The Kybalion: Hermetic Philosophy, originally published in 1908 under the pseudonym of the Three Initiates, is a book claiming to be the essence of the teachings of Hermes Trismegistus. Since 1908, it has served as a study of basic hermetic teachings that outline an ageless wisdom. In ancient times (and even today), these teachings were not understood by the lay person, but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. -- The Kybalion

The Kybalion William Walker Atkinson,Three Initiates,Philip Deslippe,2011-04-28 Here is the flagship edition of the most popular occult work of the past century, now published with a groundbreaking historical introduction that establishes its authentic authorship and a lost bonus work by the original author. It is one of the most mysterious and hotly debated occult works ever written-and without question the most popular and widely influential book of arcane philosophy of the twentieth century: The Kybalion has been credited only to the cryptic Three Initiates since its first appearance in 1908. Debate rages over the identity of the Three Initiates, the origin of the book's mysterious title and insights, and the nature of the Hermetic teachings on which it is thought to be based. Now the veil is parted. The Kybalion: The Definitive Edition presents the first full- scale analysis of this work of practical occult wisdom. It features the complete text of The Kybalion and the first-ever publication of Atkinson's previously unknown post-Kybalion work: The Seven Cosmic Laws. In an engaging introduction to this unique volume, religious scholar Philip Deslippe surveys the work's context, history, and impact (including as a source of spiritual insight to communities ranging from New Thought to Black Nationalism), and provides a biographical sketch of its elusive author, the New Thought pioneer William Walker Atkinson. As valuable to new fans as it is to longtime readers who crave more knowledge about Atkinson and his work, The Kybalion: The Definitive Edition illuminates the remarkable history of this long-cherished text.
