Shakespeare, The Movie II Richard Burt, Lynda E. Boose, 2004-02-24 Combining three key essays from the earlier collection with exciting new work from leading contributors, this text offers sixteen fascinating essays. It is quite simply a must-read for any student of Shakespeare, film or cultural studies.

Sounding the Virtual: Gilles Deleuze and the Theory and Philosophy of Music Nick Nesbitt, 2016-04-01 It is the contention of the editors and contributors of this volume that the work carried out by Gilles Deleuze, where rigorously applied, has the potential to cut through much of the intellectual sedimentation that has settled in the fields of music studies. Deleuze is a vigorous critic of the Western intellectual tradition, calling for a 'philosophy of difference', and, despite its ambitions, he is convinced that Western philosophy fails to truly grasp (or think) difference as such. It is argued that longstanding methods of conceptualizing music are vulnerable to Deleuze's critique. But, as Deleuze himself stresses, more important than merely critiquing established paradigms is developing ways to overcome them, and by using Deleuze's own concepts this collection aims to explore that possibility.

The Musical William Everett, 2011-06-02 The musical, whether on stage or screen, is undoubtedly one of the most recognizable musical genres, yet one of the most perplexing. What are its defining features? How does it negotiate multiple socio-cultural-economic spaces? Is it a popular tradition? Is it a commercial enterprise? Is it a sophisticated cultural product and signifier? This research guide includes more than 1,400 annotated entries related to the genre as it appears on stage and screen. It includes reference works, monographs, articles, anthologies, and websites related to the musical. Separate sections are devoted to sub-genres (such as operetta and megamusical), non-English language musical genres in the U.S., traditions outside the U.S., individual shows, creators, performers, and performance. The second edition reflects the notable increase in musical theater scholarship since 2000. In addition to printed materials, it includes multimedia and electronic resources.

Creating Musical Theatre Lyn Cramer, 2013-07-18 Creating Musical Theatre features interviews with the directors and choreographers that make up today's Broadway elite. From Susan Stroman and Kathleen Marshall to newcomers Andy Blankenbuehler and Christopher Gattelli, this book features twelve creative artists, mostly director/choreographers, many of whom have also crossed over into film and television, opera and ballet. To the researcher, this book will deliver specific

information on how these artists work; for the performer, it will serve as insight into exactly what these artists are looking for in the audition process and the rehearsal environment; and for the director/choreographer, this book will serve as an inspiration detailing each artist's pursuit of his or her dream and the path to success, offering new insight and a deeper understanding of Broadway today. *Creating Musical Theatre* includes a foreword by four-time Tony nominee Kelli O'Hara, one of the most elegant and talented leading ladies gracing the Broadway and concert stage today, as well as interviews with award-winning directors and choreographers, including: Rob Ashford (*How to Succeed in Business Without Really Trying*); Andy Blankenbuehler (*In the Heights*); Jeff Calhoun (*Newsies*); Warren Carlyle (*Follies*); Christopher Gattelli (*Newsies*); Kathleen Marshall (*Anything Goes*); Jerry Mitchell (*Legally Blonde*); Casey Nicholaw (*The Book of Mormon*); Randy Skinner (*White Christmas*); Susan Stroman (*The Scottsboro Boys*); Sergio Trujillo (*Jersey Boys*); and Anthony Van Laast (*Sister Act*).

Global Tangos Melissa A. Fitch, 2015-02-25 *Global Tangos: Travels in the Transnational Imaginary* argues against the hackneyed rose-in-mouth clichés of Argentine tango, demonstrating how the dance may be used as a way to understand transformations around the world that have taken place as a result of two defining features of globalization: transnationalism and the rise of social media. *Global Tangos* demonstrates the cultural impact of Argentine tango in the world by assembling an unusual array of cultural narratives created in almost thirty countries, all of which show how tango has mixed and mingled in the global imaginary, sometimes in wildly unexpected forms. Topics include Tango Barbie and Ken, advertising for phone sex, the presence of tango in political upheavals in the Middle East and in animated Japanese children's television programming, gay tango porn, tango orchestras and composers in World War II concentration camps, global tango protests aimed at reclaiming public space, the transformation of Buenos Aires as a result of tango tourism, and the use of tango for palliative care and to treat other ailments. They also include the global development of queer tango theory, activism, and festivals. *Global Tangos* shows how the rise in social media has heralded a new era of political activism, artistry, solidarity, and engagement in the world, one in which virtual global tango communities have indeed become very "real" social and support networks. The text engages some key concepts from contemporary critics in the fields of tourism studies, geography, dance studies, cultural anthropology, literary studies, transnational studies, television studies, feminism, and queer theory. *Global Tangos* underscores the interconnectedness of cultural identity, economics, politics, and power in the production, marketing, distribution, and circulation of global images related to tango—and, by extension, Latin America—that travel the world.

Music in the Shadows Sheri Chinen Biesen, 2014-05 Welcome to the world of noir musical films, where tormented antiheroes and hard-boiled musicians battle obsession and struggle with their music and ill-fated love triangles. Sultry divas dance and sing the blues in shrouded nightclubs. Romantic intrigue clashes with backstage careers. This book explores musical films that use film noir style and bluesy strains of jazz to inhabit a disturbing underworld and reveal the dark side of

fame and the American Dream. While noir musical films like *A Star Is Born* include musical performances, their bleak tone and expressionistic aesthetic more closely resemble the visual style of film noir. Their narratives unfold behind a stark noir lens: distorted, erratic angles and imbalanced hand-held shots allow the audience to experience a tortured, disillusioned perspective. While many musicals glamorize the quest for the spotlight in Hollywood's star factory, brooding noir musical films such as *Blues in the Night*, *Gilda*, *The Red Shoes*, *West Side Story*, and *Round Midnight* stretch the boundaries of film noir and the musical as film genres collide. Deep shadows, dim lighting and visual composition evoke moodiness, cynicism, pessimism, and subjective psychological points of view.

Listen to Movie Musicals! James E. Perone, 2020-01-13 *Listen to Movie Musicals!* provides an overview of musical theater on film for fans of the genre, with a focus on 50 must-hear musicals featured in movies. *Listen to Movie Musicals!* includes an overview of musical theatre and movie musicals in the United States. The 50 movies chosen for critical analysis include many of the best-known film musicals of the past and present; however, the list also includes several important movie musicals that were popular successes that are not necessarily on the best-of lists in other books. This volume also includes a greater focus on the actual music of movie musicals than do most other books, making it a stand-out title on the topic for high school and college readers. Like the other books in this series, this volume includes a background chapter followed by a chapter that contains 50 important essays on must-hear movie musicals of approximately 1,500 words each. Chapters on the impact of movie musicals on popular culture and the legacy of movie musicals further explain the impact of both the movies and their songs.

Baz Luhrmann Tom Ryan, 2014-11-05 Though he has made only five films in two decades—*Strictly Ballroom*, *William*

Shakespeare's *Romeo + Juliet*, and the Oscar-nominated films *Moulin Rouge!*, *Australia*, and *The Great Gatsby*—Australian writer-director Baz Luhrmann is an internationally known brand name. His name has even entered the English language as a verb, as in “to Baz things up,” meaning “to decorate them with an exuberant flourish.” Celebrated by some, loathed by others, his work is underscored by what has been described as “an aesthetic of artifice” and is notable for both its glittering surfaces and recurring concerns. In this collection of interviews, Luhrmann discusses his methods and his motives, explaining what has been important to him and his collaborators from the start and how he has been able to maintain an independence from the studios that have backed his films. He also speaks about his other artistic endeavors, including stage productions of *La Bohème* and *A Midsummer Night's Dream*, and his wife and collaborative partner Catherine Martin, who has received two Academy Awards for her work with Luhrmann.

The Oxford Companion to the American Musical Thomas S. Hischak, 2008-06-02 From the silver screen to the Great White Way, small community theatres to television sets, the musical has long held a special place in America's heart and history. Now, in *The Oxford Companion to the American Musical*, readers who flocked to the movies to see *An American in Paris* or *Chicago*, lined up for tickets to *West Side Story* or *Rent*, or crowded around their TVs to watch *Cinderella* or *High School Musical* can finally turn to a single book for details about them all. For the first time, this popular subject has an engaging and authoritative book as thrilling as the performances themselves. With more than two thousand entries, this illustrated guide offers a wealth of information on musicals, performers, composers, lyricists, producers, choreographers, and much more. Biographical entries range from early stars Fred Astaire, Bing Crosby, Mary Martin, and Mae West to contemporary show-stoppers Nathan Lane, Savion Glover, and Kristin Chenoweth, while composers Irving Berlin, George Gershwin, Richard Rodgers, and Andrew Lloyd Webber all have articles, and the choreography of Bob Fosse, Tommy Tune, and Debbie Allen receives due examination. The plays and films covered range from modern hits like *Mamma Mia!* and *Moulin Rouge!* to timeless classics such as *Yankee Doodle Dandy* and *Show Boat*. Also, numerous musicals written specifically for television appear throughout, and many entries follow a work—*Babes in Toyland* for example—as it moves across genres, from stage, to film, to television. The Companion also includes cross references, a comprehensive listing of recommended recordings and further reading, a useful chronology of all the musicals described in the book, plus a complete index of Tony Award and Academy Award winners. Whether you are curious about *Singin' in the Rain* or *Spamalot*, or simply adore *The Wizard of Oz* or *Grease*, this well-researched and entertaining resource is the first place to turn for reliable information on virtually every aspect of the American musical.

Musicals in Film Thomas S. Hischak, 2016-11-07 This wide-ranging guide introduces (or reintroduces) readers to movie musicals past and present, enabling them to experience the development of this uniquely American art form—and discover films they'll love. This comprehensive guide covers movie musicals from their introduction with the 1927 film *The Jazz Singer*

through 2015 releases. In all, it describes 125 movies, opening up the world of this popular form of entertainment to preteens, teens, and adults alike. An introduction explains the advent of movie musicals; then, in keeping with the book's historical approach, films are presented by decade and year with overviews of advances during particular periods. In this way, the reader not only learns about individual films but can see the big picture of how movie musicals developed and changed over time. For each film covered, the guide offers basic facts—studio, director, songwriters, actors, etc.—as well as a brief plot synopsis. Each entry also offers an explanation of why the movie is noteworthy, how popular it was or wasn't, and the influence the film might have had on later musicals. Sidebars offering brief biographies of important artists appear throughout the book.

200 Themes for Devising Theatre with 11-18 Year Olds Jason Hanlan, 2024-02-22 Shortlisted for Outstanding Drama Education Resource at the 2025 Music & Drama Education Awards A unique resource for drama teachers providing 200 stimuli and age-appropriate individual topics within those to help inspire and guide young people in devising performance. It contains useful information on devising techniques, workshops, schemes and lesson ideas for introducing devising and guidance on how to analyse the work and give feedback. Following on from his successful book 200 Plays for GCSE and A-Level Performance, author Jason Hanlan has once again solved one of drama teachers' most frequently encountered problems: how to unlock the best devised performance with their students. Devising as a group requires a level of collaboration, which - without a strong framework - often descends into wild flights of fancy and a myriad of dead ends. Excellent ideas can be lost or diluted in an often-awkward attempt to tie it all together to fit a narrative. The main body of this book is a unique numbered listing of 200 stimuli, designed to both inspire and focus the mind, with an example of a possible topic and 'ways in' that would be suitable for each level: Civil rights Each stimuli is given its own page dedicated to exploring its possibilities as a piece of devised theatre for different age groups, and offering suggestions for plays, films and books to look at; artefacts and images to examine; ideas to consider; and further research you can draw on.

Initially driven by a compulsion to escape from her father, she took refuge in a private world of music, singing along with her favourite tapes. When she and her mother fled to escape the family home, Christina's ambitions to sing made her the victim of school bullying, but after a breakthrough stint on TV in Disney's *The New Mickey Mouse Club* she finally won a record deal. Rejecting bids to mould her into a bubblegum pop act by suppressing her sexuality and changing her Ecuadorian name, she attracted threats, rumours and criticism from those she alienated.
