practices in doing so. In this way social work contributes to wider debates through advancement of its own perspectives and knowledge gained through practice. *Social Work Theory and Ethics: Ideas in Practice* offers a unique approach by bringing together the complementary dimensions of theory with each other and at the same time with ethical research and scholarship. It presents an analysis of the ideas of social work in a way that enables connections between them to be identified and explored. This reference is essential reading for social work practitioners, researchers, policy-makers, academics and students, as well as an invaluable resource for universities, research institutes, government ministries and departments, major non-governmental organisations, and professional associations of social work.

researchers within the general field of social work with older people.' - From the foreword by Mark Lymberry, Associate Professor of Social Work, University of Nottingham The reality of our ageing population means all social workers need to be confident in working with older people. Social workers are engaged in ongoing practice with older people in a variety of contexts, from hospitals, aged care assessment teams and mental health services to employment services, housing services and rehabilitation services. *Older People, Ageing and Social Work* draws on theoretical, research, policy and practice knowledge to inform contemporary practice with older people.
