Korean Buddhist Nuns and Laywomen Eun-su Cho,2012-01-02 Uncovering hidden histories, this book focuses on Korean Buddhist nuns and laywomen from the fourth century to the present. Today, South Korea's Buddhist nuns have a thriving monastic community under their own control, and they are well known as meditation teachers and social service providers.

However, little is known of the women who preceded them. Using primary sources to reveal that which has been lost, forgotten, or willfully ignored, this work reveals various figures, milieux, and activities of female adherents, clerical and lay. Contributors consider examples from the early days of Buddhism in Korea during the Three Kingdoms and Unified Silla periods (first millennium CE); the Koryŏ period (982-1392), when Buddhism flourished as the state religion; the Chosŏn period (1392-1910), when Buddhism was actively suppressed by the Neo-Confucian Court; and the contemporary resurgence of female monasticism that began in the latter part of the twentieth century.

Celebrating Sorrow ,2022-08-15 Celebrating Sorrow explores the medieval Japanese fascination with grief in tributes to The Tale of Sagoromo, the classic story of a young man whose unrequited love for his foster sister leads him into a succession of romantic tragedies as he rises to the imperial throne. Charo B. D'Etcheverry translates a selection of Sagoromo-themed works, highlighting the diversity of medieval Japanese creative practice and the persistent and varied influence of a beloved court tale. Medieval Japanese readers, fascinated by Sagoromo's sorrows and success, were inspired to retell his tale in stories, songs, poetry, and drama. By recontextualizing the tale's poems and writing new libretti, stories, and commentaries about the tale, these medieval aristocrats, warriors, and commoners expressed their competing concerns and ambitions during a chaotic period in Japanese history, as well as their shifting understandings of the tale itself. By translating these

creative responses from an era of uncertainty and turmoil, *Celebrating Sorrow* shows the richness and enduring relevance of Japanese classical and medieval literature.

The Writings of Nichiren Daishonin, vol. 2 Soka Gakkai, 2024-08-01 An authoritative translation of 234 of Nichiren's writings presented in chronological order. The collection includes Nichiren's five major works as well as other treatises setting forth his doctrine, writings remonstrating with government officials, and letters offering advice, encouragement, or consolation to believers. The translations are based on those of Burton Watson, formerly of Columbia University and an award-winning translator of Chinese and Japanese literature. Edited by the Soka Gakkai's Goshō Translation Committee, these are the translations used by English-speaking Soka Gakkai members the world over.

Greenhouse Planet Lewis H. Ziska, 2022-09-27 The carbon dioxide that industrial civilization spews into the atmosphere has dramatic consequences for life on Earth that extend beyond climate change. CO₂ levels directly affect plant growth, in turn affecting any kind of life that depends on plants—in other words, everything. *Greenhouse Planet* reveals the stakes of increased CO₂ for plants, people, and ecosystems—from crop yields to seasonal allergies and from wildfires to biodiversity. The veteran plant biologist Lewis H. Ziska describes the importance of plants for food, medicine, and culture and explores the complex ways higher CO₂ concentrations alter the systems on which humanity relies. He explains the science of how increased CO₂ affects various plant species and addresses the politicization and disinformation surrounding these facts. Ziska confronts the claim that “CO₂ is plant food,” a longtime conservative talking point. While not exactly false, it is deeply misleading. CO₂ doesn't just make “good” plants grow; it makes all plants grow. It makes poison ivy more poisonous, kudzu more prolific, cheatgrass more flammable. CO₂ stimulates some species more than others: weeds fare particularly well and become harder to control. Many crops grow more abundantly but also become less nutritious. And the further effects of climate change will be formidable. Detailing essential science with wit and panache, *Greenhouse Planet* is an indispensable book for all readers interested in the ripple effects of increasing CO₂.

World Peace through Inner Happiness Lela Ryterski, 2023-06-28 Nichiren, a thirteenth-century Japanese Buddhist monk, discovered a secret teaching that presents a powerful, practical method to create inner happiness. It is known as a “wish-granting jewel” or a “cluster of blessings.” Practitioners of this method gain wisdom, courage, confidence, and fortune in their lives. In *World Peace through Inner Happiness*, Lela Ryterski provides a concise history of the development of this practice used today by the Soka Gakkai, the organization that emerged from Nichiren’s teachings. The Soka Gakkai has fostered a revolutionary worldwide Buddhist movement. Ms. Ryterski has been a member for over thirty-five years. She admits to having been a shy and timid person. Making wrong decisions and living according to others, she felt like a leaf in the wind. Through the practice of Nichiren Buddhism, she has become strong. She’s learned that she’s an important person, and so is everyone. We’re all born because we have a mission, and we’re on this path together. By infusing society with this teaching, we can transform the world from one mired in suffering to one of peace. *World Peace through Inner Happiness* gives a rational account of how to make the impossible possible. You cannot do all the good that the world needs, but the world needs all the good that you can do.
