One Hundred Years of Solitude Gabriel Garcia Marquez, 2003-06-24 One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

The Blueberry Years Jim Minick, 2010-08-31 A truly inspiring story, in gorgeous prose, about one family's journey into blueberry farming. Delicious reading. —Naomi Wolf, author of *The End of America* *The Blueberry Years* is a mouth-watering and delightful memoir based on Jim Minick's trials and tribulations as an organic blueberry farmer. This story of one couple and one farm shows how our country's appetite for cheap food affects how that food is grown, who does or does not grow it, and what happens to the land. But this memoir also calls attention to the fragile nature of our global food system and our nation's ambivalence about what we eat and where it comes from. Readers of Michael Pollan and Barbara Kingsolver will savor the tale of Jim's farm and the exploration of larger issues facing agriculture in the United States—like the rise of organic farming, the plight of small farmers, and the loneliness common in rural America. Ultimately, *The Blueberry Years* tells the story of a place shaped by a young couple's dream, and how that dream ripened into one of the mid-Atlantic's first certified-organic, pick-your-own blueberry farms.

Cyber Security Education Greg Austin, 2020-07-30 This book investigates the goals and policy aspects of cyber security education in the light of escalating technical, social and geopolitical challenges. The past ten years have seen a tectonic shift

in the significance of cyber security education. Once the preserve of small groups of dedicated educators and industry professionals, the subject is now on the frontlines of geopolitical confrontation and business strategy. Global shortages of talent have created pressures on corporate and national policy for workforce development. Cyber Security Education offers an updated approach to the subject as we enter the next decade of technological disruption and political threats. The contributors include scholars and education practitioners from leading research and education centres in Europe, North America and Australia. This book provides essential reference points for education policy on the new social terrain of security in cyberspace and aims to reposition global debates on what education for security in cyberspace can and should mean. This book will be of interest to students of cyber security, cyber education, international security and public policy generally, as well as practitioners and policy-makers.

The Lands in Between Mitchell A. Orenstein, 2019-04-01 Russia's stealth invasion of Ukraine and its assault on the US elections in 2016 forced a reluctant West to grapple with the effects of hybrid war. While most citizens in the West are new to the problems of election hacking, state-sponsored disinformation campaigns, influence operations by foreign security services, and frozen conflicts, citizens of the frontline states between Russia and the European Union have been dealing with these issues for years. *The Lands in Between: Russia vs. the West and the New Politics of Russia's Hybrid War* contends that these lands in between hold powerful lessons for Western countries. For Western politics is becoming increasingly similar to the lands in between, where hybrid warfare has polarized parties and voters into two camps: those who support a Western vision of liberal democracy and those who support a Russian vision of nationalist authoritarianism. Paradoxically, while politics increasingly boils down to a zero sum civilizational choice between Russia and the West, those who rise to the pinnacle of the political system in the lands in between are often non-ideological power brokers who have found a way to profit from both sides, taking rewards from both Russia and the West. Increasingly, the political pathologies of these small, vulnerable, and backwards states in Europe are our problems too. In this deepening conflict, we are all lands in between.

A Rotten Crowd John Marsh, 2024-11-13 A look at how much, and how little, has changed about class in America One century ago, F. Scott Fitzgerald invited us into the lives of the “rotten crowd,” Jazz Age Americans with far more money than morals. In “A Rotten Crowd”: America, Wealth, and One Hundred Years of *The Great Gatsby*, John Marsh welcomes us back to Fitzgerald’s world to examine the rich and their reckless approach to human relationships, their poor taste in friends, and the harm they cause. Marsh leads us to wonder: What kinds of waste—economic, environmental, emotional—accompany a culture of wealth? What kinds of relationships do the wealthy form with those they rely upon to maintain their power—and how does capitalism and the need for the accumulation of wealth influence the bonds the rest of us form? On a surface level, how do the clothes people wear signal their status—and how do those fashions trickle down to the rest of us? And on a deeper level, how does racism drive a wedge between those who might otherwise stand up to the rich? As we move between 2025 and 1925 to consider how much—or little—has changed in the interim, *A Rotten Crowd* helps us discover what we can do about the obscene concentration of wealth in America today.

If You Could Live Anywhere Melody Warnick, 2022-07-26 Even when your job can be done from anywhere, the place you call home still matters—a lot. By the old rules of work, your dream career determines where you live. If you want to make movies, move to Los Angeles. If you want to work in publishing, you must be in New York. And if you're launching a start-up, you'll only succeed in Silicon Valley. But with the meteoric rise of remote and freelance work, more people than ever are becoming location independent. Even doctors, teachers, and other people in more traditional occupations have to make tough choices about where they settle, because living in the right place can still make all the difference for your success and happiness. So if work won't dictate where you live, how will you ever decide? If You Could Live Anywhere answers that question. Melody Warnick unpacks the big-picture concerns that we often miss when we're writing pros-and-cons lists about potential destinations. Because the secret to being happy isn't moving, it's aligning your location with your values. You'll learn how to craft a personal location strategy that will make the most of your money, your community, and your life, with success stories from people who flexed their location independence to find homes and work they love. The future of work is clear: it can happen wherever you are. So where do you really want to be?

Extraordinary Forms of Aging Julia Velten, 2022-10-07 While aging and the life-course appear to be normalized

processes, the complex construction of age at the intersection of biology, society, and culture remains opaque. This study contributes to a deeper understanding of age(ing) by exploring its construction through the analysis of extraordinary cases. Focusing on life narratives of centenarians and children with progeria, Julia Velten analyzes the way in which these people experience age(ing) and shows how these experiences can contribute to our understanding of age. Situated at the intersection of aging studies and medical humanities, the study explores what extraordinary age(ing) can tell us about aging processes in general.

The Loneliness Epidemic Susan Mettes, 2021-11-30 What makes people lonely? And how can Christian communities better minister to the lonely? In *The Loneliness Epidemic*, behavioral scientist and researcher Susan Mettes explores those questions and more. Guided by current research from Barna Group, Mettes illustrates the profound physical, emotional, and social toll of loneliness in the United States. Surprisingly, her research shows that it is not the oldest Americans but the youngest adults who are loneliest and that social media can actually play a positive role in alleviating loneliness. Mettes highlights the role that belonging, friendship, closeness, and expectations play in preventing it. She also offers meaningful ways the church can minister to lonely people, going far beyond simplistic solutions--like helping them meet new people--to addressing their inner lives and the God who understands them. With practical and highly applicable tips, this book is an invaluable tool for anyone--ministry leaders, parents, friends--trying to help someone who feels alone. Readers will emerge better able to deal with their own loneliness and to help alleviate the loneliness of others. Foreword by Barna Group president David Kinnaman.

International Perspectives on Older Adult Social Isolation and Loneliness Ted K. S. Ng, Roger O'Sullivan, Lenard Kaye, James Lubben, Mercedes Bern-Klug, Matthew Lee Smith, 2025-05-06 Frontiers in Public Health is excited to announce a Research Topic with the theme International Perspectives on Older Adult Social Isolation and Loneliness. This collection aims to address the urgent public health challenge posed by the escalating levels of isolation, loneliness, and disconnection experienced by older adults. The influence of physical, environmental, social, psychological, cultural, and economic forces on late-life relationships and connectedness will be explored by an international roster of researchers and practice scholars. The perspectives of theorists, educators, administrators, public health officials, clinicians, and program planners will all be included to ensure arriving at a more nuanced appreciation of what has been proclaimed as one of the greatest public health challenges of our day. Arriving at a greater understanding of the conditions that put elders at risk of becoming socially isolated and lonely; the extent to which it should be considered both a personal, community, and societal threat; the impact of COVID-19, those at greatest risk, its negative consequences, and, steps that can be taken to prevent, reduce, and reverse its occurrence. Ultimately, this Research Topic intends to help readers more thoroughly understand the underlying causes as well as effective programmatic strategies for bolstering older adult social and emotional health and community engagement

across diverse cultures, social systems, and cohorts. This Research Topic will represent some of the most current theoretical, programmatic, and clinical research from around the world inquiring into the growing fragility of late-life relationships and the accompanying feelings of disengagement. From multiple disciplinary and professional perspectives, this Research Topic will serve to document our current understanding of the complexities surrounding the negative impacts of weakened relational ties on older adult safety, health, and well-being. Additionally, it will showcase some of the most promising programs and interventive techniques that show the greatest promise in helping to repair and maintain the integrity of an older adult's social and community network and support system. Submission topics may include, but are not limited to: • theoretical frameworks and conceptual models of social isolation and loneliness in older adults • epidemiological and prevalence analyses of social isolation and loneliness among diverse populations of older adults • the emotional, behavioural, physical, environmental and social determinants that contribute to the risk for and prevalence of elder isolation and/or loneliness • impacts of social isolation and loneliness on older adult health, safety, cognition, life satisfaction, and well-being • innovative programs and interventions aimed at preventing and/or reducing social isolation and loneliness • multidisciplinary approaches to addressing social isolation and loneliness in older adult populations • policy and community-based initiatives to promote social connectedness and engagement • the influence of the COVID-19 pandemic on elder isolation and loneliness • technological advancements and their role in potentially increasing and, conversely, mitigating social isolation and loneliness among older adults.

Marginalisation and Events Trudie Walters, Allan Stewart Jepson, 2019-01-08 This book is the first to take an in-depth examination of marginalisation and events. Marginalisation has been the subject of academic research for some time now. For example, marginalisation and exclusion have been identified as problematic in fields as diverse as geography, public health, education and media studies. However, little research has been carried out within the field of event studies. Using of a range of different theoretical and methodological approaches from a variety of disciplines, the volume applies a critical approach to events as they relate to marginalisation that seeks to address the 'how' and 'why', and to provide a holistic picture of their place and influence in the lives of marginalised individuals and communities. International through authorship and examples, it encompasses case studies from around the world, including South Africa, the United Kingdom, Italy, Afghanistan, the United States, Brazil, Portugal, Australia and New Zealand. This is essential reading for students and researchers in the fields of critical event studies, anthropology, cultural studies, tourism, sociology and management.

OECD Rural Studies Rural Well-being Geography of Opportunities OECD, 2020-10-05 Rural Well-being: Geography of Opportunities presents the latest iteration on this policy framework, reflecting several important changes in rural development in recent years. Fully taking into account the variety of situations characterising rural regions, the new policy framework leverages improved data and analysis while broadening the scope from economic focus to encompass the
