The root cause was that our company's Netskope tool was blocking requests that stemmed from containers, while not blocking requests from our local machines - we could run dotnet restore locally. The fix was to have our IT team add a rule to allow any requests to api.nuget.org. **`npm build` doesn't run the script named "build" in package.json** Apr 29, 2015 · Unfortunately npm build is already an internal command, as described in the docs: This is the plumbing command called by npm link and npm install. It should generally not be called directly. Because that command already exists, it always shadows over your "build": "node build.js". The fully-qualified way to run your own script is with run-script or its alias run: \$ npm ...
